

COL. KELLY EVANS IS FOR LIBERTY

Soldier-Conservative Upholds His Tenets to Enthusiastic Audience.

A well-attended and enthusiastic meeting in the interests of Lieut.-Col. Kelly Evans, Independent Conservative candidate for seat 5, North-West Toronto, was held in the auditorium of the Danforth avenue, last evening. J. T. Code occupied the chair and the candidate in his opening remarks dwelt at some length on the referendum.

There is a trait in the human race, said the candidate, "that has come down thru all the ages, and that is persecution. We read of the persecution of the Jews in the early Christian era and persecutions in England, and the New England laws. These persecutions were carried out in the name of religion. Wherever persecution has taken place the persecuted have thriven. The early Christians in the Catacombs and the spread over half the globe. Where are now all the ghoulish prohibitive laws of olden times? They are swept away," said the speaker.

Quoted Bishop. The same words appeared in the Sunday paper, and now in the year 1919 history repeats itself and a wave of prohibition sweeps across the whole continent.

The credit for Hydro power was due to Sir Adam Beck and not to Sir William Hearst, who was a man of no account. The credit for Hydro power was due to Sir Adam Beck and not to Sir William Hearst, who was a man of no account.

The law at the present time is being treated as a joke and bitterness and hostility is being engendered among the people. Liquor is coming in from Montreal and the law is being evaded, both in Canada and the United States.

Regarding Fisheries. The speaker said the matter has been neglected in almost every session of the Liberal and Conservative parties. Royal commissions have sat and reported, but never real serious conditions in England were being gradually brought toward normal and that the opportunity presented by the present situation to allow more between growers and manufacturers would be of great benefit.

In North Riding There Are Two—U.F.O. Against Dr. Raspberry—Labor Fusion.

Hamilton, Ont., Oct. 13.—Four candidates will face the provincial election in the North Riding of the South Wentworth. The candidates are: Dr. B. E. Thompson, Liberal; Wilson A. Crockett, Barton, Independent Labor Party; and Frank Campbell Biggs, U. F. O. and labor, Beverley.

The nominations for South Wentworth were held at Lee's Hall, Mount Pleasant, Hamilton, last evening. Returning officer, J. Ham Regan said that it was the fifth time he had appeared before the electorate of South Wentworth and in giving an account of his stewardship he could say that the Hearst government had been a splendid record, one of its monuments being Hydro power.

Figures regarding the composition of the government showing its personnel to comprise lawyers, bankers, merchants and manufacturers, were given by Candidate Crockett. He said that he had received but little consideration he claimed.

YORK COUNTY AND SUBURBAN NEWS

WOODBRIDGE FAIR BEATS RECORD

Twenty-seven Thousand People Atten Best Show in Years. Woodbridge, Oct. 13.—Twenty-seven thousand people from all over the county attended the local fair today. Ideal weather, an unusually large number of entries in live stock classes, and the most exciting trotting race put on at any fair in the province all helped to make the event a record in the history of the Agricultural Society. Even the midway was thoroughly enjoyed and well patronized by town and country visitors alike.

Keen competition obtained in every class of live stock and the strongest sheep exhibit on record, 250 entries, was a feature of the ring. Woodbridge Citizens' Band entertained the crowd with music and in giving an account of his stewardship he could say that the Hearst government had been a splendid record, one of its monuments being Hydro power.

Figures regarding the composition of the government showing its personnel to comprise lawyers, bankers, merchants and manufacturers, were given by Candidate Crockett. He said that he had received but little consideration he claimed.

Hamilton, Ont., Oct. 13.—Nominations for West Hamilton, in the court house today, were featured by Walter R. Rolfe's clear-cut definition of labor's platform. Several important land sales on the Vaughan road heights and Eglington avenue took place Thanksgiving Day when several 'put-off-town' parties motored to the heights. The parties were much pleased with the possibilities of this northwest section and its future. Some parcels are held in the residential section also. The land on which the Presbyterian Church stands will not be sold, the church board having received the offer of a downtown lot for this property. It was decided to build a new church on the lot.

Edwin Lowe, of Earlscourt, employed in the Robert Simpson Co.'s wall-paper department, was taken sick while at work yesterday. He was unconscious for several days. He has now been removed to St. Michael's Hospital for special treatment.

AGAIN MAKE STEEL AT SYDNEY MINES

After Prolonged Shut-Down, Open Hearth Furnaces Are Producing.

Sydney, N.S., Oct. 13.—Steel making is once more in progress at Sydney mines. After a shutdown of three months, the open-hearth furnaces of the Scotia Steel & Coal Co. are once again producing. The reopening of the blast furnaces has been completed, and steel officials expect to have the furnace blown in within the next few days. Under the most favorable conditions, it takes several days to re-light a furnace and produce a cast, but it is not the intention of the officials to force a quick one, as the new lining is to be given every chance to become gradually accustomed to the increasing heat pressure. The blast furnaces and open-hearth furnaces have been closed under repairs ever since then, the first ingots since that date being produced on Saturday. As far as could be learned, winter prospects at the Scotia plant during the winter are fairly bright. This seems to be particularly true as regards the steel industry. The company, it is understood, have some orders for steel in view, but have not yet closed them. Negotiations are in progress and unless some unforeseen obstacle arises the contracts will be completed. The situation at the collieries of this company seems to be attached to France.

Special emphasis was placed by Lieut. Landers upon the fact that if he went to Toronto as the representative of the Independent Labor party, he would be representing the interests of the people and fighting for the rights of the people. He believed in sane legislation, and pointed out the need of the people, both as well as of the general public.
