PERSONAL.—Yesterday morning Mr. Wm. H. Peters, brother of Mr. Samuel Peters, P. L. S., and wife, left for Minnesota, U.S., where they purpose sojourning for several months.

INDUCTION.—Rev. J. A. R. Dickson, who was formerly stationed in this city, was on Tuesday last inducted into the pastoral charge of the Union Church, of Guelph, and was warmly welcomed by the congregation.

INSANE.—A young woman named Annie Matiere was locked up yesterday, being adjudged to be insane. She resides in Strathroy, and was sent to this city by Constable Miller, of that village. The usual examination will be made by the Jail Physician.

BAPTIST CONVENTION.—The Convention of the Baptists of Ontario is being held in the city of St. Catharine's this week, in the Queen Street Church. Most of the time of the Convention will be occupied with business in connection with the missionary and educational work of the denomination.

LARCENY.—On Tuesday a warrant was sworn out against a man named James Shaver, charging him with the larceny of a silver watch, of the value of $20, from a Mr. Daniel Wright. The warrant was placed in the hands of Detective Phair, who, ascertaining that Shaver had left the city, telegraphed to Chief of Police Thatcher, of Sarnia, giving him a full description of the man wanted. Guided by the description, Shaver was arrested, and yesterday Detective Phair proceeded to Sarnia and brought his prisoner back. On his person was found the watch stolen, and also a revolver. It is about time criminals knew they cannot escape the clutches of our city detectives.

PERSONAL.—Many of our readers will learn with deep regret that Rev. W. F. Campbell, who has so ably and with so much acceptance filled the position of rector of St. Thomas' Church, Seaforth, for the past two or three years, has resigned his charge, and will remove to London. During his residence in Seaforth, Mr. Campbell has proven himself to be not only an able and earnest minister of his church, but a most useful citizen, taking as he did an active interest in all enterprises tending to elevate the moral and intellectual standing of our people. By his free, genial and courteous manner, he succeeded in a short time in making himself a general favorite, and there are none who enjoyed the pleasure of his acquaintance but will regret his removal from our midst. Mr. Campbell takes up his residence in London, to which place he removed with his family yesterday. We heartily wish him the largest measure of success in the new and more responsible and enlarged sphere of usefulness to which he has been called.—*Seaforth Expositor.*

SERIOUSLY BURNED.—Constable Patton, of the G. W. R., had a very painful experience on Tuesday morning. He left a lighted oil lamp on a table beside the bed, and about 4 o'clock it exploded with a report like that of a cannon, scattering the burning oil in every direction, over and under the bed and over the floor. Part of the oil fell upon Mr. Patton's face and head, causing painful injuries. He rose up quickly, and with great presence of mind seized the bed-clothing to smother the fire. This was no easy task on account of the manner in which the oil had spread over the room. The house had a very narrow escape from destruction. Mr. Patton was burnt on the legs and body as well as on the face and head, and a little child with whom he was sleeping was also badly burned. These explosions are becoming altogether too common, and suggest that the oil used is of inferior quality, and not up to the standard required by law. Oil rectified as required should not explode. There must, consequently, be some cheap and highly dangerous admixture, such as benzine. There should be a close inspection of the oils on sale, as they are liable to be adulterated, to the peril of innocent consumers.

A PICNIC UNDER DIFFICULTIES.—A correspondent tells this harrowing tale:—No boat to-day, were the words posted on the gate of the T. N. Co.'s dock, at the foot of Dundas street, that met the astonished gaze of a party of picnickers on Tuesday afternoon, who were bent on going to the Water-works and having a good time. They paused for awhile to meditate on the many obstacles placed in the way of picnics, &c. That there might not be enough water in the Thames to float a steamboat never entered their calculations, but after getting so far on their way they resolved to proceed in row boats to Fort Kil. They then procured boats from Massie, with whom they had considerable discussion as to the mode of navigation, &c. They got afloat about twilight and sailed with dying colors to the port above mentioned. Arriving at Woodland, they cruised up and down both shores to find suitable grounds to pitch their tent, which they ultimately did on the west side. After partaking of an ample spread, which had been provided by the ladies of the party, they entertained themselves with games and sports incidental to picnics and pleasure parties. They finally set sail for home, and "such a getting up stream," running into snags, stones and the bank! About 10 o'clock last night a small boy was seen piloting in a line of row boats and assisting a number of passengers to get ashore—which could only be done by acts of a difficult and fantastic description—in order to save themselves from the mud, and which in reality was freely bespattered over most of them.

