A Busy Meeting Of School Board

A. B. McNell Resigns From the Teaching Staff and Dr. Bolton as Trustee.

Mr. Binns Exonerated From any Blame in the Matter Recently lavestigated.

board yesterday evening an unusually a special committee, consisting of Trustees Lewis, Mrs. Jenkins and Huglarge amount of interesting business gett.
was transacted. A. B. McNeil, of the Mr. Barnacle and A. B. McNeill rewas transacted. A. B. McNeil, of the teaching staff of the South Park school, tendered his resignation, to take effect on May 1, when he will take a position in the employ of the federal government. J. C. Barnacle also resigned from the teaching staff, and Dr. Bolton took leave of the board, taking up his residence in Vancouver necessitating this action. In each case the resignations were accepted with expressions of regret.

The members of the board who investigated the charges preferred against Mr. Binns, teacher of the managainst Mr. Binns, teacher of the m

with expressions of regret.

The members of the board who investigated the charges preferred against Mr. Binns, teacher of the manual training department, submitted a verbal report exonerating Mr. Binns, and a resolution to this effect was passed by the board.

A long discussion ensued on a let-

verbal report exonerating Mr. Binns, and a resolution to this effect was passed by the board.

A long discussion ensued on a letter being read from S. W. Edwards, in which it was alleged that a member of the cadet corps had handled his rifle very carelessly during the recent parade at Beacon Hill, resulting in the injury of Mr. Edwards' son. Finally the matter was left in the hands of Principal Paul of the High school for investigation.

Another matter of special interest dealt with was the question of a periodical inspection of the schools by the medical health officer, a committee being appointed to prepare a report, with recommendations.

There were present Chairman Boggs and Trustees Mrs. Jenkins, Jay, Mowat, Lewis, Huggett and Dr. Bolton.

A difficulty arose on the motion to adopt the minutes of the last regular meeting. Members of the board com-

on Oswego street. These conditions we or to the health of the children.

A difficulty arose on the motion to adopt the minutes of the last regular meeting. Members of the board contended that the secretary was instructed to report on a communication from Miss of two girl pupils. The minutes not recording the exact intent of the board, the secretary was asked to explain. The latter said he understood the motion to be as it appeared in the minutes. The matter was finally adjusted by allowing the minutes to stand.

S. W. Edwards directed attention to an incident which occurred during the cadet exercises at Beacon Hill, when one of the members of the corps. Prevost, allegedly had discharged his rifle, which was loaded with blank cartridge, at his son. The boy was quite badly injured and the father asked for a full investigation. The writer was opposed to boys being given military training, and thought his son was discriminated against for this reason. The chairman said the cadet corps was under the authorization of the Dominion government and he was surprised to find an officer of the government writing such a letter. The comment writing such a letter was provided the corps. The lettes was temporarily tabled. Spencer Robinson, on behalf of the form of the course, and the case of the corps. The lettes was temporarily tabled. The letter was provided by the catholic by the course of the course of the course of the course of the course

"Prizes" with common soaps are dearly paid for at the expense of clothes and hands.

Hon. Oliver's committee. The Trades and Labor Council forwarded a resolution favoring printing of school books by the government. Trustee Mrs. Jenkins said the questional process. Constituency Trustee Mrs. Jenkins said the question was brought up in Vancouver, but not discussed fully. Trustee Jay observed that the government had already said it could not undertake the task of compiling school books. Everybody was, of course, in sympathy with the movement for chapper books, but the board could do nothing.

Large Majority of the Edmonton Voters Would Favor Autopomy Bills.

Trustee Mrs. Jenkins was in favor of giving the matter some consideration. It was constantly cropping up and must be attended to sooner or later. Mr. Relph Connor Thinks That Sir Wilfrid Laurier Should Abdicate.

cide to Take a Month's

From Our Own Correspondent.

