Invest in a Farm Level and Save Time and Labor

It Makes for Efficiency in Many Phases of Everyday Farm Work.

IF UP-TO-DATE METHODS prevail on your farm, you'll want a Level—such as that shown in the illustration below. It will make for efficiency and accuracy in the proverbial hundred and one ways—such, for example, as lining up fences, grading the fall for ditches, setting out young trees in the orchard, ascertaining the height of springs and locating the position of drains. Moreover, the Level can be used without previous experience.

The Level proper is of black nickel. It is put up in a mahogany box with carrying strap, and is accompanied by trivet plate, which enables instrument to be set on the wall of a building where it is impossible to use the tripod. The latter is made of hardwood and bell metal.

Price of Farm Level, complete as described, is \$27.50.—Optical Dept. Third Floor, James St.

This is Interesting

BRIDES who wish to preserve the copper plates on which their wedding invitations or announcements were engraved may combine the practical with the sentimental by having the plates converted into card trays. The idea is proving very popular, and the stationery department has been turning out some very nice little copper salvers of this nature. The average price for making them is \$1.75.

Handsome Japanese book ends are among the unique pieces of Oriental pottery on view in the china department. Odd almond-eyed potatoes clad in rich garments and squatting in characteristic fashion on fat bags of rice are the subjects employed for the useful purpose. The price of the ends is \$7.50 a pair.

Head-linings ready to sew into a Panama or any other hat she may be trimming are a boon in the home—linings who invariably detests this flimsy, finishing touch to her task. They may be had in white or black silk for the small sum of 35 cents.

The problem of keeping linen or lace table centres from creasing when not in use is happily solved by winding them round long cardboard rolls specially designed for the purpose. These have attractive china covers, lined with satin ribbon, and may be had in the art needlework department, priced at 75 cents.

Among the new notepaper for social correspondence is a white linen lawn of superfine quality, edged with pink or blue, the top fold of the sheet of paper being narrower than the under fold. A papererie consisting of one quire of paper and 24 envelopes is \$1.50.

Toronto Kilties to Stir Recruiting Enthusiasm in U. S. Cities.

AVIATION CAMPS OPEN

Two Hundred Flying Men Training at New Toronto Grounds.

At the request of Brig-General White, C.M.G., a hundred and fifty picked men of the 48th Highlanders of Toronto will, on Sunday, July 15, leave for a visit to New York city and Chicago to stir up patriotic enthusiasm among the British-born and thus swell the enlistments at the British recruiting missions in the United States.

The party of kilties to visit the United States will consist of the regiment's brass band, 50 strong, under Bandmaster Lieut. John Slater, 20 pipers, and enough picked members of the 48th's C.E.F. men at Camp Borden to bring the total up to 150. Eight or nine officers, including Lt.-Col. C. W. Darling, will be in command. The visiting kilties will have permission to enter the United States in uniform and carrying arms. They will leave Toronto on Sunday afternoon on a special train. The Highlanders will spend Monday and Tuesday in New York city, travel westward on Wednesday, and visit

Chicago on Thursday and Friday. The return trip from Chicago to Toronto will start on Saturday morning.

In New York city the Scottish Society, the battalion of Scottish Volunteers, with their pipe band, and details of the United States army will take a part in welcoming the Canadian soldiers. Men Are Ready. Toronto's Royal Flying Corps aviation camps at Leaside and at Armour's Heights, in the northern part of the city, which occupy Camp Borden's great R. P. C. training grounds, have just begun operations, with 200 aviation candidates for flight-officers' certificates. There are nine airplane hangars at Leaside and six at Armour's Heights, and a vast number of mechanics employed in the buildings.

Major J. Rube has been appointed temporarily in command. He is an imperial officer, who saw service in South Africa and also in the present war. Capt. P. C. Sherran, M.C., who is leaving the Long Branch Camp to become a flight commander in charge of a squadron at Armour's Heights, has received a bar to the cross he won while at the front in France.

Yesterday's Recruits. Forty-two recruits were attested for enlistment at the Toronto Armouries yesterday, 21 of them signing up with the C. E. F. and 21 with the Royal Flying Corps. Every man who applied for enlistment in the R. F. C. was accepted. John G. Lansdown, who was working at Muselle, Mississippi, reported to the British mission at New Orleans, and was sent on to Toronto. He was attested at the Toronto mobilization centre yesterday, and joined the overseas draft of the 10th Regiment. Another recruit from the United States yesterday was L. C. Coombe, of Jamesville, N. Y. He joined the Canadian Mounted Rifles. The 21 C.E.F. recruits enrolled yesterday were attached as follows: York and Simcoe Forestry Draft, 6; 19th

Regiment, Canadian Mounted Rifles and No. 2 R. R. Construction Draft, each 2; 48th Highlanders, Royal Canadian Dragoons, Special Service Draft, Water Transport, Canadian Engineers, Army Medical Corps, C.O.T.C., No. 14 and No. 23 R. R. Draft, each one.

Unexpectedly Reunited. An unusual reunion of two brothers took place recently on the fighting line in France. Bombardier A. Reynolds of Montreal and his elder brother, John, who went from Dublin to France with the artillery meeting accidentally while the younger brother was passing through the lines of a British battery. E. W. Reynolds, a Toronto newspaper man, is a brother of the united soldiers.

