

**IMPORTANT BOOKS ON SURVEYING**

---

**Surveying and Surveying Instruments**

By G. A. T. MIDDLETON

Associate of the Royal Institute of British Architects, and Member  
of the Society of Architects.

Third edition, revised and enlarged. London, 1912.

*Cloth, 170 pp., Ill., 12mo, \$1.75 net*

A concise work upon Land Surveying in which modern instruments and modern methods of working are described.

**Field and Colliery Surveying**

A Primer Designed for the Use of Students of Surveying  
and Colliery Manager Aspirants.

By T. A. O'DONAHUE, M.I.M.E., F.G.S.

London, 1896. Latest reprint with additions, 1911.

*Cloth, 263 pp., Ill., 12mo, \$ .80 net*

The book is elementary in character and at the same time supplies a more or less complete treatise on modern practice in Colliery Surveying.

**Land Surveying and Leveling**

By ARTHUR THOMAS WALMISLEY

London, 1900.

*Cloth, 244 pp., 12mo, \$1.00 net*

Within the compass of one volume the author gives the student as much as it is possible to teach him concerning the practical working of instruments and field work from a book alone. It will be found a practical book to put into the hands of those taking Civil Engineering courses at an early date in their training.
