However, Failed to Make Railway Contribute as Much as It Wished.

Guelph City, thru Hugh Guthrie, Chairman Mabee of the Dominion failway Commission an order ratifying in agreement between the city and I.P.R. concerning the protection of three crossings, viz... Eramosa-road, Alan's bridge road and Heffernandreet. But Mr. Guthrie's plea that we-thirds of the cost of constructing bridge at Heffernan-street be borne y the company failed. He contend-that the new bridge was necessary use the company was enlarging its the company had once proposed to con-struct at its own expense a foot bridge

The city will have to build the bridge to cost \$6500, but will be reimbursed to the extent of 20 per cent. of the "grade crossing fund."

The company will have to instal a bell at Allan's bridge road crossing, and will have to provide flagmen for all switching at this point. At Eramosa-road the company will have to erect gates and provide watchmen for day and night. The city will pay half the watchmen's wages and the company will be reimbursed to the extent of 20 per cent, of the cost of the gates by the "grade crossing fund."

Erickson Perkins & Co. had the following at the close:

The market opened easier in response to the lower cables, unsettlement in the stock market, and the issuance of heavy tenders, estimated at 70,000 bales. The latter were promptly stopped, and the market improved moderately, with the trade inclined to take a favorable view, owing to the impreved statistical position. Outside interest, however, showed no signs of broadening. Receipts to-day at leading points were generally under fast year, and the movement for the week was on a smaller scale. On the other hand, takings for the week were 46,000 bales in excess of last year. We do not expect the market to break away from the trading position at present, believing, rather, that prices will hold around the present level until surplus stocks have been greatly reduced. Purchases of the summer months are advisable on all sharp setbacks. Would sell the new crop on all bulges.

After September finished %c to %c up. After the final gong corn was %c to %c to %c net lower; oats off %c to ½c, and provisions showing 5c to 15c decline.

There was a decided disposition among wheat traders to ignore the weakness of the stock market. What proved to be the determining influence came in the shape of July buying on the part of the local elevator men and others, who professed a belief that May delivery would go to a discount, as compared with the later months. These operators further backed the theory, selling somewhat freely the nearby option. In general the bulls were aided thru the reported purchase of 25 boat loads of Manitoba wheat for ocean shipment.

boat loads of Manitoba wheat for ocean shipment.

All price bulges brought out invariably enough offerings to satisfy demands, leaving the tone at the close just steady. May ranged from 39%c to 90%c, and in the end was unaltered at 89%c to 90c.

Corn displayed weakness nearly from the start. Right at the end of the trading export buying received publicity, but too late to affect options. May varied between 48%c and 48%c, finishing easy, %c to %c down, to 48%c. Cash corn was weak. No. 2 yellow closed at 46%c to 47c.

Oats were depressed, with corn, but not relatively so much. There was a great deal of changing by elevator people, who bought July and sold May. The latter month fluctuated from 31%c to 31%c to 31%c to 31%c to 31%c. With hogs, corn and stocks all heavy, not a little pessimism developed in provisions. Pork consequently closed 12%c to 15c less expensive, lard off 5c to 10c, and ribs at 5c to 7%c decline.

Liverpool Wheat Market.

LIVERPOOL, Feb. 24.—The market at opening was unchanged to %d lower, being influenced by the weakness in American markets yesterday. Following the opening there was a steady undertone with shorts nervous and prices advanced %d to %d, with the principal strength in the distant months. There was an improved demand from the continent with a sale of Australian steamer to France at full price or an advance of 3d over yesterday with an active millers' demand. The closing strength shown in Buenos Ayres yesterday, together with firmer Plata offers helped the advance. ST. LAWRENCE MARKET.

gave a decidedly easier tone to the mar-ket and consequent lowering of values. The chief support again came from cover-ing by local professionals and, in view of the comparative steadiness in wheat prices, corn was weak. The short in-terest is being reduced all the time and the so-called investor does not seem quite so keen.
Oats—The market ruled quiet with narrow pice changes. Covering by shorts
in May was the sustaining influence. MONTREAL, Feb. 24.—There was an improved demand from foreign buyers for Manitoba spring wheat and bids were in time for prompt and nearby shipment and a good business could have been done if NOWNHAM'S STRAWBERRY

J. P. Bickell & Co. say at the close:
Wheat-Firm cables and better inquiry for cash created support in all slight dips, market closing with values unchanged to %c higher. A trading market to be expected and as decline has been severe, purchases on good decimes for moderate profits seem advisable.

show an increase of 29 car loads, 727 cat-tie, 710 sheep, but a decrease of 67 hogs, 27 calves and 113 horses, compared with same week of 1910.

Union Horse Exchange.

Mr. Smith, manager of the Union Horse Exchange, reports conditions on the horse market as being unchanged from those of last week. Severe weather in the northwest continues to hinder many would-be buyers from operating, althoseveral car lots were disposed of at last week's quotations, which were as follows: Draughters, \$200 to \$225; general purpose horses, \$150 to \$175; express and wagon horses, \$175 to \$225; drivers, \$100 to \$200; serviceably sound, \$35 to \$100 each.

Annual Clydesdale Sale. Annual Ciydesdale Sale.

The annual auction sale of registered Ciydesdale (imported and Canadian bred) stablions, mares, mares in foal, and fillies will be held at the Union Horse Exchange, Union Stock Yards, March 14, 1611. Manager Smith reports having received enough entries up to the present to enable him to say that this will be the best and most important sale ever held at these stables, that is, judging from the number of entries and the quality of the horses entered. Farmers wishing to improve their stock should not fail to attend.
