LIKELY TO ABANDON TWO PUBLIC WORKS

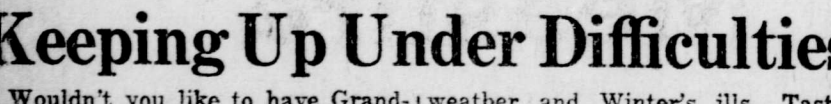

BRANTFORD, March 1.—The abandonment of the Market street subway under the C. N. R. and the proposed storm sewers in Eagle Place, both suggested as relief works for unemployed here, will probably follow. The Dominion Government's attitude toward the subway is unsympathetic and since it was expected that the C. N. R. would assume the greater part of the cost of the work if it were carried on and this is not likely to be the case, the city will drop it. The Eagle Place storm sewers were suggested to provide work for unemployed, but property owners are opposed to adding further to their tax burdens. Mayor MacEwen, commenting on the decisions, said that there will be no capital expenditure of any size this year, the Council being determined to keep the tax rate down and avoid a deficit at the end of the year.

A slush ice jam at Two Fish Island, in Eagle Place, has caused the waters of the Grand River to back up toward the center of the city, so that the fall of water over the Brantford dam is practically concealed, a five-foot rise being registered. The dikes are being patrolled day and night to prevent any untoward incident. In the center of the city, above the dam, the waters have again frozen over and, with stiff weather, flood damage is unlikely.

MRS. LESLIE CLEMENTS.

CHATHAM, March 1.—Mrs. Leslie Clements passed away this morning in St. Joseph's Hospital, following a fever of several weeks' illness. She was a native of Dover Township and was well and favorably known throughout the district. She is survived by her husband, two small children, three brothers and three sisters.

He "tips" them off, but in this way:— "A pinch of Kruschen every day."

Keeping Up Under Difficulties

Wouldn't you like to have Grandpa's glorious vigor and vitality — his unbounded enthusiasm — his unvarying good humor? Yet he lives under the same difficult conditions which rob so many of us of our health — conditions which tend to make us depressed, jaded and worn out. But not so with Grandpa! Although forced to spend much of his time indoors and to eat hasty meals he is always in perfect health. Although deprived of much exercise he is always ready and able to indulge when the opportunity arises. Although beset by a host of annoyances, he is always calm and cheerful. Surely his youthfulness is a modern miracle! But wait — the secret is merely in the purity of his blood stream, kept rich and virile through "the little daily dimful of Kruschen Salts."

You too can get "that Kruschen feeling" which laughs at cold weather and Winter's ills. Tasteless in tea or coffee, Kruschen gives you bounding health for less than half a cent a day.

Kruschen keeps the eliminating organs working gently, naturally and regularly, and by ridding the system of clogging waste matter, keeps the body in perfect condition.

Do not confuse Kruschen with Epsom or Glauber's salts. Each of these is a single salt which the body requires and which, under ideal living conditions, it would naturally extract from our food. Combined in Kruschen these six salts supply the daily deficiency and counteract the effects of too much indoor life.

Begin this Habit of Health at once. Get a bottle of Kruschen today and begin taking your daily dimful tomorrow morning.

Kruschen Salts

Good Health for Half a Cent a Day

A 5¢ bottle of Kruschen Salts contains daily use for adults is "as much as will lie on a 10¢ piece," taken in your breakfast cup of coffee or tea. Every drug store sells Kruschen. Get a 5¢ bottle today.

SOLE IMPORTING AGENTS: CHARLES GYDE & SON, MONTREAL

WINDSOR LIGHTS TO COST \$80,000

Street Illumination To Be Costly This Year

COST \$5,000 LAST MONTH

Parole Recommended For Jailed War Veteran

WINDSOR, March 1.—Windsor will have to pay the Ontario Hydro-Electric Commission approximately \$80,000 for street illumination during the ensuing year, according to statistics issued yesterday by city officials.

It cost the city \$5,122.16 last month to have the streets lighted under an arrangement with the hydro-electric system. This figure, based on the purchase of electric lighting during the next 10 months, will total in the neighborhood of \$80,000.

At a recent meeting of the Council the Hydro Commission was requested to report on the cost of ornamental lighting on Erie street from Ouellette street to the easterly city limits. The installation of the ornamental system on London street last year greatly swelled the cost of maintenance.

What is believed to be the largest sum paid out by any corporation in the border municipalities for ornamental lighting this year is that charged against the City of Windsor.

To equip the fleet of motor vehicles owned and operated by the city, cost nearly \$900, according to accounts submitted to the Council by various city committees. Of this amount, \$100 was charged against the board of works department for markers, \$50 to maintenance of the city engineer's department and \$45 for licenses on various city-owned fire-fighting apparatus.