TTAWA, April 11.—Mr. Oliver clearly owes his selection as minister of the interior to the accident of his constituents. Out of a total population in Edmonton riding. 1901, a careful analysis shows that the number of residents in the constituency, according to the present boundaries of the riding, was 18,351. The population has been augmented by settliment during the past four years, but to all intents and purposes the composition of the constituency today is as it was at the time of the census. Out of the total population there were of English origin, 1,793; Irish, 1,583; Scotch, 1,601; French, 2,880; German, 1,785; Scandinavians, 263; Russian, 4,359; Austrian, 608; halfbreeds, 3,481. Classified according to religion, the population consisted of: Roman Catholics 9,183, Greek church 4,208; or a total of 13,291. Of the Frotestant population the principal churches were repre-

***************** COMING TOGETHER.

London, April 13.-The correspondent at Labuan (off the

The chairman reported the result of the investigation into the charges made against Teacher Binns. In his opinion the charges were unwarranted.

Trustee Mowat, a member of the committee, was of the opinion that there was no foundation whatever for the charges laid by complainant; but no doubt both the teacher and the complainant had acted indiscreetly.

A resolution was then passed exonerating Mr. Binns.

Trustee Jay brought up the matter of a class instead of the whole people. Sir Wilfrid, the preacher said, holds his present position because he secured the confidence of the majority, and he is in power to put into legislation the desires of the majority. Rev. Mr. Gordon appealed to the calm judgment of the people on the Sharretti phases of the situation. He applauded the action of Hamilton Methodists, who had sent, through Mr. Zimmerman, M. P., a petition to Sir Wilfrid Laurier protesting against the bill, and urging that the school question be left to the new provinces and the party in power there. Ottawa, he declared, should give unmistakeable evidence of the righteous indignation of the country at Sbarretti's interference.

It is reported tonight that the governerating Mr. Binns.

Trustee Jay brought up the matter of levelling off the grounds at the Central school, and the objectionable habit of boys playing on the High school grounds during the evening. Both of these matters will receive immediate attention.

On the question of the complaint of S. W. Edwards, E. B. Paul, principal of the High school, wrote saying he had looked into the matter and found that Sergt.-Major Mulcahy had said no blame whatever had attached to young Prevost, who had discharged his gun quite accidentally. He protested against the insinuation made by Mr. Edwards that teachers on the staff of the High school discriminated against boys who were not on the cadet corps. It was finally decided to leave the matter entirely in the hands of Mr. Paul.

A considerable number of apprilice.

It is reported tonight that the government is so exercised over the comments of members to the effect that the educational clauses in the Northwest autonomy bills are unconstitutional that it has decided to refer the famous clause 16 to the judicial committee of the privy council for an opinion as to its validity.

THE PAGE WIRE FENCE CO. LIMITED, Walkerville, Toronto, Montreal Winnipeg, St. John:

C. H. Pollen on Railway Building

President of Kootenay Central **Expresses Opinions Respect-**Ing Subsidies.

Says the Province Is Like Farmer Who Will Not Buy

Mr. C. Hungerford Pollen was seen by a Colonist reporter at the Driard hotel yesterday, having just arrived by way of Seattle. In response to a request for news respecting railway matters, Mr. Pollen said:

"The action of the government in closing the session without carrying out any measure of assistance towards building the Kootenay Central' Rai'way will cause a great deal of disappointment throughout East Kootenay. Along the entire length of the route, which traverses Golden, Windermere and Fort Steel mining divisions, timber, mineral and coal properties are being held in expectation of early transportation being afforded. All in the district have been straining their resources to hold on to their properties, in spite of the high taxation now in force; with a diminishing prospect of getting their properties on a producing basis, a great deal of retrenchment will have to take place. The company has, like the rest, patiently held on to its mining and other properties, on which many thousands of dollars have been spent in the last few years. The company cannot be blamed for not commencing construction, nor can the plea that it was unwilling or unable to do so be put forward as the reason for the failure of legislation being put through this session. The most distinct guarantees for immediate and continuous construction were offered both at this session and at the last without avail. The subsidy originally granted the Kootenay Central Co. was allowed to lapse in 1902 by the former holders of the charter. The present company took up the charter on the condition that the subsidy was renewed by the provincial government. The government of the day, in reply, gave written assurances that this would be done, and these assurances have been verbally renewed ever since. At the close of last year's session, and again-during the recess, while touring the district, the Premier made the most encouraging statements from the company's point of view, and the company felt Justified in expending several thousand dollars more than

readiness for immediate construction.