LOCAL NOTICES.

TONIC SOL FA.—Mr. R. F. Lacey announces that he will commence another of his popular evening singing classes at the P. M. Church, King street, on Friday (to-morrow) evening, under the auspices of the Tonic Sol Fa College, London. Terms will be made known on the night of opening.

BULBS AND SEEDS.—The fall catalogue of bulbs, seeds, everlasting flowers, grasses, &c., of Messrs. McBroom & Woodward has just been issued, and forms a valuable compendium of information on the subject of flower gardening. The different varieties are named and described with plain directions as to their cultivation, so that by the aid of this catalogue almost any one may become a skillful horticulturist, and possibly distinguish themselves at the Fair. The bulbs are all imported from Holland, from the most reliable dealers, and with proper care, as directed, will flourish and form a never-ceasing element of pleasure for the winter months in the household. Our readers should procure a catalogue, and proceed to make their selections for cultivation.

FALL OPENING.—The fashionable millinery show-rooms of Messrs. A. B. Powell & Co. opened yesterday with a grand display of the latest and most admired goods, attracting a stream of visitors. This enterprising firm have this season outdone all their former efforts in the extent and variety of their importations. Ladies are invited to call and inspect.

ART AUCTION SALE.—Manville & Brown will sell at their rooms, Mechanics' Institute, at 3 p. m. to-day, the largest and finest collection of water color and oil paintings ever offered in the city from the studio of the well-known artist Mr. Judson. Time given on all purchases. Ladies specially invited.

DR. ANDERSON, oculist and aurist, makes his regular monthly visit to London to-morrow (Thursday). He may be consulted at the Tecumseh House. 16-i

The Bank Embezzlement Case.

Sentence Passed Upon Chas. L. Lancaster.

TWO YEARS IN THE PENITENTIARY!

At the Interim Sessions, yesterday, Charles Lawrence Lancaster was brought up for sentence before His Honor Judge Elliot, having previously pleaded guilty to a charge of embezzlement.

Mr. C. Hutchinson, Crown Attorney moved the sentence of the Court.

In answer to the question as to whether he had aught to say why sentence should not be passed, prisoner replied in the negative.

His Honor then, in the following words, passed

THE SENTENCE.

"Charles Lawrence Lancaster, you are charged with stealing $1,000 from the Merchants' Bank. To this charge you have pleaded that you are guilty. You did this while you were a clerk in the Bank, and possessed the confidence of its authorities. This is a very serious offence, and it is one for which the extreme punishment provided by the Legislature consists of a long term of years in the Penitentiary.

"It is truly lamentable to think that a young man who was trusted by his employers, and had a fair prospect of advancement in life, should by his criminal act blast all these expectations, and bring unspeakable anguish to his parents.

"So far as an open confession of your guilt can furnish any atonement for your offence, you have given it. It seems that before this theft was fixed on you, you meditated an escape to the United States; but that when you were on the point of crossing the lines you were so stricken by remorse that you resolved to return and make a full acknowledgment of your guilt, whatever the consequences might be. You have done this, and have been mainly instrumental in discovering the guilt of a confederate.

"I have some proof before me of the misery which oppressed you when you thought what your mother's feelings would be when she should hear of your disgrace. It would be well if your case should operate as a warning to other young men who are in positions of trust such as you occupied. Perhaps it may remind them that if they seek for comfort and happiness they are not to be found by deviating from the straight line of honesty. Those who are in positions similar to that which you occupied are in the midst of temptation. Money lies around them. This money will buy jewelry and ornaments and pleasure. So you felt, and so you thought, and you fell. Now, in your wretchedness, you see that these are the 'fruits which tempt the eye, but turn to ashes on the lips.'

"It appears that until you committed this offence you bore a good reputation. This, and the full disclosure you have made, conjoined with your return to submit yourself to justice, rather than effect your escape beyond the reach of our law, which it appears was within your power—these circumstances, I think, warrant an abatement of the extreme punishment provided by law. The sentence of the Court upon you, Charles Lawrence Lancaster, is that you will be imprisoned in the Provincial Penitentiary for two years."

The prisoner was then removed, and the Court adjourned.

London East Notes.

