A rather unexpected weakness developed on the local mining exchanges to day in which Tomiskaming figures. World Office, to-day, in which Temiskaming figured prominently. This stock dropped from yesterday's price of \$1.34 to \$1.27, almost precipitately, and there was no Nova Scotia—100 at 53, 50 at 54, 200 at 53, 500 at 53, 1000 at 53, 500 at 53½, 500 at 53¾, 100 at 54, 1000 at 53¾. news to account for the sudden reac-

tion in the price. In mining circles it was not believed that the break was owing to liquida-tion, but rather to professional opera-

market, but rather in curtailing dealings than in forcing lower quotations.

sket in forcing lower quotations. The only other weak issue was Nova Scotia, which declined three points below which declined three points below what of the opening of the week. There was no 'special news in week. There was no 'special news in the stock to account for the regard to this stock to account for the regard to this stock to account for the regard to this stock to account for the for the drive against the selling, but the operations in this issue of the afternoon board as low at 48. The treaction in the market had the effect reaction in the market had the effect of checking transactions, and business on the afternoon boards was consent the afternoon boards was consent the afternoon boards was consent be assigned for the drive against Tempiskaming to-day, the balance of the iskaming to-day is low prices.

NEGOTIATIONS PENDING

Negotiations between Kerl Lake and Negotiations between K

Negotiations between Kerr Lake and Hargrave are understood to be progressing in a triendly way, with a view to continuing the Kerr Lake's sixth level a considerable distance into the Hargrave and taking Hargrave ore out thru Kerr Lake workings. Hargrave, it is understood, is willing to make a short contract with Kerr Lake and to pay liberally for the drifting, stoping and hoisting. Kerr Lake is said to have proposed a long contract on a royalty basis. The principal reason why Hargrave wishes a short contract is that its own main shaft, only 75 feet from the Kerr Lake line, is being drivn down rapidly, work going on steadi-

ly 24 hours a day. will not be long before Hargrave Silvers, Limited workings will reach the top of the where the bonanza ore is known to lie The Hargrave is willing, however, is understood, to go ahea dand make deal with Kerr Lake to take some its ore out thru Kerr Lake workings, as that, with their own facilities, would practically double their shipping capa- at 1714.

It is now believed by many that one set of negotiations are likely to lead to others of a far more important char-acter. It is known that Kerr Lake interests have bought largely into Crown Reserve, and it begins to look as it Kerr Lake will become the central property in a merger that will probably take in the Kerr Lake, Hargrave and Crown Reserve, if not the Lawson. There is no doubt that these four properties could produce revenue that would pay excellent dividends on a very