SHELL SHOCK VICTIM.

A recommendation for the parole of David Bowles, 55 years old, of Windsor, now serving a two-year term in the Ontario reformatory at Guelph, was signed on Saturday by George H. Warlow, police court clerk. Bowles, a veteran of the Canadian army in the world war, is declared to be a victim of shell shock. He was convicted of drunkenness by Magistrate Gundy more than 10 times in a year. The court imposed the reformatory term, hoping to effect a cure. His parole was applied for by his wife, who lives at 12 Marquette avenue with their young son.

The police will commence on Monday to check up on motorists who have not obtained 1925 motor license plates. The business of issuing licenses at the office of the Essex County Automobile Club has dropped off considerably in the last few days, according to W. H. Adams, secretary, who said that about 8,000 licenses have been taken out.

SENT TO REFORMATORY.

Two youths were sentenced to terms of two years, less a day, in the Ontario reformatory at Guelph for stealing game cocks from the Sandhill Hotel, Sandwich West Township, and two of their companions were paroled when they were arraigned for sentence in Magistrate Gundy's court yesterday. Those sentenced were Dona Goulet, 22 years old, 441 Hall avenue, and Joseph Dineen, 18, 422 Hall avenue. John O'Neill, 20 years old, 457 Hall avenue, and Frank Wakefield, 22, 322 Tuscarora street, were placed on parole for two years. Bert Brooker, proprietor of the Sandhill Road House was complainant. He said 10 fowl were stolen from his hotel. When the birds were recovered by the police all had died except one. Brooker himself was convicted of fighting the cocks in public court at Sandwich last week. He was fined \$50 and costs.

Provincial police are investigating a collision between a motor truck driven by Stanley Nantais, of Huron line, Sandwich, and an automobile in charge of Andrew Leclair, Assumption street, Windsor, which sent Albert Brody, a passenger on the truck, to the hospital last night. Nantais, according to the police, left the scene of the accident without making a report of it. He will be charged with reckless driving in police court to-morrow.

SUMMONS MOTORISTS WITH 1924 LICENSES

SARNIA Police Start To-day To Enforce New Marker Purchase

SARNIA, March 1.—Commencing on Monday the police will have instructions to summons drivers of cars which bear 1924 markers. Chief of Police W. J. Lannin pointed out to-day that the motorists have had practically a month to procure licenses and that no more leniency can be shown. The issuance at the Motor League office here was brisk for the first two weeks of the month, but it has fallen off recently.

Building activities here during February more than doubled in value the operations for the corresponding month of 1924. During the short month 23 permits were issued, totaling \$48,316 in value, as compared with a record value of \$21,605 for permits granted in February last year. Eight new houses were included in the figures for February. Inspector Wallon said that the prospects for the spring were very bright.

Lewis H. Richards is president of the Sarnia Chamber of Commerce for 1925. He was chosen presiding officer and president of the old and new boards of directors, held yesterday. His associate officers are C. H. Gabler, first vice-president; J. C. Clark, second vice-president; J. W. Simpson, treasurer; H. F. Holland, secretary; P. E. Packard, auditor, and Geo. P. Francis, manager.

PUPILS ENDANGERED BY OPEN WINDOWS

Complaints Made Because Ventilating System Does Not Need To Be Supplemented

Although efficient ventilating systems have been installed in all of London's recently built schools, complaints have been made of the practice of opening the windows during the class and subjecting the children to the risk of catching cold. It is contended that if the air in the rooms should be changed, that recess is the proper time to do it, as in the meantime a current of fresh air is usually coming in through the ventilating system.

One parent stated that at a local school a local teacher has the habit of opening windows during class and causing a draught in the room which is particularly dangerous to pupils sitting next to the open window.

ADAM DUFFUS DEAD

FOREST, March 1.—The sudden death occurred in Boscawen yesterday of Adam Duffus in his 68th year. He was the son of the late Adam Duffus, who was clerk of Boscawen Township for many years. He is survived by his widow, five sons, Vaughn, of Forest, and four daughters, Mrs. A. E. Jamieson, of Forest. The funeral takes place from the late residence to-morrow at Ravenswood Cemetery.

Mountain Grove, Ont.—I took three bottles of Dr. Pierce's Favorite Prescription and it helped me wonderfully. My baby was a strong, healthy child. I consider "Favorite Prescription" a great help to the expectant mother and am glad to recommend it.—Mrs. Fred Hepner.

Mrs. Fred Hepner

Health is most important to every woman. You cannot afford to neglect it when your neighborhood druggist can supply you with Favorite Prescription in tablets or liquid. This Prescription is made in Dr. Pierce's Laboratory in Bridgeport, Ont. Send 10 cents there if you wish a trial package.—Advt.