FIRE YESTERDAY MORNING

About 2 o'clock yesterday morning a fire broke out in a frame building in rear of the fruit store of Mr. H. Croxon, opposite the Hicks Block, Dundas street. When discovered the fire had gained considerable headway, and it was impossible to save any of the contents. A large number of people residing in the vicinity, attracted by the glare of the burning structure, were soon on hand and, forming themselves into a bucket brigade, turned their attention to saving the adjoining buildings. In this they were successful, though at times it appeared as if all the surrounding buildings would ignite. Fortunately there was no wind prevailing, and the two-story workshop of Mr. W. H. Gribble, distant some twenty feet, was the only other building which suffered damage. The roof and siding of this workshop caught on fire, and was burning quite briskly, but the efforts of the neighbors to extinguish it were successful. The building destroyed was owned by Mr. Gribble, who had stored in it considerable furniture in process of manufacture, and other articles, all of which fell a prey to the flames. Mr. Gribble's workshop was filled with furniture, made up and in process of manufacture, which was slightly damaged. Mr. Croxon lost most of the linen of the family, which was hanging on a line attached to the building destroyed. Mr. Gribble loses on stock about $300, and on buildings about $150, but this loss is nearly covered by insurance in the Commercial Union, $200, and Huron and Middlesex. Mr. Croxon's loss in clothing will be about $40; no insurance. He also suffers some damage by removal of goods. The fire was undoubtedly the work of an incendiary, as the building destroyed had not been in use other than as a store room for several months, and was locked up at the time of its destruction.

The conviction of Constable Aldridge by 'Squires Anderson and Ross is the cause of considerable talk. All seem to consider that the Constable was only fulfilling his duties in using the means he did.

POLICE COURT—WEDNESDAY.

L. Lawrason, P.M., Presiding.

MALICIOUS DAMAGE TO PROPERTY.

John Walsh appeared to answer to a charge preferred by Henry Wallace of malicious damage to his (complainant's) property. The latter expressed a willingness to settle the case, but the defendant, maintaining his innocence, desired an investigation. At the request of W. Rock, Q. C., who appeared for defendant, the case was adjourned until Saturday morning next, defendant's own recognizances being accepted for his appearance. Mr. A. J. B. Macdonald appeared for the complainant.

DRUNKS.

Joseph Clark admitted he was not strictly sober, but was not offending any person. A fine of $1 and $3 costs was imposed.

Matilda Grafton was also charged with this offence. She never seems contented until in the police cells, and the frequent sentences she has heretofore received have had no effect in reforming her. She was fined $1, or the alternative of one week in gaol.

VAGRANCY.

Edward Brown, an old man, was charged with being a vagrant, but the P. M. permitted him to pursue his wanderings.

LIQUOR CASES.

The charges pending against Messrs. M. Welch and Wm. Wyett, for a breach of the License Act, were dismissed, as will all other cases in which Donaldson is the only witness for the prosecution.

ABUSIVE LANGUAGE.

William Snowden appeared before the Court charged by Mary Daily with using abusive and insulting language towards her. For this offence the defendant was fined $2 and $3.75 costs.

COUNTY MAGISTRATE'S COURT.

Before Squire Peters.

Wm. Rice, P. Mulligan, Pat. Ryan, Ann Martin and Margaret Riley, appeared yesterday, to answer to the charge laid against them of drunkenness and disorderly conduct, singing songs, &c., on Sunday evening last. The evidence was clearly proven against them. The Court imposed a fine of $4 each and $4 10 costs, to be paid forthwith; in default 30 days in jail. They were sent down. The Magistrate cautioned them from repeating the offence, and should they do so he will inflict a heavier punishment on them.

COMPLIMENT TO DUFFERIN COLLEGE.—Mr. Charles F. Warley, of Cincinnati, who, during the past year, succeeded in gaining a first-class diploma from this institution, and also in carrying off the silver medal awarded for proficiency in classical subjects, has been admitted to the Divinity Hall in the city of Philadelphia without examination.

THE POLICE RECORD.—The following names were registered on the police day-book in the Central up to midnight:—Patrick Ryan, damage to property; John Bryan, furious driving; Annie Washington, larceny; Thos. Alexander, drunk.

Free Press Correspondence

London East Water works

To the Editor of the Free Press.