"At an early date in the session, when the prospect of railway legislation began to look gloomy, I urged that the Dominion government, in conjunction with such companies as have Dominion charters and subsidies likely to be jeopardized, for a general measure granting extensions to all such companies until the province could decide upon a railway policy. This suggestion was unheeded, and this company—and, I suppose others—may be compelled to commence construction without proper justification or security for its finances. Naturally, only such work as is compulsory under the charter will be done by us.

"The difficulties in the way of com-

"The difficulties in the way of com-panies wishing to operate in British Co-lumbia at present are so great that one cannot be surprised at the lack of capital coming from Europe—that is, if what has occurred to us is at all characteris-

"With regard to the interests of the Canadian Pacific Railway in the Kootenay Central, a conditional arrangement, made to regulate traffic, gives the Canadian Pacific the opportunity to assist in the construction under certain conditions. This arrangement was not of a nature to require the consent of the Lieut. Governor, nor did it secure the building of the railway. It was not understood that the C. P. R. would make proposals regarding the building over that route to the provincial government, as they are reported to have done in connection with some general scheme. In such a case, this company offered to withdraw all its demands, provided a satisfactory guarantee to construct the line was given by the C. P. R. aither to satisfactory guarantee to construct the line was given by the C. P. R. either to this company or the government, but their proposals were rejected. Whether they were more favorable than those oftend by us I greatly doubt.

the Daily Mail, says that reports are current there that long fleets have been sighted south of Borneo.

"With regard to the extra taxation required to meet our subsidy, I should say British Columbia is like a man with a large farm, who hesitates to go to the expense of a plough to till the soil. The assistance we are asking is the \$5,000 in three per cent. stock, which was formerly granted to the company, and, except for a technicality, is still legally due to it. What with the expenditure of from three to four million dollars required to build the road, the contribution from the province would be more than met by the increased revenue from timber, mineral and coal. The timber reserves are large and the mines low grade; neither can be profitable without a railway.

"Everyone grudges the high taxation of the says are the province would be more than met by the increased revenue from timber, mineral and coal. The timber reserves are large and the mines low grade; neither can be profitable without a railway.

"Everyone grudges the high taxation at present, when there is no prospect of either working their properties or of selling them. With a larger population, and when the country is productive, an infinitely larger revenue could be drawn without it being felt."

LEAD SMELTERS WANT MORE ORE

Slocan Falling to Produce Tonnage Which Had Been Estimated.

A despatch to the Spokane Spokesman-Review from Moyie says: The smelters at Nelson and Trail are complaining bitterly of the small amount of ore which they are receiving from the silver-lead mines. The Nelson smelter is threatening to close down, and since Feb. 25 only one of its two lead stacks has been used. At Trail only one of the three stacks is in use. The trouble has arisen from the Slocan miners over-estimating their probable output when it was agreed to lef the St. Eugene ship abroad.

Try to Find P. Burns to Erect Costly Structure in Vancouver—Counterfeit Dimes.

St. Petersburg Satisfied Tha Commander Has Shown Great Skill.

Passage of the Indian Ocean Was Made In Satisfactory

Vancouver, April 12.—(Special.)—As a result of the ultimatum of Dr. Fagan that slaughter houses on the Mainland coast must go, P. Burns has decided to build a \$150,000 abattoir. The building will be erected on the waterfront, on the old smelter site, and will be modelled after the big abattoir owned by Burns in Calgary.

Counterfeit ten-cent pieces of the closest imitation of the mint production yet seen here are in circulation. The dimes are very bright, but can be easily detycted by sounding, as they produce a very dull sound when thrown on a hard substance. The banks here think them to be the work of Chinese. MISLAID INSTRUMENTS.

WILL BUILD ABATTOIR.

""Doctor," said the man who several weeks before had been operated on for appendicitis. "I'm all right except for a heavy feeling in the pit of my stomach and a slight metallic rattling when I ""There"."

waik."
"There!" exclaimed the M. D., slapping his thigh; "I knew that case of surgical instruments would turn up eventually. Will you pay me for them and keep them, or shall I remove them? The cost will be about the same."

The Clarke testimonial fund for the benefit of the family of the late E. F. Clarke, M. P., has now reached the sum of \$18,585, or at least had a few days ago. There could be no stronger tribute to the worth and services of the deceased.

