MR. JOHNSTON ASKS A FREE HAND IN THE ATHLETIC CLUB ENQUIRY

Matter Will Be Discussed at Monday's Meeting of the Council—Lamb Lobbies on Behalf of the Riverdale Park Caretaker.

Mayor Macdonald Follows Lamb and Endorses the Outrageous Action in Arresting a Young Girl and Sending Her to the Cells in the Patrol Wagon—What is the Caretaker's Pull?—Spence Acts Like a Man.

The leading feature of yesterday's City Hall news was Mr. E. P. H. Johnston's letter asking for a free hand in pushing the Athletic Club investigation.

The Board of Control, met on a recommendation to Council to have the investigation stopped, Mr. Johnston's letter must bring the entire matter of the unwise use of the deal again under review on the floor of the Council Chamber.

The public will await with interest the result of next Monday's meeting of Council.

The Riverdale Park Affair.

The eminent motion picture maker, Mr. Macdonald's attitude towards the law and its officers was exemplified in his comments on the one hand upon the caretaker who arrested the girl in Riverdale Park, and on the other, upon the judges of the land.

He backed up the caretaker, and said an example should be made of the poor frightened girl. But he wished that someone would rise in revolt against the judges, and reflected on the bar as an institution for not doing so.

This much is common to the Mayor's words, which will be found reported below adequately and impartially.

Lamb Lobbies Against the Girl.

In connection with the Riverdale Park arrest, it is the talk of the City Hall that Mr. Lamb has gone around among the aldermen representing that the girl had pulled "arms full" of spray, Mr. Lamb saw the Mayor. It is a pertinent question: What is the relationship between the girl and the caretaker, and why was she arrested? It is the talk of the City Hall that Mr. Lamb has gone around among the aldermen representing that the girl had pulled "arms full" of spray, Mr. Lamb saw the Mayor. It is a pertinent question: What is the relationship between the girl and the caretaker, and why was she arrested?

The Ex-Mayor's Portraits.

Mayor Macdonald, when he took his seat at the Board of Control yesterday, reported that parties are constantly coming in to the office of the Mayor criticizing the portraits of the past Mayors that hang upon the wall.

Mr. Spence: No, because they are not labelled. Spence: They ought all to have labels. There are Mayors whose pictures are not there at all—the present Mayor and Mayor Macdonald. Wait until he is dead. Mr. Spence: Ex-Mayor's snaw and Fleming are not there.

A Tender From Mr. Rust.

When the board yesterday awarded tenders, one was given to the Engineer. Afterward the paving and constructing company offered to do the work at the Engineer's tender.

Mr. Spence: I am in favor of letting the Engineer do the work, so that it should be understood the Engineer's tender is a bona fide tender and not an estimate.

Mr. Spence: I would like to see the Engineer do the work he figures on.

Mr. Spence: I don't know who the man by name is, but I understand it is so. It was decided to find out whether this man has been appointed inspector of several works since. I understand it is so.

World Fire the Engineer.

The Mayor: The only thing is to let the head of the Engineer fall.

It is very bad indeed. Enquiry will be made as to the means of suppressing the nuisance.

The following letter was read: Toronto, July 6, 1900. Dear Mr. Mayor—The Athletic Club investigation. As directed by the city, I proceeded to assist in the investigation.

On personal charges, I called witnesses for the purpose of showing that the aldermen of the city had been intentionally misled by some persons interested in the acquisition of the Athletic Club for the purpose of a technical school. There was no attempt on my part to interfere with the question of policy, but from the facts laid before me I felt strongly of opinion that the true scope of the investigation was, in fact, the fullest of members.

By which the Council were induced to approve of the site, without in any way criticizing the transaction, and to the Council. It also seemed to me that another branch of the enquiry should be devoted to the question of the propriety of the Council in recommending the purchase of the site for a technical school.

Chief Thompson said there was no great hurry, and the matter could stand over until the board could deal with it.
