RENEWEL VIGOR
 Men who lack the vigor and snap of youth, who have "grown old" too soon; who have been debilitated and weakened by mental overwork, worry, youthful errors or later excesses, who would care for an honest opinion as to the possibility of having such power returned—to these I am pleased to offer my advice and consultation free.
 During my 30 years' experience as a specialist I have tested all medicines known to science for such disorders, and I pledge my word that not one case out of every hundred can be cured by drugs. The reason is that stimulants must be used, and after treatment is left of the trouble returns. The best and surest remedy I have found to be the pure galvanic current of Electricity PROPERLY applied. I would have no reason for saying this were it not true, for I can give medicines if the patient desires. I pin my faith to Electricity because it is a NATURAL cure, and does not STIMULATE, but STRENGTHENS; hence the results are permanent. Every one has heard more or less of the Dr. Sander Electric Belt, but I now offer in my 1901 Dr. Sander

HERCULEX BODY BATTERY,
 an appliance which is far superior to any electric belt that was ever made. This Herculex is worn comfortably about the waist nights while you sleep. The organs drink in the electricity like a sponge does water. It is this continuous flow of the gentle, soothing, strengthening current that tells. Over 500 cured in 1900.

FREE BOOK. FREE CONSULTATION.
 To those who live near by I would request a personal call, as I am here to offer free advice, and will thoroughly explain my Herculex Body Battery and give test of current. If at a distance write for my descriptive book, "Health in Nature," sent sealed free by mail. It gives much valuable health advice and also fully describes Herculex with suspensory attachment. Herculex with special attachments may be used by women as well as men in Nervousness, Lame Back, Rheumatism, etc. Write or call to-day.

Dr. A. W. Sanden, 474 Main Street, Winnipeg. Office hours 9 a.m. to 6 p.m.

Bridge By-Law Introduced
 Provides for Borrowing \$60,000 to Build Steel Bridge at Point Ellice.

Gas Company Makes Offer to Light Civic Buildings—Grant to Riflemen.

Lakes Still Ice Locked
 Yukon River Steamers Were Still Held Fast at Lake LeBarge

Lots of Freight at White Horse—Steamer Tees Returns Here.

The regular weekly meeting of the city council was held last night. The most important item of business was the introduction by Ald. Beckwith, of a by-law to provide for the building of a permanent steel bridge at Point Ellice. A communication from the Victoria Gas company, offering inducements to the city to use gas for lighting the city buildings, was taken by Ald. Brydon as an indication that the city was in a fair way to secure cheap lights. A proposition to vote \$120 towards defraying the expenses of British Columbia's representatives on the Bialay team caused a good deal of discussion, but was finally recommended.

COMMUNICATIONS.
 The Victoria Gas company wrote as follows: To the Mayor and Council, Corporation City of Victoria: Gentlemen: Noticing that the question of lighting the city by electricity has been referred to the city council by the Victoria Gas Light Co., Ltd., we have the honor to advise you that we are prepared to supply the corporation with gas for illuminating purposes at the rate of five cents per cubic foot, and to install incandescent gas burners for lighting their various buildings, with the exception of the cost of one-quarter of a cent per hour for each lamp, as compared with one-half of a cent per hour for a 16 c. p. electric lamp, or practically incandescent gas lighting will give you four times the light at one-half the cost of electricity.

Although street lighting has not been mentioned, it is correct to desire that the company can place figures before you, based on the fact that the rate of gas, by adopting which, the city could obtain a considerable economy over the present system of street lighting, and would give the greatest satisfaction to the citizens, owing to the greater diffusive power and steadiness of incandescent gas lighting over electric arc lighting.

Yours truly,
VICTORIA GAS CO. LTD.,
 F. H. HOWLAND, Mgr.

Referred to electric light committee. From Frank A. McKenzie, advertising agent for the British Columbia Agricultural Association, pointing out the advantages of advertising in the official price list of the exhibitors and quoting rates. Referred to finance committee.

D. D. McConnon, secretary of the Fifth Regiment Rifle Association, asking for a grant towards the expenses of the Bialay team.
 On motion of Ald. Beckwith, it was resolved to recommend a grant of \$150 to be divided equally among the four members of the team going from British Columbia.

Ald. Brydon said the provincial government should provide funds. He did not approve of the indiscriminate voting of funds to all kinds of objects, while many public works were so greatly needed.

Ald. Yates and Ald. Kinsman supported the motion.
 Ald. Beckwith explained that the provincial government made an annual grant to the Provincial Rifle Association, but not sufficient to cover the outlay.
 From John Anderson, asking connection with the water system for his premises on Duchess street. Referred to water committee.

