## WINDKINK BRIDERICOLONIST

## Che Weekly British Calonis Tuesday, December 26, 1865. THE DUTY OF THE GOVERNMENT.

In our remarks yesterday on steam com-

munication we cursorily noticed the advertisement of the Government calling for tenders. . Where many thousand dollars are country, we may, we think, be excused for recurring to the subject. In doing so, we would again impress upon the attention of the Government the necessity of transmitting

the notice by telegraph to the San Francisco papers. If this should not be done the publie interests are bound to suffer. The adver-January giving or but three weeks con-

best and cheapest communication; but if the tenderers are few—if the area of choice is limited—the chances are that we shall obtain neither a cheap nor a good means of convey-ance. It is just possible there may be companies or persons in Victoria capable of supplying all our wante — capable of pro-riding us with steamers large enough to viding us with steamers large enough to carry all the passengers we may expect; but it would be a serious blunder to rely upon Victorian efforts. What we want, as we

have said before, is vessels large enough, and running frequent enough to bring what the steamers brought us in 1862. At that time we had as many as eight hundred passengers on a single trip. We want steamers to be able to bring, if necessary, the same amount

METHODIST TEA MEETING. The annual tea meeting in connection with the Wesleyan Church in this city took place Wednesday evening and was highly succes ful-teorotei 'eromina' edi bes heen

Tea and refreshments were served up at half-past six p.m. in the basement of the church on Pandors street, and the quantity and quality of the numerous little delicacies tenders. Where many thousand dollars are placed upon the tables and dispetied by fair at stake, as well as the trading interest of the placed upon the tables and dispetied by fair hands, showed with what untiring zeal and energy the ladies of the congregation had worked in behalf of the cause.

After tes was over, the assemblage were invited up stairs and took their seats in the church which they soon filled to excess. The Choir occupied a platform in one

tisement calls for tenders up till the 12th of corner of the building, and during the evening sang the following sacred music with January, giving but three weeks con-sideration for those interested. The ob-ject of the notice is of course to secure the best and cheapest communication; but if the best and cheapest communication; but if the

with some practical observations and moral

The Rev. Mr. Somerville next addressed the audience, and with his usual tact com-menced by relating a humorous anecdote about waking up the wrong man. The wrong man was of course bimself, and he thought it would be advisable when inviting clergymen and others in future to these gatherings to fix upon some subject for them to talk about, for he had been two days re-volving in his mind what he should say to

and a single trip. We want steamers to be able to bring if necessary, the same anoma now.
There are other equally cogent reasons the set of the point of the net best we days at the observer is the point of the net best being and the set of the se

outh end of the church. The building had been so framed that the addition could be made without great expense, and the plans were in preparation by Mesars. Wright & The National Anthem was then sung by the choir, and the pastor having pronounced a blessing the meeting separated.

## LOCAL INTELLIGENCE.

Tuesday, Dec. 19. SLEIGHING-Everything in the shape of a sleigh was in requisition yesterday, and numerous parties were to be seen gliding over the smooth surface in every direction. Towards evening and all night more snow continued to fall, and as it now lies several inches deep the ground will probably be fit for this enjoyable exercise for a long time to come. Old stagers predict a similar winter to that of \$1-62.

nuch regret to state that Mr. Alfred Waddington, Superintendent of Education, owing to the slippery state of the streets, fell last evening on Yates street and broke his right leg. He was immediately removed to his residence on Fort street, where doctors Dick-son and Ash were soon in attendance and set the fractured limb. The sufferer is doing as well as could be expected.

HOME AND COLONIAL ASSURANCE COMPANY (LIMITED) .- Messrs: Lowe Brothers, of this ity, have been appointed local agents of the above -named Fire and Life Assurance Company. The authorized capital of this company is £2,000,000, one-half of which has been issued, and the Directory includes the name of Baring, and other well known English capitalists. The operations of the come

FROM PUGET Seven .- The steamer Eliza Anderson, Captain Finch, arrived yesterday from Olympia and way ports with twenty passengers and a large freight of live stock and produce as per manifest. She left again shortly afterwards to carry some live stock to Bellingham Bay, intending to return as usual on Tuesday morning next.

