

The statistics for the North American Indian Mission and of that in St. Thomas and St. Jan are essentially those of the previous year on account of incomplete returns.

Each number of the Moravian Almanac contains an account of some special branch of work. That for '89 describes the work among the lepers, which has been carried on for 67 years. It commenced at Cape Colony in 1822, and was continued until 1867, when it was handed over to the care of the Government Chaplain of the English Church. Just before that, in 1865, the *Leprosy Home* at Jerusalem was established and that is still continued under the special care of ten German and two English sisters.

Seventh Day Baptist Missionary Society.

REPORT FOR YEAR ENDING SEPT. 20, 1888.

Receipts.

Balance Sept. 12, 1887.....	\$247 35