WATER OF THAMES RAPIDLY RECESSES

Flood Conditions In Kent Are Much Improved

WILL RESUME BLASTING

Large Supplies of Explosives Stored Near Jam

CHATHAM, March 1.—The ice jam, which extends from the mouth of the Thames River to several miles east of Louisville, a distance of 32 miles, still remains firm, but the flood waters have receded more than two feet in the last 24 hours. The special committee of the County Council has made preparations to resume blasting operations at the mouth of the river just as soon as the weather moderates to such an extent that the jam shows any sign of breaking. Large supplies of explosives are stored near the mouth of the river, and the situation is being very closely watched. About three inches of snow fell over the district last night, but those familiar with the conditions maintain it will do no harm, as not sufficient water will form in thawing to cause any damage.

However, late this afternoon a heavy snowfall set in, with indications that it might turn into rain. A heavy rain for several hours would be liable to create a dangerous situation.

Nelson Cook, of Tilbury East, was sentenced to from one to two years, less a day, in the Ontario reformatory by Magistrate Arnold in the county police court on Saturday afternoon on a charge of stealing cover seed. A partner in charge against William Cook was dismissed. J. Toomer, E. A. Uthier and M. Cook, who pleaded guilty when arraigned, were released on suspended sentence.

ARRESTED AFTER THEFT.

The men were arrested following thefts of clover seed from the farms of A. Asper and J. E. Russell several weeks ago. In addition to the men mentioned, G. Bowers, H. Hill and W. Toomer were also arrested, pleaded guilty to the same charges and were released on suspended sentence three weeks ago.

After several adjournments, the case against Nelson Cook, charged with selling liquor for sale, was to-day dismissed by Magistrate Arnold in the city police court.

Clarence Kendall, a local young man, has been sentenced to a term of from one to two years for theft in the Ohio state penitentiary on a large charge, according to advices received to-day by Chief Magistrate MacLachlin. Kendall was suspected of being connected with a series of thefts in this city during the Christmas season.

Nelson Parker, colored, at present confined to the county jail on a remand, having pleaded guilty to a liquor charge, may face a charge of a revolting nature, according to Chief Magistrate MacLachlin. In the meantime, the police are continuing the investigation into the disappearance of Parker's wife, and it is rumored that he has made an important statement which will materially aid the inquiry.

BAN PLACED ONLY ON HOMESEEEKERS

New U. S. Quota Bill Does Not Affect Visitors

LABOR MINISTER EXPLAINS

Permanent Residence Only Included In Measure

WINDSOR, Feb. 28.—Canada was officially informed of what the United States' new quota bill actually means, for the first time to-day, when Mayor Frank J. Mitchell, of Windsor, received a personal letter from James J. Davis, United States minister of labor, at Washington, clearing up certain points in the proposed measure affecting Canadians. The letter was in answer to one sent the minister by the mayor, who was puzzled as to what effect the measure would have on borderites and on Canadian workers who had no occasion to visit the States for business or pleasure. These will continue to enjoy present privileges, Mr. Davis reassures the mayor in his letter. He says that the extension of the quota limitation to natives of the Dominion will not affect Canadians except those desiring to take up permanent residence in the United States.

This clears up the whole situation," explained Mayor Mitchell, as he read the labor secretary's letter.

Hitherto, the U. S. Government's actual intention in regard to the privilege of border residents was somewhat obscure, but a few days ago Secretary Davis issued a statement that cleared up this point, but left doubt as to how the quota measures would affect Canadians residing at any point in Canada who were a part of the public. Information along this line was sought by Mayor Mitchell, who refused to proceed in the usual way and wire Ottawa about the matter, preferring instead to get in touch with Mr. Davis.

New Wash Fabrics Are Incentive To Early Sewing

Just to see this display of new Wash Fabrics is inspiration enough to plan one's spring wardrobe, to say nothing of the new things for the children and one's home. Such lovely, lovely colors. Such originality of design, and such low prices.

A little sewing now, in your odd moments, will enable you to face spring with nothing to do but enjoy the outdoors, and certainly the new fabrics will help you fashion delightful things; moderately priced.

Visit our Wash Goods Section, which is now just overflowing with lovely new merchandise; soft, delicate pastel shades, suggesting the modest spring flowers or bright, colorful shades of the more gorgeous summer blooms. All are gathered here; and the weaves, too, more varied than ever, offer a selection that is almost bewildering in its variety; complete for every kind of wear.

WM. ANDERSON GINGHAMS, from Glasgow. Scotland, all new checks and plain colors; 32 inches wide 40c yard

GENUINE IRISH LINENS, all linen, made in Belfast, large range of colors, 36 inches wide 65c yard

DURO FABRICS, SHIRTINGS, GINGHAMS, in novelty weaves; a famous English product, guaranteed unfadeable colors, full, new line of this make now on display.