SIR,—I was pleased to see the remarks made in the editorial columns of the FREE PRESS, this morning, respecting the supply of water from the City Water-works to London East. I know of no plan of realizing this desirable end that will be so cheap to us or so advantageous all round, as to make terms (the best we can) with the city to supply water to the village. To construct water-works of our own will cost a great deal of money, even if the water supply from the springs referred to should be found sufficient. To operate them when constructed will be a heavy annual charge upon the village, the amount of which it is not easy to compute before hand. The policy of the city, so far as negotiations have proceeded, is to prefer to let the water they have to spare run to waste rather than sell it to us on terms which the village could accept. Many of us in this village have helped to build the City Water-works, and are paying our share of the annual cost, by the taxes levied upon property situated in the city, and surely we, at least, ought to have a chance of using our own water, on reasonable terms. Can nothing be done in this matter? Will the two corporations stand aloof from each other, as they have done—the one dictating terms which the other cannot accept. Is there no method of compromise? If not, we must have water in this village somehow, and if terms cannot be made with the city, we must proceed, and that without delay, to provide the means for at least fire protection for ourselves. Yours, etc. J. H. ROBINSON.

London East, Oct. 15th, 1879.

THE WALKING MATCH.

Names of Contestants—The Score at Midnight.

The 72 hour go-as-you-please walking match was commenced in the Drill Shed last night, at 10:06 o'clock. The building has been specially fitted up for the occasion, and everything necessary for the comfort of the pedestrians arranged satisfactorily. Seats have been provided to accommodate 600. The track is of sawdust, ten feet wide. The bedroom contains eleven beds, and there are eleven scorers in addition to the person who has charge of the blackboard. The refreshment stand is managed by Mr. Jas. Skeffington. Previous to the walking match a boy's race took place for $5, which was won by Blackwell—7 miles in 58 minutes. The 7th Batt. Band enlivened the proceedings during the evening. Between 300 and 400 persons paid for admission during the evening. Each of the contestants have their friends, but so far there is no betting of any account, Baker, of St. Thomas, being the favorite at present. The only bet recorded is that of Nicholson, that he will cover 100 miles within the first 24 hours. The winner will receive $75 and the belt; the second, $50, and the third, $25. The walkers were started by Mr. M. Walsh, who read the rules governing the match. Seven of the eleven have previously walked in the city. The following are the names of the contestants, with the record at 12 o'clock, 16 laps constituting a mile:—

AMUSEMENTS.

THE MENDELSSOHN QUINTETTE CLUB, as reorganized under the old familiar and popular management, appear this evening in Victoria Hall, accompanied by the celebrated vocalist, Mrs. J. W. Weston. The merits of the club are such that we feel that it is only necessary to call attention to their coming to ensure a large audience. Tickets and reserved seats secured at Nordheimer's, where there is a plan of the hall.

HOLMAN OPERA HOUSE.—The new serio-comic drama, entitled "Star, or Paste and Diamonds," by Charles Gayler, was produced last night for the first time in this city at this popular place of entertainment, before a large and delighted audience. Miss Mattie Vickers is a young artiste of charming vivacity and sprightliness, and became a great favorite from her first appearance on the stage. She excels not only in the gay and animated parts, and in her captivating specialties, but also in the pathetic scenes which go to fill out the piece. Next in favor was Mr. Charles H. Rogers, who gave several character sketches in capital style, and which "brought down the house." The performance throughout is very pleasing, and so made to make a couple of hours pass agreeably. The Company appear again to-night, and they deserve another crowded house.

CLAIM SETTLED.—Alexander Calder, late of this city, now of Winnipeg, Manitoba, had a car containing his household effects and merchandise, en route for Winnipeg, burned at Eau Claire, Wisconsin, on the line of the Chicago, St. Paul & Minneapolis Ry., on the 21st September last. The Traffic Manager of the Chicago, St. Paul & Minneapolis Railway (which is the St. Paul connection of the Chicago & North-western Railway) immediately despatched the Special Agent of his road to this city to investigate and settle Mr. Calder's claim for the loss of the above mentioned goods. Mr. Stockbridge, the Special Agent referred to, has been in this city for several days, and has quickly and satisfactorily settled Mr. Calder's claim on the goods not insured.

