

MCGILL UNIVERSITY
MONTREAL

FACULTY OF APPLIED SCIENCE
OFFICE OF THE DEAN

April 14th, 1928.

Miss C. M. Harvey,
Principal's Office.

Dear Miss Harvey,

I do not seem to have had
any communication from Colonel Bovey with respect
to the enclosed letter.

If, however, Dr. Porter will not
be in England this summer, the names of R. E. Palmer,
President of the Institute of Mining & Metallurgy,
(Sci.'87) and Professor E. G. Coker of the University
of London, (Sci.'99) occur to me as suitable re-
presentatives of McGill at the Centenary Celebrations
of the Institution of Civil Engineers.

Yours very truly,

H. M. MacKay

Dean.

Encl.
