After the shave or the bath you will enjoy the comforting touch of Williams' Talc Powder.

See for yourself !

Your shaving mirror reminds you of the old, old truth—that Williams' is the kind that will not dry on your face. For 78 years men have been looking themselves in the eye and saying "That's so!" You can't see, though, the real *work* that the big, creamy lather is doing down next the skin—smoothing a path of velvet behind the razor stroke. The cream in the big tube is just a new and handy way of getting the historic Williams' lather.