SWALLOWED A BABY.—When Thackeray visited our shores for the first time and was invited to partake of a dish of oysters, the size of our saddle rocks astonished him. Accustomed to the small copper-tainted oyster of his own native isle, he paused. But only for an instant, and in one gulp it was down. "How do you feel?" asked a friend. "I feel as though I had swallowed a baby," was the reply. To the benighted foreigner our oysters are a revelation, as is also SCOTT'S EMULSION OF COD LIVER OIL combined with the HYPOPHOSPHITES OF LIME AND SODA, which for debility, all bronchial affections and consumption stands unrivalled. It is also acceptable to the most delicate stomach. eod

Canadian Cotton Trade.

The steamship *Sarmatian* last week brought 380 packages of machinery, consigned to the directors of the Stormont Cotton Company, for their new mills at Cornwall, and the preceding steamer brought a large quantity also, while the remainder may be expected to arrive by the next incoming steamship of the Allan line. There will be 12,000 spindles and 250 looms in the mills, and the whole, it is now expected, will go into operation on or about the 1st of December. With the completion of those at Cornwall Canada will possess eight first-class cotton mills, with the prospect of a ninth at an early date. The ninth is about to be built at Farnham West. The municipality of that township lately offered a bonus of $25,000 to encourage the formation of a company, and a substantial one has since been organized, a large portion of the stock being already taken up.

London Markets.

WEEKLY REPORT.

London, Wednesday, Oct. 15, 1879.

The weather keeps uncommonly warm for this season of the year. Since our last weekly produce report, market affairs have brightened up considerably. Wheat receipts from 15,000 to 20,000 bushels. Barley, 5,000 to 8,000 bushels. Peas, 1,000 to 1,500 bushels, and oats, 12,000 to 15,000 bushels. In all the grain receipts together from 33,000 to 44,000—a very large increase. The advance in prices have doubtless greatly stimulated the farmers in bringing in their grain. The tone of the market has been firm and steady at advanced rates all the week, and outside markets have shown the same characteristics. White wheat of all kinds brings from $1 90 to $2 per 100 lbs. Red from $1 90 to $1 98. Spring from $1 40 to $1 65. Barley, 80c to $1 40, $1 25 prevailing figure. Peas, 90c to 95c. Oats, 96c to $1 01. Butter and eggs, especially the former, becomes scarcer and firm in prices with a slight advance. Roots and vegetables remain unchanged, if any difference root crops more plentiful and a me of them, as a consequence, cheaper. Freights to European ports advanced from 5c per 100 lbs. to 8c, which is a matter of great importance to shippers, as all these expenses have to be carefully taken into account in purchasing, as every cent of an advance in exportation means a cent less to the farmer for his grain.

Cheese Statistics.

A Montreal cheese circular says:—Anticipated in our last, your markets have advanced ¼s to 5s per cwt., which has strengthened holders on this side, who hold their stocks for extreme rates. We have had unusually warm weather for this time of the year, which has interfered very much with the fall feed, and should we now have rain we fear it will come too late to help the pastures, as in all probability colder weather will follow the present warm term. We look for continued light shipments from this side, with the advance in freights, together with the high prices asked by holders, will prevent much stock being moved. From a careful estimate of the stocks we find on the 1st of October last year a stock in New York of over 300,000 boxes, and considerable back in the country, while this year at the same time we find only 125,000 boxes, and cheese taken up to 10th or 12th September, and the larger makes all marketed, while in Canada we find a stock fully one-half less than last year. We also note in Liverpool a stock of only 40,000 boxes on 1st October this year, against 173,000 same time last year, and in London 25,000 to 30,000 against 70,000 to 80,000 last year. We certainly look for no lower prices, but steadily advancing markets throughout the season.

Alarm in England at the Outflow of Gold.

London, Oct. 14.—The *Daily News* says:—"If gold continues to leave England and France as it has lately, it will soon become necessary to consider the possibility of measures to stop the outflow. It will be time for England to consider what action to take when the French authorities make a move by directly or indirectly raising the premium on gold to such a point that the whole of the United States' demand is thrown on this country."

The Wheat Market.

NEW YORK.

New York, Oct. 14.—The wheat movement in the way of speculation was again liberal, but export dealings were lighter, notwithstanding the buoyant cables. Prices for winter wheat were stronger, though variable, gaining for the day 1c to 1½c per bushel, closing at the highest point on an active and excited market. The "bullishness" was most pronounced at the end of the day, giving red wheat special prominence, and white also increased attention. Wheat sales of all kinds reported aggregated 1,610,000 bushels, including for spot delivery 370,000 bushels.

