D. RUGGLES & SONS,

We have recently published a new edition of Dr. Culver well's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physicial Incapacity, Impediments to Marriage, etc., resulting from excesses.

The colebrated author in the admirable cents, or two postage stamps.

The colebrated author in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicines or the use of the knife; pointing out a mode of cure at once simple; certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself heaply, privately and radically.
