This brings the total up to four, Joe Malone, George Carey and Frank Brophy having already cast in their lot with the Ancient Capital Sextet. That Toronto would like to secure the services of Joe Malone was manifested today in a telegram which Mike Quinn received from Charlie Querrie asiting if Quebec would consider the trade of Corbett Denneny or Reggie Noble for Joe Malone. U. S. Exporters Worried.

New York, Dec. 11.—As a result of the heavy balance of trade in favor of this country against Canada the market for Canadian exchange is completely demoralized. It was learned today that there are no buyers in the market to take care of the large offerings of commercial bills, which are being offered at a discount of 10

For a long time past Canada's pur-

chases in this country have been flar in excess of her sales to us. In Canada \$77,980,486 worth of goods, while our purchases in that country amounted to only \$42,643,583. In the first nine months of this year the balance of trade against Canada totalled approximately \$108,000,000.

This condition is having a serious effect on the trade between the two countries and is viewed with alarm by American exporters. Our trade with Canada is equal to the trade with all South America and Asia combined.

Canadian bankers interviewed today said that there is only one remedy for the present exchange situation, and that is for Canada to buy less here and produce more goods for export. If the Canadian wheat embargo is lifted shortly it will help materially in winning out the unfavorable trade wiping out the unfavorable trade balance, the bankers said.