Two typists are required for the mobilization depot at the armouries, for duty with the Special Service Company. Men rejected for overseas but fit for home service are eligible for this work. The Royal Flying Corps depot at the armouries issued a call yesterday for cooks and shoemakers.

Naval Band Here. Seven officers and the brass band of a famous British warship now in a North Atlantic port, arrived in Toronto yesterday, and were greeted by Mayor Church on behalf of the city. The visiting naval officers are Lieuts. Baker, Wood, Bandmaster Yardley, Assistant Paymaster Robertson, Capt. D'Oille, Chaplain Ritchie and Engineer Commander Large.

Fte. T. W. McCullough of the 227th Battalion died yesterday in the Military Base Hospital, Gerrard street, from peritonitis. A short time ago he had been operated on for appendicitis. He was 19 years of age. His next of kin is K. McCullough of Steelton, Ont.

Unclaimed Freight Includes Five Tons "Black Diamonds"

About one thousand lots of unclaimed and refused freight were sold by public auction at the C. P. R. freight sheds yesterday. The articles were boxed up and the condition of the contents was unknown to the spectators, but competition was keen. The list was varied, and among those articles which were sold at good prices were a box of dress patterns, 300 packages of macaroni, one Victrola, 2,000 coat hangers, 4 pairs of stock feed, 216 cans of stove polish, two Ford radiator noods, a box of face powder, bird seed, and five tons of coal.

RAISE PRICE OF ICE.

The ice dealers have been affected by the prevailing high prices of commodities, and as a result Toronto householders will be required to pay more for their ice this summer than formerly. Nine tickets will be sold for a dollar instead of ten, as before. The increased expenses of the ice dealers in wages, etc., are responsible for the advance.

HELD VERANDAH PARTY FOR MEN AT THE FRONT

Trench Battery Auxiliary Gives Novel Entertainment to Raise Funds.

One of the ideal ways in which to spend a half-hour yesterday in the full enjoyment of breezes from Lake Ontario, was the "verandah patriotic party" of the Auxiliary of the 11th Canadian Light Trench Battery, held at 1512 West King street, the home of Mrs. George Morton, secretary of the association. Mrs. W. J. Clark, the president, and a number of enthusiastic helpers, including several little girls, assisted during the afternoon and evening. Small tables for tea, together with comfortable wicker chairs, were at the service of the devotees of the tea-pot and other tables were filled with mysterious packages which might be bought for the small sum of five or ten cents. Beautiful posies made the air fragrant, and Chinese lanterns strung from the ceiling, together with a number of flags, made a gala spot among the intervals and spaces of the June trees. In the library a sale of fancy articles and home-made cakes was in progress and ice cream cones were held out from inviting baskets to the King street pedestrian. A musical program, arranged by Mrs. Conquergood, was also given. "We send boxes every week," the workers told their patrons, "and we hope to do well this afternoon for the sake of our men in the trenches." The time and taste expended on the venture deserved that the hope should be fulfilled.

RUSSIA ABOLISHES DECORATIVE ORDERS

Only Awards Given for Distinguished Service in War Will Be Allowed.

Petrograd, July 5.—The government today abolished all decorative orders except those awarded for service of distinction in war. The Petrograd Council of Workmen's and Soldiers' Deputies adopted a resolution to join with the General Congress of Workmen's and Soldiers' Deputies in sending greetings to the "brothers at the front," and congratulations on their successful advance, assuring them of support. The vote was 472 to 271. A vote of confidence in the government was adopted unanimously by the Council of Soldiers' and Workmen's Deputies on the occasion of the raid by government forces on the villa of the former revolutionists, which had been the headquarters of anarchists. The vote was taken after a speech by M. Skobelev, minister of labor, who said no one in Russia could be arrested on account of his political ideas, but that no mercy should be shown to criminals who organized society under the name of anarchists. The report of the executive committee emphasized the fact that the revolutionary element had nothing in common with the men who occupied the Durovovo villa.

It is said that grapefruit—which is a native of the East India Islands—was first introduced into Florida about the year 1890. When boiling cabbage use plenty of water and put in a spoonful of salt and one lump of sugar. Cabbage should be boiled quickly and with the lid off the saucepan.

SAXONY IS NOT LOYAL TO RULER

Sensational Statements Indicating Grave Unrest Made in Saxon Diet.

Copenhagen, July 5.—Saxon soldiers are not fighting out of loyalty to the king, but for love of the fatherland and monarchical principle. Saxony is suffering sadly from the mistakes of an incompetent bureaucracy, and conditions of this situation. Such were the disagreeable declarations which the government was forced to hear from all parties, except the Conservatives, in a debate in the Saxon Diet yesterday, a report of which has reached here.

The discussion was on necessary internal reform. The occasion for the debate was a Socialist resolution demanding that the government make an effort to secure liberal reorganization in the empire. After Count Vitthur, premier of Saxony, had declared that the Saxon Government would fight any attempt to secure any franchise reform in individual states thru the Reichstag, the socialist vice-president of the house himself an ex-soldier flatly denied that loyalty to the king played any role with the people.

He warned Count Vitthur against persisting in his reactionary attitude, saying that reform would come, if not from the crown, then from the mob. Count Vitthur attempted to meet the storm with the old formula, devotion to the crown, but even the National Liberals backed the socialist declaration. The people's voice, almost unparalleled in a German legislature since the days of 1848, the diet adopted the resolution, the Conservatives alone dissenting.
