

## 621 Water transport, passenger

<u>Estimates (1977):</u>	Payments	49	
(\$ millions)	Receipts		0

## 623 Water transport except passenger

<u>Estimates (1977):</u>	Payments	881.2	
(\$ millions)	Receipts		455.8

Comments : The bulk of passenger fare payments are for ship cruises, as estimated from the survey of international travellers. Passenger fare receipts are negligible. The available data on "water transport except passenger" are quite detailed, including separate figures for ocean shipping, Great Lakes shipping, interport earnings, and ocean freight on oil imports. Charter payments/receipts are excluded from the above figures but are included in 542, "rental of transport equipment". Canal receipts/payments are included in 423, "rental services for fixed assets except buildings". Port expenditures/receipts are included in 695, "services incidental to transport, n.e.s.".

U.K. Data : Separate figures are reported in the U.K. Balance of Payments for "tankers" and "dry cargo".
