

MANY WAR WIDOWS WILL IMMIGRATE

Salvation Army Has Scheme to Assist Women to Canada.

GOVERNMENT TO AID

General Booth Wants Fund of Million Dollars for Purpose.

London, Nov. 12.—A scheme which has been under consideration for some time by the Salvation Army is now complete for transferring British widows with their families to the overseas Dominions, and to increase facilities for the migration of other women desiring to go to Dominions when the war is over, and the abnormal demand for female labor is exhausted.

In a recent issue of the "War Cry" General Booth intimates that a fund of one million dollars should be raised, and \$300,000, has already been subscribed. The public trustee has agreed to act as treasurer of the fund, and the sum asked for should secure the settlement of five thousand widows and ten thousand children. The work, which requires careful and gradual preparation on this side as well as in the Dominion for the proper settlement of the families, would be conducted over a period of five years.

Close co-operation between the Salvation Army and the Dominion Government is already assured, several of the states have already come forward with offers of active support, and special representatives are being despatched to the colonies at once. General Booth points out that under the scheme, worthy widows living in oppressive or unsatisfactory environments, can be transferred, free of cost to themselves, to progressive overseas communities where there is more elbow room for the energetic and enterprising, and where she will be fortified while making her way, in the knowledge that she has the weight of the Salvation Army at her back.

He sums up the army's undertaking on behalf of the women as follows: "The army will not advise anyone to migrate or become responsible for the migration of any one who may not conform with the standards and ability it has set up, but its long experience with migration.

"The army will provide for the reception and secure positions in given localities prior to sailing for the new settlement, and will see that the new settlers are taken care of on their arrival.

"The army undertakes the superintendence, by its own officers or responsible persons, of the families migrated for four years, or until such time as the progress of the new settlers indicates that such guardianship can be dispensed with.

"In the event of failure to succeed in her new environment after four years' trial, a contingency regarded as remote and exceptional, the army will bring back the widow and her family to the old country, and the responsibility thus voluntarily undertaken on behalf of the women reach farther, and are more comprehensive than anything required by state regulation or anything that might be attempted by any other organization.

IN CASUALTY LISTS.

Three Cobourg Men Reported to Be in Hospital.

Cobourg, Nov. 17.—The names of three Cobourg men who have been a long time in the fighting are added to the list of casualties, according to messages received here by friends. Corp. Thomas Court, who went overseas with the 21st Battalion, is in hospital with trench fever. Pte. Alex. Greig of the bombing section of the 21st, is wounded. Both enlisted with Capt. Morrison of this town. Driver Christie Thew, reported admitted to No. 12 Field Ambulance with gunshot wound in the chest, returned to duty on Oct. 23rd. He enlisted with the 14th Field Battery with Lt. Col. Rolston, and has been two years at the front.

FOUR VOLUNTEERS.

Cobourg, Nov. 17.—Major Jas. McKinnon has added four more volunteers, who signed up this week, to the strength of the 6th overseas draft from Cobourg Heavy Battery.

IF BACK HURTS BEGIN ON SALTS

Flush Your Kidneys Occasionally If You Eat Meat Regularly.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, pleurisy, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of stinging, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

THE BLESSING OF A HEALTHY BODY

Has Not Had an Hour's Sickness Since Taking "Fruit-a-tives."

MR. MARRIOTT.

73 Lees Ave., Ottawa, Ont., August 9, 1915.

"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago, I began to feel run-down and tired, and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-tives,' I thought I would try them. The result was surprising. During the 3 1/2 years past, I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-tives,' and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain."

NEUTRAL ZONE ON BORDER OF GREECE

Gen. Roques Notifies Greek Government of Gen. Sarraïl's Action.

PREMIER ACQUIESCES

Step Taken to Protect Immediate Rear of Entente Powers.

London, Nov. 17.—Gen. Roques, the French minister of war, has informed the Greek Government that Gen. Sarraïl has sent troops to maintain a neutral zone along the frontier of Old Greece, according to a despatch to The Times from Athens. The despatch says that Premier Lambros acquiesced in principle to the step. It adds that the allies only propose to use a section of the Greek railroad for a supply service to Salonica.

Details of demands made upon King Constantine of Greece by Gen. Roques, as proofs of the monarch's friendliness toward the entente, are also given in a letter's despatch from Athens. According to this despatch Gen. Roques has given a memorandum regarding the demands to Premier Lambros, in which he was referred by King Constantine. It is stated that the memorandum calls for use of Greek railroads by the allies, the surrender of the country's artillery, the expulsion of a number of supposed German agents and the occupation of a specified neutral zone by French troops.

The foregoing apparently means that the Greek forces are to be kept out of Greece and Macedonia and south of a neutral zone running westward from a point about fifty miles south of Salonica. Thus Gen. Sarraïl's forces in Macedonia will no longer be menaced by a Greek army in their immediate rear.

RUSSIA'S STAND FIRM FOR FIGHT TO FINISH

Quietus Put on Rumors Originating in Enemy Countries.

Petrograd, Nov. 17.—The minister of foreign affairs has sent a telegram to all Russian representatives in all countries declaring Russia's firm determination not to make a separate peace under any circumstances, according to the semi-official news agency. The text of the telegram is as follows:

"Petrograd, Nov. 16, 1916: Reports spread about recently by the press of certain countries of pretended secret pour parlers being carried on between Russia and Germany with the object of signing a separate peace are futile and make no impression on the Russian Government. The imperial government desires to declare in the most categorical manner that these absurd rumors can only find source in enemy countries.

"Russia will maintain intact the intimate union which binds her to her valiant allies and, far from thinking of the conclusion of a separate peace, will fight by their side the common enemy without the slightest faltering until the hour of final victory. Nothing that our enemies can do will shake in any degree the irrevocable decision of Russia."

"You are charged to give the largest publicity to the preceding, and to bring the contents of this determination to the knowledge of the government to which you are accredited."

TAKE OVER COAL MINES.

Lord Rhonda Suggests Action by Government.

London, Nov. 17.—Suggestions that the government take over operation of British coal mines producing coal for the navy were made today by Lord Rhonda, one of England's principal coal mine owners.

Recently it was predicted that Rhonda's merger of several mines was but a step in plan he had mapped out for nationalization of mines. Lord Rhonda was formerly D. A. Thomas. He came to Canada soon after the outbreak of the war to begin the organization of Canada's resources, especially for the manufacture of munitions.

SAYS HOT WATER WASHES POISONS FROM THE LIVER

Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver. If you catch cold easily, it's your liver. If you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important also the most abused and neglected organ of the body. Few know its function or how to release the jammed-up body waste, bile and toxins. Most folks resort to violent cathartics, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of the famous phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire system, and before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it can not salivate, or it is harmless, and you can eat anything afterwards. It is inexpensive and almost tasteless, and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

MURAD CIGARETTES

TO-DAY—

at this very hour—more smokers are trying Murads for the first time than all other high-grade cigarettes combined.

Almost 100 per cent of these new Murad smokers continue Murad smokers.

What is happening to-day has happened every day since Murads were first introduced.

What is responsible for this?

Not advertising—Quality!