A Narrow Escape—While driving near Colwood yesterday afternoon, Mrs. Walter Chambers and Mrs. Harry Jameson met with an accident which might have had very serious results, but which fortunately terminated less unluckily. The horse became frightened at some object by the roadside and bolted throwing both ladies out of the vehicle. Mrs. Chambers, who pluckily held on to the reins, was dragged a considerable distance, the wheels passing over her body. She was somewhat bruised and badly shaken up, but suffered no serious injury. Her companion escaped unscathed. The horse continued on its way to town, and the two ladies, after a brief rest at the Colwood hotel, reached home in a hack.

CROFTON SMELTER

Deal is Closed by Which Total Product of Mine Will be Handled by Smelter.

and Hermann C. Bellinger, owners of the smelter.

The deal calls for the delivery of the entire tonnage of the Britannia for treatment at Crofton, and is to last during the life of the Britannia. The minimum shipments are to be two hundred and fifty tons per day, but it is expected the mine will be shipping five hundred tous per day as soon as it is in running order. The shipments will start about June 1, and the smelter will start about June 1, and the smelter will start about six weeks later. Crofton has a three-furnace plant capable of handling seven hundred tous a day. In addition it has two stands of copper converters of a thousand tons daily capacity. The Crofton smelter, when in full operation, will employ about thirty men. James Breen will continue as head of the Crofton, and Mr. Bellinger will be consulting metallurgist for the Crofton and for the Yampa smelter at Bingham, Utah, which is owned by the Schley-Robinson interests that control the Britannia.

The Britannia is completing its sixhundred-ton concentrator and its three-and-a-half-mile tram. The Britannia ore

Time.

Russians Claim to Be Aware of Breach of Neutrality by Britain.

T. PETERSBURG, April 11.—Whether Vice Admiral Rojestvensky's battleship division passed through the Straits of Sunda or the Straits of Malacca, it is practically held now that he is moving to effect a junction with the division which held now that he is moving to effect a junction with the division which passed Singapore April 8. It is possible that this may not take place until the two divisions reach Cape Padaran, on the east coast of Cochin-China. The despatches from Singapore naming the ships which passed there Saturday are erroneous in several places, notably in the case of the Fuerst Bismarck, rechristened the Don, which is still at Libau. According to the admiralty's information, the Japanese have had an observation squadron in the water of Libaun, which is British the water of Libaun, which is British water, where they took the same advantage of British neutrality as Rojestvensky took of French neutrality at Madagascar, and this squadron is said to have been summoned by the Japanese scouts to remain in touch with the Russians until they go north to the Straits of Formosa, where it is believed a battle will occur. According to the vital nature of the issue, the continued on its way to town, and to ladies, after a brief rest at the od hotel, reached home in a hack.

OFTON SMELTER

ON BRITANNIA ORE

The straits of Formosa, where it is believed a battle will occur. According to the vital nature of the issue, the admiralty is inclined to think that Admiral Togo will not dare to send ships to Vladivostok or leave vessels behind him to cope with the Russian vessels at that port, and that the Japanese coasts and the transport fleet will practically have to shift for themselves until the naval battle is fought.

Coast Cities Are Prepared The principal coast cities of Japan are well protected by fortifications and the Russian cruisers at Vladivostok, not the Russian cruisers at viadivostok, not being heavily armed, could not attack them, but havoc could be created among the Japanese transports and commercial ships.

The admiralty is greatly gratified at

The Britannia mines, Howe Sound, will ship ore and concentrates to the Crofton smelter within a very short time. A deal to that effect was completed last Saturday in Spokane between Britannia officials and the owners of the smelter.

Mr. George H. Robinson, managing director of the Britannia Copper Syudicate, returned from Spokane Tuesday. When Mr. Robinson left last week with the party of American capitalists who recently inspected the Crofton smelter and the Britannia mines, Howe Sounded while the party was at Spokane.

The admiralty is greatly gratified at the speed developed by the squadron while steaming across the Indian ocean, which is officially figured at nime instead of eight knots, as the ships made a detour northward in the direction of Jibutil in order to create the initial impression that they intended to join Admiral Nebogatoff's division.

Navy men here consider that the speed sustained with such a heterogenous squadron is a remarkable feat and a shining testimonial to Rojestvensky's capacity.
