

That an unwarranted substitution of one remedy for another is occasionally practised by some druggists there seems to be no question. That this is morally wrong, is equally true; but that it is frequently a crime, in the eyes of the law, and as such is punishable, seems to have been lost sight of by some of those who may practise it.

But the fact that such have enjoyed immunity from prosecution, is no guarantee that they can continue their speculation, even on a small scale, without detection and its consequences.

Frank A. Ruf, of the Antikamnia Chemical Company, has recently been in New York and Chicago, and states that he has made arrangements for a thorough system of investigation throughout the country, and that counsel has been employed to prosecute, both civilly and criminally, all who persist in furnishing a substitute as and for antikamnia.

The Antikamnia Company proposes doing this without vindictiveness, and indeed, with none but the most friendly feeling to the druggist. Even where a druggist has allowed himself to be persuaded into the practice, their first step will be to

confer with him in the interest of mutual protection. Following that, they propose, if necessary, notifying every physician in the city of the name and address of the offender, with the recommendation to avoid him if honest goods are desired. The substitute obtained by the investigators, together with the name of the dispenser, will be shown to the physician, thus protecting the honest druggist. The more flagrant cases will be given to their attorney for proceedings in law.

Mr. Ruf said in regard to the matter: "We are simply determined that the honest druggist shall be protected: that the physician and patient shall be protected, and lastly, that our own interests shall not be trampled upon."—*Druggists' Circular*.

### HAPPY RELIEF ABDOMINAL SUPPORTER

244 SPADINA AVE.,

TORONTO, April 7th, 1891.

I have used Mrs. Pickering's Happy Relief Abdominal Supporter in my practice, and have found it to give entire satisfaction. A patient who had suffered for many years from an enormous hernia, being almost disabled thereby, has found the most complete relief from its use, and is now able to perform her household duties. She had tried other supporters, without the slightest benefit.