REPORTS.
 The electric light committee reported as follows: To His Worship the Mayor and Board of Aldermen, in Council Assembled: Gentlemen: Your Electric Light committee having considered the communication submitted her to report as follows: That as the wire inspector has tendered his resignation, your committee before recommending that it be accepted, would like the inspector to be re-elected to finish the council with the record work also a detail of the work done by the committee sections 36 and 44 of the Electric Wiring By-Law.

COURT OF REVISION.
 A motion appointing Mayor Hayward, Ald. Yates, Cooley, Kinsman and Hall to act as a court of revision, was adopted.

POINT ELICE BRIDGE.
 Ald. Beckwith's by-law to provide for raising \$60,000 to build a steel bridge at Point Ellice was introduced and read a first and second time, and considered clause by clause in committee on the whole. Progress was reported, the by-law to be recommitted at a meeting to be held tonight.

STREET WIDENING.
 The Mendies street improvement by-law was passed on motion of Ald. Cooley. The council then adjourned.

BELONG TO CANADA.
 Chilliwack, June 10.—(Special)—The most intense feeling has been engendered in Chilliwack over the recent claim jumping on the boundary line in the Mt. Baker mining district. There are but two hotels in the place, and the jumpers and the jumped have had to eat, sleep, and glare at each other in at close quarters through the long wet days since the United States survey party announced that the boundary line was 3,480 feet south of the observation post which had been ascertained as the boundary line several years ago. The correct line pushes the rich Anderson properties and the Seattle owned Golden Chariot and Gold Star half way over the line. As soon as these facts were known claim jumpers sailed forth from Chilliwack and re-staked all the mineral lands close to the line on both sides, and deliberately squatted on the boundary, starting a town which they called Boundary City. Mr. Saviers, superintendent of the Golden Chariot and Gold Star split in half by the new survey, has received letters from members of the provincial legislature and from E. V. Bodwell giving it as their opinion that the original locators of the properties now declared in British Columbia, but staked as United States territory, will be protected by Canada, as in the similar cases of Roseland and Astla, and that they will be required to register their claims over again and work them under British Columbia laws. All work has been stopped on the boundary, and it is suggested by those who have had claims jumped, that it is to the interest of British Columbia to have the matter settled, as large sums of money appropriated to work the mines now split in halves have been wasted. The Lone Jack mine on the Washington side has an immense quantity of ore, partly free milling in sight. This mine was recently sold for \$550,000 cash. The large amount of mineral lands pushed into British territory will help trade in Chilliwack, for supplies must come from here.

There are many forms of nervous debility in men that yield to the use of Carter's Little Pills. Those who are troubled with nervous weakness, night sweats, etc., should try them.

lied to be smallpox, had broken out on the Indian reserve on the Naas river. It was introduced from Ketchikan on the Alaskan coast, where it was prevalent all last winter. While all precautions have been taken by the officials, there is not believed to be any danger, in fact the symptoms developed in the patients would go to show that the disease was not smallpox at all, but a form of measles. The doctors at Ketchikan declared that the disease among the Indians there last winter was not smallpox, and that of Naas is the same. The patients are sick but a few days, and always recover. Those afflicted on the Naas reservation have been isolated, and the cabins in which they lived when they took the disease, destroyed by fire. Genl. Hughes will refer the matter to the provincial health officer, although he was careful not to take any passengers who had been on the reserve.

Among the passengers who came down were Mr. C. W. D. Clifford, M. P. P. who has been up the Skeena to look at the road construction around Kisdias canyon; Mr. F. A. Devereau, who was in charge of the work, and some of the men engaged in the work. The steamer Hazelton had made one round trip to Skegway, and was to have left on Wednesday but had been delayed. Up to the time of the departure of the Tees, there had been no fishing on the Naas, but the run of spring salmon on the Skeena was very light. Neither was there any fishing on Hivers Inlet.

The passengers by the Tees for Vancouver were: E. A. Devereau, James Mackie, George Speiser, D. W. Bell, R. Williams, W. Williscroft, F. O. Well, Dempster and Bonetz.

DYNAMITE EXPLODED.
 Trains in Collision Cause a Wreck, Killing Two Men.
 Richmond, N. Y., June 9.—(Sunday)—While freight train No. 61 on the Lackawanna was taking water at Vestal, ten miles west of here at 9:45 o'clock last night, it was run into from the rear by a double header without freight, in the second car from the caboose of the stationary train, was a large quantity of dynamite, which was exploded by the impact. Two men are known to have been killed, three others are thought to be in the wreck, and a number of others are surely known to be badly injured.