SENT TO THE CHAIN GANG .---- An Indian named Billy Williams was sentenced by the Police Magistrate yesterday to two months hard labor for stealing a blanket from a Klootchmanan ant art nov" bins out

THE STEAMER ACTIVE -A" telegram to Seattle says the Active passed up Columbia river on Monday afternoon.

Thursday, Dec. 21, SERIOUS DISTURBANCE-Last night, about eleven o'clock, a violent outrage occurred in Fort street, which might have resulted fatally but for the prompt interference of the neigh-bers. It appears that about a quarter of an Henry's Bifles, \_\_\_\_\_\_\_ bors. It appears that about a quarter of an hour after Mr. Richard Brodrick, who resides at the corner of Fort and Douglas streets, had retired to rest, he was aroused by a loud knocking at his door, repeatedly demanding admittance. After rapidly dressing and seiz-ing a whip he went out, and was met by an infariated policeman who passed him rapidly into the house. Seeing that the man was either crazy or drunk, he called for assistance, when a young man of the name of Macpher son came out of his room, and was fiercely attacked with the man's baton. The fellow then took hold of two ladies who were conversing in the sitting room, and so alarmed them that they feared murder would be committed. At length the man was over-come and conveyed to the station house. He was evidently under the influence of a mania that two pistol shots had been fired at him, for which there appeared to be no foundation. Some difficulty as experienced in obtaining a prompt attendance to the case from the blice authorities at head-quarters asyoH

THE WEATHER-More snow fell yesterday and sleighs were kept merrily gliding along all day. In the evening one of the traces which held a pair of spirited greys, belonging to Mr. Williams, gave way, and the horses, after letting ont their heels, set off down Government street. A young lady seated in the sleigh had presence of mind enough to jump out, and escaped with a slight bruise. The horses were stopped before proceeding faring a natol ut of it o

HOLLOWAT'S OINTMENT AND PILLS-These he other of th untions, tumors, serofula, scurvy, c ma, rheumatism, gout, and dropsy er ide and disappear under the action of medicines, and in cases of indigestion ache, bile, liver score of indigestion headache, bile, liver complaints, debility, and other disorders originating in the internal organs, the Fills produce the most actouishing results im-aginable. The student of Nature knows how sim-ple are her ways; if one preparation can throw out all the impurities of the blood, disease is con-quered and art is triumphant, hearnes it adopted the simplicity of Nature.

ers that would be spread over the year. The argument that has been broached by some that if we did not, have a yearly subsidy we should lose the return travel has no weight The miners who will travel the Fraser route will scarcely be foolish enough to take the more circuitous and more inconvenient one by Colville. The Oregon people may deal in amusing puffery of their facilities, but they cannot shorten a mile by calling it a furlong." From the dreaded bar at the mouth of the Columbia River to Walla Walla is journey enough, by the British Columbia route, to take miners almost to the Big Bend. When, however, we add to this the fact that the steamer "49." which the Oregonian has just assured us, with a little national exaggeration, is ploughing the waters of the Columbia, cannot navigate the river until the latter end of May on account of ice, we think we have sufficient advantages over our Portland competitors to leave them hope-lessly behind in the race. These advantages must not, however, as we have shown before, lie dormant. We must make the best of our position, and leave no stone unturned to inform the miners and people generally of California, through reliable sources, of the mineral riches of the Upper Columbia, and the unequalled facilities of the Fraser River

route. STEAN ! STEAM !- Tenders are called in

our advertising columns by the Government of this Island, for a direct line of steamers from San Francisco for a period of six or twelve months to run either twice or three. times a month to this port only ; twice or three times a month to this port and New Westminster alternately, or twice or three Westminster alternately, or twice or three times a month to New Westminster, calling at this port, both coming and returning. The contract to commence about the beginning and not later than the 14th February. For further particulars see advertisement. As the time allotted for the tenders is so short that persons in San Francisco will be debarred from tendering we would suggest that the advertisement should be telegraphed to San Francisco for insertion in one of more of the leading journals there.