EMBROIDERED VOILES, from Switzerland, will tempt many to secure their summer dress early rather than miss one of these exquisite materials.

New York, of course, has contributed to this collection of new and up-to-date Summer Dress Goods, and the whole range is filled out by a large volume of good, sterling, useful merchandise, made in Canada for the people of London and Western Ontario.

DRESS CREPES AND MOROCAINS, in beautiful assortment, many French fabrics are shown, and some of the Rayon (artificial silk) and cotton mixtures are really wonderful.

Lamp Shade Making
Continuation of Free Instruction Classes

So popular have been the classes in Lamp Shade Making, held during the past week, that it has been decided to continue them.

With this arrangement the prettiest Lamps are readily accessible. The cost is only for the materials. You do the work yourself under the guidance of a capable instructor.

Commencing this morning.

C. P. LINER HAS WILD TIME IN BAY OF FUNDY

Hit Broadside By Gigantic Sea; Many Passengers Injured.

DIGBY, N. S., March 1.—Surgical attendance was necessary for numerous passengers of the C. P. R. steamer Empress when it arrived here on Friday, two hours late from St. John, owing to the rough weather in the Bay of Fundy.

When about halfway across the bay the Empress was running broadside to a heavy gale and was struck by a gigantic sea on the port side. Windows and ports were smashed, compartments flooded and the main and ladies' cabins reduced to desolation. Passengers and their luggage were hurled in every direction and many suffered minor injuries. It was at first thought that one man had been swept overboard.

LUMBER COMPANY WILL REBUILD IN MILDMAV

MILDMAV, Feb. 28.—The Schwalm lumber firm, whose mills were destroyed by fire here recently, have been invited by the Harrison Town Council to locate in that town. However, it is understood that the Schwalm firm has definitely decided to rebuild in Mildmay. Their new mills will be of solid steel construction and it is expected that they will be ready for operation the latter part of March or early in April.

MOORETOWN MAN HURT BY LARGE LUMP OF SALT

MOORETOWN, March 1.—Pinned beneath a large piece of salt while at work in the plant of the Western Salt Company, of Courtright, Thomas Wilkins, an employee of that firm, received a crushed foot and broken ankle. Wilkins, together with a number of other employees, were working on salt when a portion of the salt pile in one of the bins fell, one large piece pinning him to the floor. The other employees were able to rescue the injured man before other injuries were caused. Dr. Clydesdale attended Wilkins.

MODERATE WEATHER ENDS FLOOD ON ST. LAWRENCE

OGDENSBURG, N. Y., March 1.—Danger of property damage along the banks of the St. Lawrence River was avoided Saturday, when moderate weather succeeded the gale which Friday night piled up a huge ice pack east of this city. The river was three feet deep in river front streets and at various places along the river bathhouses and camps were under water, but the level of the river was slowly falling.

FOUNDRY WORKERS WILL WORK ON 72-CENT BASIS

WINGHAM, March 1.—In respect to the recent settlement of the Western Foundry strike it is pointed out that the 25 men went on strike when the molders took this action to resist a reduction of wages from the 1924 basis. This basis was 76 cents on the dollar, which, it is stated, was to be reduced to 60 cents on the dollar, the basis of 1923. The settlement of the strike took the form of a compromise by which the men are to receive 72 cents on the dollar for 1925.

It was previously stated that the strikers asked for an eight-cent increase and settlement was made by a four-cent raise.

Greenland is the largest island in the world.

NEW POST OFFICE FOR AILSA CRAIG PLANNED

AILSA CRAIG, Feb. 28.—Plans and specifications for the erection of a new post office have been drawn up and the work is to commence at once. The location is known to many as the Brodie property and was recently purchased by Mr. A. C. Stewart. At present the post office is a very small one, and is situated in the east end of W. Meadows & Son's store.

HAD BOILS ALL OVER HIM

There is only one way to get rid of boils and that is by going right to the seat of the trouble—the blood—as the bad blood must be made pure before the boils will disappear.

BURDOCK BLOOD BITTERS

cleanses the system and removes all the foul matter from the blood in a way that few medicines will do.

Mrs. Chas. Rankin, Bulyea, Sask., writes:—A few years ago my husband had a terrible time with boils. On one arm he had 16 between his elbow and wrist; five on the back of his neck, and several more on different parts of his body. He tried everything he could think of, but got no relief until he took Burdock Blood Bitters, and to his surprise it completely relieved him, of his boils, in a very short time.

B.B.B. has been on the market for the past 46 years; be sure you get it when you ask for it; put up with the T. Milburn Co., Limited, Toronto, Ont.—Advt.
