In boys' races, for these under 14 years, no previous training should be inflicted. No one should train for running until he is 18, but 20 would be the safer. Botween 20 and 27 is the best age for attaining speed in running. Be-tween 30 and 40 a wise man will think twice before undergoing training for race running. LONDON, Ont., July 7 .- The third cham ionship baseball match between the Lon. dons of London and Clippers of Hamilton took place here this afternoon, the score being 10 to 8 in favor of London. The me team found the pitching of Chamber-n of the Clippers very difficult to bat, and of the Chippers very difficult to bat, and did not secure a run until the seventh innings. Their fielding was excellent. The Chippers also played a very fine game. Innings. 123456789-Runs. B. H. Errors Londons.000000316-10999 Chippers.400011020-899 Umpire-Fred Goldsmith, London.

In this race the two sires, Bend Or and Robert the Devil, fought one of their old-time races over again in their youngsters, for the struggle between Kendal and Mephisto (admirably named) was very keen, the former only winning by a head, the same as Bend Or beat Robert the Devil in the memorable Derby of 1880. was played to-day, Boston at Detroit. Sir Henry James, "the learned and witty," as Thackeray says of Shandon, did not discain to be the frequent guest of Michael Bass. Nay, more, dear Mr. Punch, an upholsterer is as good as a pio-ture dealer or a printer; and I need scarcely remind you that William Agnew, who combines these useful trades, though he lost a duches, gained a constituency, and efficiently represents his county and himself. Surely Mr. Maple, having pro vided so many thousands of people with sets, **may** now look out for one for him-self.

The frequenters of the Crosby stree joint seem to have been, for the most part, dissolute characters, who were ready to seek excitement and gain stimulation in any way within their reach. Curiosity, too, undoubtedly sent many of them there, and the opportunity the place afforded for riotous revels also made it attractive. But the breaking up of other joints in New York, Boston and Philadelphia has brought to light the fact that they are patronized not only by the dissolute and shameless, but also by respectable men and women-dressmakers, teachers, clerks and mechanics, who perhaps first went to them out of curiosity, and were soon made victims of a peculiarly tyramical vice. Many, too, doubtless took up oplum smok-ing after having previously been otherwise addiced to the oplum habit. For many years past the victims of oplum have been many throughout the union, and perhaps were more numerous proportionately in the country than in the cities, where the opportunities for other forms of dissipation are greater. The girls in factory towns, we are to d, as in Lowell, for instance, are often addicted to the use of opium, and the habit of taking morphine under the skin is increasing and spreading both here and in Europe. The Chinese found the field already prepared for them when they came here to set up their opium joints. There was already a vicious demand for the drug, a new and seductive manner of using which they introduced. Those who want them find them out, although people generally are ignorant as to their situation, for, of course, they must be kept secret and without signs to indicate where they are. Undoubtedly we have enough Chinamen in New York to create a demand of them-

A common degradation makes them has be placed apart has been increased from the police break them up they find few chinamen among the smokters, who are almost wholly of European stock. Cities like Boston and Philadelphia, where the chinamen are few, are also provided with opium joints to satisfy the domestic demand, and, despite the efforts of the police, they continue to exist and to increase in number. When one is broken up, another is quickly estivablished, and probably there are many of which the authorities have no suspicion.
