demand and a few transactions of this nature were put thru; these calls were sold to shrewd traders, who will probably make a nice turn over. Cariboo McKinney was in active demand. The stock being scarce, few transactions were recorded. The annual meeting of the company will be held to-day and a very favorable statement is expected, If the report is good, the stock will advance to the dollar mark. Montreal-London was rushed up on the belief of a good statement being presented. The annual meeting took place during the week, and altho the report was favorable the advance was not maintained. The company have decided to pay quarterly dividends; this policy tended to depress the stock, but why it should we are at a loss to understand. In our opinion, it should give strength, because it will save considerable labor and expense in getting out dividend cheques to be distributed among a very large list of shareholders. English mining companies pay quarterly and haft. dive strength, because it will save considerable labor and expense in getting out dividend cheques to be distributed among a very large list of shareholders. English mining companies pay quarterly and haftyearly dividends, and we should like to see this plan adopted by Canadian companies. The annual meeting of the Canadian Gold Fleids Syndicate was held in Montreal on Monday last. Dr. R. J. Wilson of Toronto, the president of the company, resigned, and declined re-election owing to other business engagements. Mr. George Sumner of Montreal was elected president for the ensuing year. The treasurer reported \$12,000 on hand, consisting of \$4000 in cash and the balance in bills receivable. The meeting was adjourned until Feb.20, in order to receive further reports from the general manager. Hammond Reef was active and lower, About 10,000 shares appeared on the market for sale, and the price fell off until this was marketed. The big mill has not yet started, owing to the extremely cold weather prevailing. It was thought better to wait until the weather moderated so as to give the new mill a fair test. King stock was active and lower, owing to forced sales of stock from the west. The showing at the mine (Oro Denoro) is said to be very good, an immense body of low grade copper sulphides has been partially developed. While this stock may go lower, we think its course should be watched and taken advantage of. The Oro Denoro will probably be one of the great mines of the Boundary District. Winnipeg was active and lower for the same reason assigned to the depression of King. North Star was in demand, owing to the splendid appearance of the property and the financial strength back of the enterprise. The stock is closely held and is bound to appear on the dividend frequiring the story and our information regarding the property is very encouraging. Republic is depressed, owing to street rumors which we do not believe. Payne shows remarkable steadiness, notwithstanding the stoppage of dividends. We learn that 60 men were recent

PATIENTLY BORE DISGRACE A Sad Letter From a Lady Whose Husband Was Dissipated-How She Cured Him.

"I had for years patiently borne the disgrace, suffering, misery and privations due to my husband's drinking habits. Hearing of your marvelous remedy for the cure of drunkenness, which I could give my husband secretly. I decided to try it. I procured a package and mixed it in his food and coffee, and, as the remedy was odorless and tasteless, he did not know what it was that so quickly relieved his craying for the disconnent annual concert at Massey Music Hall, THURSDAY, FEB. 15.
