ELECTRIC LIGHT PLANT FOR LOCKPORT

Shelburne Gazette: T. Nichol, of Melbourn, has begun operations for the construction of a dam near the outlet of Green Harbor Lake. The project on foot is an electric light plant for the town of Lockport. There is every condition necessary for a good head of water. The direct distance of the locality is about five miles from the town. Mr. Nichol is well-known on the South Shore in connection with the construction and ownership of light and water systems. That the work will be pushed to an early completion is an assured fact.

BUSTERED FEET
Bathe them with Minard's It heals, enses.

Minard's Liniment for Dandruff.

VICTORY

Mr. Willis, of Pleasantville, Lunenburg Co., has been holding services here.

Mr. and Mrs. Ralph Potter, of Clements, were recent guests of the former's parents, Mr. and Mrs. John Simpson.

Mrs. Willard Rosencrans returned from Halifax on Saturday, 14th, having accompanied her niece, Miss Beatrice Rosencrans, who has entered the hospital there for treatment.

Mr. Simeon Daries has returned from Carleton, where he has been working for the past year.

We are glad to report that Mr. Kenneth Milbery is improving in health.

Mrs. Wallace Wagner, of Somerville, Mass., and Miss Mary Simpson, of this place, spent Friday with their aunt, Mrs. Joshua Simpson.

Mr. Audrie Selig has returned from St. John, where he has been employed, to attend to his haying.

The Misses Ruby and Dorothy Simpson have been spending a week with their sisters, Mrs. Stewart Potter and Mrs. Ralph Pierce, of Clements.

Mr. Fred C. Simpson has returned from Port Wade where he has been working.

FALKLAND RIDGE

Mrs. Harold Mason and two little daughters, who have been spending a few days with her parents at Melvern Square, returned home Tuesday, July 17th.

The strawberry and ice cream social held on Tuesday evening on the school grounds for church purposes was very successful.

Frank Young and two daughters, of Ayleford, was the week-end guest at E. P. Charlton's, returning home July 15th. He was accompanied by Mrs. Ella Weaver.

Mrs. E. Joudrey and son Weston went to Bars' Corner on Saturday, returning Tuesday.

Reta Sanford, of North Springfield, was the guest of Alice Cain recently.

J. H. Dalziel, of Halifax, and W. Demone made a business trip here July 18th.

Mrs. Edgar W. Oickle and Marie and Grace Spronie returned Thursday from Port Williams.

Miss Ann Spence left for her home in the U.S.A. July 20th.

Miss Lena Sproule, of Hanover, Mass., arrived Thursday, July 18th, and is the guest of her uncle, Will Sproule and family.

Little Reginald Sciever was successfully operated on Friday by Drs. Kenny, Lindsay and Spongole, of Middleton.

A number from here attended the funeral services of the late Mrs. Rebecca Dodd at North Springfield, July 19th.

A number of the young people attended the surprise party given to Carroll Lohnes, July 19th.

Mrs. Harry Slauswhite and sister, Ms. Riddle, of St. John, is at present here.

MISS PEARL L. CHUTE JOINS THE STAFF MASSACHUSETTS-HALIFAX HEALTH COMMISSION

The many friends and acquaintances of Miss Pearl L. Chute, will be pleased to learn of her recent success. Since leaving Annapolis, Co., where she efficiently acted as County nurse, Miss Chute has taken the Public Health Course at Dalhousie University, graduating on Friday, July 13th, and was awarded the Red Cross Scholarship. Miss Chute has joined the staff of the Massachusetts-Halifax Health Commission and will be with that institution indefinitely. While in Annapolis County, Miss Chute did a wonderful work, and we believe that public health is about the only method of solving the great problem of sickness and communicable diseases, and no county or part of Nova Scotia should be without its public health nurse.

Minard's Liniment for Dandruff.

SAYS LONDON FIRE BRIGADE IS THE BEST

"London possesses the most efficient fire fighting machine in the world," declares G. T. Cook in the London Daily Mail.

"Regulations enforced by the London County Council are part of that machine; so is the London Salvage Corps. But it is the work of the Fire Brigade itself of which the general public sees most, and it never fails to stir the heart.

"In these days it is rare indeed to see such a beautiful spectacle—for, after all, there is much beauty in the grimness of a fire. The fact is that fires now stand little chance of success.

"Since the great Cripplegate fire, in November, 1897, when much of the heart of London was eaten out and millions of pounds worth of property destroyed, firemen have maintained their supremacy over the fiercest of elements. Science, modern appliances and a wonderful organization have saved thousands of lives and much valuable property.

