London, Decc 26.—The Christimas season finds the condition of London's very poor this year fairly satisfactory. Enquiries made at the central offices of the Charity Organizers and that, owing to the rather mild winter, there have been fewer calls for coals, clothing, or fod. London is a happy example of freedom from the great strikes which have taken place elsewhere recently, and, according to the latest returns, the rate of wages paid in various trades is satisfactory. The only fear of charity organizers is lest the end of the trade borm which has been enjoyed by England for some time past, the evening, His Worship announced Paul Martin, 3,944,586. The establishment of the old age pensions scheme has had the effect of taking many old people from the care of charitable institutions, as it has been found that the amount paid, five shillings weekly, is just sufficient in many cases to persuade relatives to give the pensioners a refugs. THE BANK OF COMMERCE The Canadian Bank of Commerce

has forwarded to its shareholders the forty-seventh annual statement for the year ending November 29th, 1913. Of special interest to shareholders in addition to the attractive profits that have been made is the strong financial position the Bank has maintained itself in, at a time when demands from its customers have been unusually heavy.

An examination of the report shows evidence of careful and conservative management on the part of the Banking Officials and reveals the fact that the Bank is today in a stronger position.
