

PLAYING-CARD HEADQUARTERS.

Our line of Playing Cards this season will contain the very best numbers of the leading European, American and Domestic manufacturers. We will also show some special lines, made solely for ourselves, which will be of unequalled value.

A narrow whist card to sell at twenty-five cents has long been wanted. We have succeeded in getting one this year, and as it is specially good quality, design and finish, it will probably be one of the season's leaders.