"If any one of the sixty-four fire stations in London receives a prompt call it is impossible for a fire to attain overwhelming proportion. And in order that this prompt call shall be given there are no fewer than 1640 telephone alarm posts in the streets, and not one of them is more than about 400 yards from any given building. In certain areas the distance is less.

"When an alarm is given at least two motor life-saving machines and a motor pump are sent at full speed through voluntarily cleared streets, and the whole brigade stands by, so that in case further assistance is wanted it shall be available at a moment's notice.

"The brigade has 57 motor pumps, 77 motor life-saving escapes, 9 turntable ladders, whose topmost rungs reaches to 80 feet, and 30,000 street hydrants. And there are various motor vehicles and appliances in addition. There are three stations on the Thames River and four powerful fire floats.

"Every householder should know where the fire alarm post nearest to his house is situated. A few seconds delay may mean disaster. And if you telephone for the fire brigade do not forget in your excitement to give the address.

"I wanted once to make a private inquiry about 1 a.m. at a certain fire station. The only bell I could see was labelled 'Fire Bell'. I gently pushed it, and the door was immediately opened. While I was wishing

TO EXPECTANT MOTHERS

A Letter from Mrs. Smith Tells How Lydia E. Pinkham's Vegetable Compound Helped Her

Trenton, Ont.—"I am writing to you in regard to Lydia E. Pinkham's Vegetable Compound. I would not be without it. I have taken it before each of my children was born and afterwards, and find it a great help. Before my first baby was born I had shortness of breath and ringing in my ears. I felt as if I would never pull through. One day a friend of my husband told him what the Vegetable Compound had done for his wife and advised him to take a bottle home for me. After the fourth bottle I was a different woman. I have four children now, and I always find the Vegetable Compound a great help as it seems to make confinement easier. I recommend it to my friends."—Mrs. FRED H. SMITH, John St., Trenton, Ont.

Lydia E. Pinkham's Vegetable Compound is an excellent medicine for expectant mothers, and should be taken during the entire period. It has a general effect to strengthen and tone up the entire system, so that it may work in every respect effectually as nature intended. Thousands of women testify to this fact.

CLARA MAY SABEANS INHERITS A FORTUNE FOR BRAVE RESCUE

Lady Native of Annapolis Royal Falls Heir to a Quarter Million.

The old saying that "it is better to be born lucky than rich," has been more than once exemplified in the case of a lady well-remembered by the older generation of Annapolis Royal and who is reported to have now acquired fortune as well as fame. Those who remember the Sabean or "Sibbins" family of this town when Clara May, one of the girls, acquired local prowess as a swimmer, knew that the lady were then in very humble circumstances, but when she was some years later identified as "Clara May Beckwith," one of the champion professional swimmers of the United States, her career of adventure began to attract attention. Nor did she forget her old home town, for about fifteen years ago, she, having then become Mrs. McInnes, of Manitoba, spent some months here as hostess of the residence lately transformed into the Green Hotel and in which she extended hospitality on a cordial scale. Returning to the States, however, the following is the latest as told with double column heading in the Boston dailies.—Spectator.

Mrs. Miller had almost forgotten the incident in the Bay of Fundy. It happened about 25 years ago. When lawyers told her that the Lynn man had left her that money, she was unable to recall the exact date of the time when she, then a mere girl, dove into the turbulent waters of Fundy and rescued Tibbits from death.

She was that time Clara Beckwith, and was a member of a party on the little steamer which runs from St. John to Digby. Tibbits, then a precocious youngster, was running around the deck, despite admonitions from his father and others to "sit still".

Tibbits mounted the deck railing. The boat lurched as a huge wave hit it. Tibbits fell overboard. His father yelled for aid. Miss Beckwith leaped over the railing of the steamer, clothes and all. Powerful swimmer though she was, it was only after a hard struggle that she reached the lad.

She held him up until small boats lowered from the steamer reached her and dragged her and the boy into a boat.

She restored the boy to his father's arms. Parental joy was great. Tibbits sent the girl \$1,000 with which to buy clothes to replace those ruined when she dove after the lad.

Still the father had not done enough. He told the Canadian government of the heroism of Miss Beckwith and, after hearing all the facts, the officials awarded the girl a medal for heroism.