CHICAGO.

Chicago, Oct. 14.—The contest between the "bulls" and "bears" in the wheat market was again continued to-day. There was less excitement than yesterday, but the fight was a determined one, and the "bulls" were well satisfied with retaining their mastery and advancing prices another 1c. The option seller, November, for No. 2 spring opened at about $1 15¾ per bushel; sold during the day at $1 14 to $1 15¾ per bushel, and closed at $1 15¾ per bushel. Speculation was confined chiefly to this option.

Railway Notes.

Col. Grey and Mr. Baldt, of the Great Western management, are in New York.

The Canada Southern Railway is making a number of improvements on its premises and on the road at Grosse Isle.

The Great Western Railway will carry excursionists to the Foresters' demonstration at London, Ont., next Wednesday at reduced rates.

The latest scheme in advertising adopted by Supt. Callaway, of the Detroit & Bay City Railroad, is a convenient foot rule and measure made of wood with the railroad's advertisement printed thereon.

Between 8 o'clock a. m. and 8 o'clock p. m. yesterday 81 loaded freight cars were transferred from the Michigan Central Railroad ferry slip to the Great Western slip in Windsor, and during the same hours between 30 and 40 cars were ferried from the Detroit, Grand Haven & Milwaukee Railway ferry slip to Windsor. In addition to the above figures, there were the regular ferry transfer of passengers.

Until within four or five days the passenger and freight business has not been pressing, but during the last four or five days the business has been very large, making it impossible for the ferry boats to handle cars rapidly enough. At 8 o'clock last night there was an accumulation of about 140 loaded freight cars on the Michigan Central Railroad tracks within the city limits with trains constantly arriving. A corresponding state of affairs exists on the Detroit, Grand Haven & Milwaukee tracks in this city.—*Detroit Free Press.*

Activity in the Apple Trade.

Montreal *Gazette*, 14th:—An active export enquiry set in for winter apples on Saturday, under which prices advanced 10c to 25c per barrel. Receipts, which are increasing, meet a ready market at good figures. Seven carloads arrived on Saturday, and large quantities are on the way. One firm in this city is reported to have bought about 10,000 barrels in the West. Car lots of choice assorted winter apples are held at $3 per barrel, a carload having been sold at that figure. We have also to report sales of two cars of mixed winter fruit at $2 50; one car fall do at $2; one hundred barrels of winter at $2 60, and one car do at $1 60. It appears that apples have been doing exceedingly well in Great Britain so far this season, shippers having realized very satisfactory results. The sale of a lot of Canadian apples in Liverpool was cabled on Friday at 21s per barrel. In Ontario, Western New York, Ohio, some parts of Missouri and Iowa, splendid crops of winter apples are reported. The Michigan yield, it is feared, will scarcely come up to the average. In New England and the Middle States the crop is said to be below that of last year, which, however, was exceptionally heavy. The supply of fall apples, from which most of the dried fruit is made, was large. Last year at this time Baldwins sold at $3.25.

The Hessian Fly.

The Chicago *Tribune* of Tuesday says:—"We note that a prominent house here received a dispatch from Detroit stating that the Hessian fly is doing much damage to the winter wheat in Michigan, and that prices had advanced 3c in consequence. The majority of those who heard of it here were disposed to regard the thing as a joke, saying it is the wrong time of the year. There can be no doubt, however, that the fly sometimes appears in the autumn and attacks the growing wheat just below the surface of the ground."

The above, says the Detroit *Free Press*, as far as it relates to the receiving of reports of damages from the Hessian fly, is correct, but that such report caused an advance of 3c in this market is a matter of very great doubt. Out of about forty advices on wheat, received by the house above alluded to, one third spoke of damage done by the Hessian fly. The most of these were from the vicinity of Lansing in this State and from the extreme northern part of Indiana.

The Grain Movement—Cars Scarce.

The Chicago *Inter-Ocean* says:—"The movement of currency to the country was large, nearly all of which went to the wheat sections. There is great complaint among railroad officials whose lines lead into the grain sections as to a scarcity of cars. Managers of the leading lines say that they are unable to move the grain as fast as it is offered. They are also behind with their outward-bound freight. Some lumber dealers report their sales from 200 to 300 behind their shipments. The freight depots are also crowded with merchandise waiting for transportation.