SICENESS IN IDARO .- The Idaho World says, since the 5th of November, 1864, to 5th of November, 1865, not dess than one hundred and twenty persons were received in the Hespital—many of them in a horribly muti-lated condition—occasioned almost entirely by the caving of banks, falling of trees, and other incidents and visissitudes of mining In this city, ou the 21st instant, at 10 minutes, olil

church, the construction of which, in what was then looked upon as the country, was considered a wild scheme. It was not only considered a wild scheme. It was not only gratifying to see every pew in that church now occupied, but that the good example set had been followed by other congregations, and no less than four churches of different denominations now stood upon Pandora street. Though creeds differed widely, there was one upon which all joined hands, and that was, "Peace on earth and good will to-ward man" (applause). He was pleased to be present out of respect to their honored pastor, whose cool judgment and assiduity were always cheerfully extended to the public

Dr. Evans said there were two reasons why His Worship sympathised with them. The first was his natural goodness of heart, the second because he owned a brick or two in the building, having subscribed liberally when funds were much needed. He hoped His Worship's term of office might witness not only the material but moral and spiritual

progress of the community. The Rev. Mr. Browning next addressed the meeting with his characteristic flow of language, in the course of his remarks incul-cating the great principles of the Catholicity of Ohristianity and of the mind. He had been told when he was coming out here that the moment he landed on this Island he would set toot on Missionary soil where sectional differences were unknown, and all labored for the common good. He had how-ever, been enlightened. When the laity of every Church congregated on such occasions on terms of brotherhood he would wish to see ministers of every denomination there to see ministers of every denomination there to talk to them. He would desire to see social barriers broken down, and all meeting on terms of social equality. After adverting to the disadvantages under which many young men labored in this colony from the want of friendly hands to lead them into res-pectable social enjoyments, the Rev. gentle-man corcluded by moving a vote of thanks to the ladies who had worked so energetically in aid of the cause, which was received with loud applause.

Ibud applause, Mayor Franklin then moved a vote of thanks to the choit for their valuable and pleasing services, which was also heartily

the liberal measures generally that were be-the liberal measures generally that were be-

only two pars which rowed us to Heaven; energy and singleness of purpose uside and outside of the Church; and the attainment of perfection by allowing the hand to work in harmony with the intellect and the heart. The Rev. gentleman's remarks met with applause. Mayor Franklin next said a few words, re-calling the time when it was difficult from the mud and other obstructions to reach, this church, the construction of which, in what was then looked upon as the country, was After two weeks vacation the schools will re-assemble on Monday, January 8th.

ANOTHER INDIAN MURDER-A Songish Indian named Clan-shin was arrested yesterday by the police on suspicion of having mardered an Esquimalt Indian on Friday evening last. According to report the ac-cused is charged with having made his vic-tim drout and thrown him on a fire, from which the poor wretch extiticated himself and rashed into the water, where it is supposed he was again set upon by his assailant from a cance and was drowned. His body has not et beensrecovered.

een arranged between George Baker, the Canadian Pet, and a young Englishman named Joe Eden, formerly in the Bolice to fight according to the rules of the P. R for \$500 a-side, \$50 of which are already deposited. They will meet within three months at San Juan Island. Preliminarie to be settled, and articles to be drawn up at Connor's on Monday evening next.

MR. DENNES AND HIS CONSTITUENTS- AD advertisement in our columns since the early part of last month announces that the member for Salt Spring Island and Chemanne proposes to visit his constituents on the 23d inst. We are requested to state that in con sequence of the want of steam communica-tion and the bad state of the weather, the visit has been postponed until the early part of next year, of which due notice will be given by advertisement.

SPOKEN .- The scow General Harney, Captain Roder, with hay and grain bound from the Sound to New Westminster was spoken on the 16th in the Gulf of Georgie by a boat from Semiahmoo, and requested to be reported. A heavy snow-storm came on soon alter she was seen.