Twenty-five years pass. In that time Miss Clara Beckwith became Mrs. Clara May Miller and went out to Los Angeles. She joined the force of sales-women of an oil syndicate, such as are being rapidly formed in Los Angeles, where oil is being discovered almost every day.

Tibbits, the precocious boy, meantime became a manufacturer of leather in Lynn. He prospered. A short time ago he died. When his will was read, it was found that he had left \$250,000 to the woman who had saved his life 25 years ago.

Mrs. Miller was amazed when she received a letter from the Lynn lawyers, who notified her of what had happened. She could hardly believe it. Just now she is preparing to come to Boston, as the will will be probated here within 60 days.

ing the officer good morn. g. firemen came swarming down a brass pole and in five seconds they were on the motor escape, awaiting orders.

"You have rung every bell in the building," explained the officer, "and called all these men out of their beds. My mistake, for which I profusely apologized, proved the efficiency of the brigade."

What is more, the same thing has happened at two other stations."

Canada Faces the Future With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimists, nor will Canada continue to develop if her people allow themselves to become croakers and grouchers. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural products.

Canadian farmers who have earned the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, stocked their barns and stables, bought their machinery, made a good living and brought up their families. It meant hard work, but today they are independent.

Money in Mixed Farming

In recent years, at different points on the prairies, oats fed to steers have brought from 70c to \$1.07 as against the Fort William price of 42c per bushel, while barley used for the same purpose has brought as high as 59c as against the Fort William price of 57c per bushel. Farmers marketing their coarse grains in this way lower marketing cost, have a sure market and make money on their grain, while at the same time they market their roughage, otherwise often wasted.

The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

Money in Pigs

The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying

for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

Profits from Sheep

As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

Poultry Pays

Poultry makes money for those who adopt modern methods, whether East or West. Little Prince Edward Island markets co-operatively in carlots, shipping annually upwards of one million dozen eggs. The British Columbia Co-operative Poultry Men's Exchange markets in the same way, thus saving ruinous glut in their local market.

There is a market for good Canadian horses, whether light or draught.

Grow Seed

Canada's Northern grown seed possesses extra vitality. There is a large market for it to the south. Canada exports seed potatoes, but imports other seeds. She has the opportunity to grow seeds for herself and for export.

The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay our debts. Canada is moving forward with confidence in its future. Let us keep going ahead.

Have Faith in Canada

CANTEEN PROFITS FOR 'NIGHT-IES' CREATES SCANDAL IN LONDON

London.—Lord Wolmer, M.P., appeared at the first public session of the House of Commons Committee to inquire into the profits made out of army canteens during the war, and accused the navy and army Canteens Board of spending the proceeds on crepe-de-chine night-dresses and other apparel for trading purposes.

"You must not bring charges which you cannot prove," said Sir Frederick Banbury the chairman.

"Look at the photograph of the Malta premises of the Navy said Lord Wolmer. "You can see what things are hanging there." The chairman refused to look at the photographs.

"Lord Wolmer declared that the total loss was nearly \$20,000,000. He said that when the Navy and Army Canteens Board took over the liabilities and assets of the Expeditionary Forces Canteens in 1919 the profits amounted to £10,256,000, not including the profits made by the Board in the canteens at home during the same period.

"This money," he said, "should have been handed over wholly to the War Office for the good of the soldiers and his dependents, under the orders of the Army Council. At the date of handing over to the board there should have been a complete winding-up of the war organization and a fresh start made. Instead of that there was a wild gamble with the profits. I object to these profits being used as capital for an entirely new concern.

"I have never accused any one of fraud in this matter, but I do charge the board with mismanagement."

"I have never accused any one of fraud in this matter, but I do charge the board with mismanagement."

FIRE AT LAKEVILLE

The dwelling of Mr. Raymond Clark at Lakeville, with its contents, was totally destroyed by fire on Friday afternoon. A family reunion was in progress, Mrs. Clark's mother, with four of her sisters being present, when the fire was discovered while Mrs. Clark was preparing the evening meal. No explanation as to its origin can be given except that it caught from the kitchen stove. When first noticed the fire had made such headway that practically everything was destroyed including personal effects of the occupants. Fortunately the other buildings were saved. We understand there was \$3,600 insurance on the house and \$1,000 on the contents.

So GOOD we want MORE

That's what the people repeatedly say about our **HOMEMADE ICE CREAM**. It is preferred to all other makes. Soft Drinks of all kinds, Pies and Cakes and all requisites for that picnic.

Mrs. E. B. Chute's
