REV. DR. PIDGEON AT ELECTRIC CLUB

Gives Progressive Address on "Some Problems of Citizenship."

Rev. Dr. Pidgeon, formerly of Nelson, B.C., now of Bloor Street Presbyterian Church, addressed the Electric Club yesterday at luncheon on "Some Problems of Citizenship." The welfare of the whole community must be the common aim, and this being so it was evident, he thought, that the average public opinion determined the results attained. Lord Rosebery had recognized the possibilities of education in politics in urban life, and he knew no field himself in which more could be done. They spoke of the toll of war, but the migration of the young men, going out into new regions, where they spent their vitality, where the women could not follow them, and they wore out their age in exhausted weariness, was a great drain on the vitality of the older communities. The men and women who go into newer parts of Canada should be backed up, so that the new atmosphere, the temper and tone should be worthy of the nation and prepare the way for the new time that we saw ahead. In the year past 385,000 immigrants were received into Canada, or 4 1/2 per cent. of the population. In 1913, the banner year of immigration, 418,000 were received, of whom 140,000 could not speak English. This was over 4 1/2 per cent. while the United States had never had more than 1 1/2 per cent. of their population.

Racial instincts. Not enough attention had been paid to the racial instincts of the settlers. He reminded them that the southeastern nations of Europe, though the Turks for centuries, preserved their racial ideals and ambitions as fresh and vital as centuries earlier.

He found that the settlers objected to the conception of assimilation, which to them meant annihilation. They never spoke of assimilating a Highland Scot. He thought a new word should be chosen. These people had their contribution to make, and their union with the nation should not require the suppression of anything worthy. He believed that men were now striving towards self-realization and self-expression, and not merely for higher wages in the industrial struggles of the day. They had, he believed, the whole nation had, to the injustice of the old systems, and he believed that those who did not take account of this, but who were new sentiment, and sowed the dragon's teeth of suspicion and hatred, would reap a bitter harvest. Things were possible with an awakened people which had not been possible before, and they must take advantage of the opportunity thus offered.

Social Results. Social results would be obtained in the

PROTECT PEOPLE ON HAMILTON HIGHWAY

Ontario Railway Board Will Consider Suggestions Made at Conference.

The continuous stream of motor traffic on the Toronto and Hamilton Highway is declared to be a great source of danger to pedestrians, and to people generally who live on the lake shore between Sunnyside and Port Credit. With a view to making matters safer, a conference was held at parliament buildings yesterday between members of the Ontario Railway Board, G. H. Gooderham, C. W. Wilson, Toronto & York Radial Railway; J. Lawson, Ontario Motor League; and C. J. F. H. Wise, Ontario Safety League. After a general discussion, the railway board took the matter under advisement.

Some Suggestions Made. The following were among the suggestions made: Establishment of safety zones or platforms where passengers of the radial cars may wait.

Traffic laws requiring automobiles to halt behind cars that are discharging or taking on passengers.

Appointment of traffic policemen in such busy centres as New Toronto and Mimico.

Changing the doors of the radial cars so that passengers may board or leave the cars with less danger of being knocked down by passing automobiles.

D. M. McIntyre, chairman of the board, said the conference was the result of a complaint made by Mayor West of Mimico. The protection of life was the big thing they had to consider, and the decision of the board would be arrived at accordingly.

VACCINATION CAMPAIGN. Dr. J. W. S. McCullough, provincial health officer, is commencing a campaign to encourage vaccination. He is to spend something like \$5000 in this campaign, and will publish letters and pictures to prove his contention that vaccination is the best protection against smallpox.

DAMAGES FOR SON'S DEATH. Action has been entered at Osgoode Hall by the legal firm of Hughes & Aear, acting for Mrs. Emily Laffler, against L. E. Downing and George Fraser, to recover unstated damages for the death of her young son. The boy was going north on University avenue on a bicycle when, it is alleged, he was crowded over by Fraser's automobile, so that his wheel struck a pile of gravel lying on the road.

CENTRAL, I.O.D.E., CONSIDER MEMORIAL

Objective for Toronto \$75,000 to Educate Soldier Orphans.

Miss Kathleen O'Brien, regent, presided at the meeting of the Municipal Chapter of the I.O.D.E. held at the Sherbourne House yesterday afternoon. A good deal of the session was devoted to explanations and plans regarding the war memorial fund of the order. Mrs. Warren Darling, treasurer, reported that the sum of \$7,165.36 had already been raised by certain chapters and individuals, but it was decided that in future the returns should be counted as a unit and recorded in the books as such. The objective for Toronto is \$75,000 and to reach this an individual collection will be taken up among the members, the sum so collected to be supplemented by plans still under consideration.

In reply to two requests from soldiers for assistance in the education of their children, it was pointed out by the regent that neither came under the heading of "deceased or disabled," which is the class for whom the fund is especially raised. The cases, however, will be considered.

For University Education. In reply to a question it was stated that the fund is for university education alone, at the same time secondary or high school students may be assisted at the option of individual chapters. Mrs. Holmsted, educational secretary, was quite enthusiastic on this point, stating that some of the chapters were simply waiting for the drive for the memorial fund to close to take in hand special cases that want assistance for collegiate or high school work. She also drew to the attention of the meeting the wonderful work of the Quebec and Montreal chapters which had already raised over \$47,000 for the memorial fund. The first university student to take post-graduate work overseas as the beneficiary of the fund will go in September, 1920.

A letter of thanks for "showers" to Pearson Hall was read. Appreciation for assistance had also been received from "Clarkwood," the home for blind girls.

ASKS HEAVY DAMAGES. Beatrice Cope and F. C. Cope have entered action at Osgoode Hall against J. J. Walsh to recover \$10,000 damages for injuries attributed to negligent operation of defendant's automobile.

DEATH OF H. C. BELL. Henry C. Bell, for many years head of the proofreading department of The Toronto Star, died at his home, 232 Garden avenue, early yesterday morning, after a brief illness of nearly two weeks.

The late Mr. Bell had suffered of late years from stomach trouble, but, notwithstanding his advanced age of 78 years, he performed his duties faithfully and well, and enjoyed the confidence and respect of his associates. One notable event in Mr. Bell's early business life was the fact that he had the proof of the English edition of the third Napoleon's "Life of Julius Caesar."

BANK EMPLOYEES DRAWING ADVANCES

Clerks Say Salaries So Small They Need Advances on Next Envelopes.

Complaints have reached The World of the practice in some banks in the city of permitting employees to draw advances upon their salaries from week to week, so as to retrench and live. In effect, this means that many employees are so meagrely paid that they find it necessary to draw upon the bank at which they are employed for advances to cover due bills, rentals and expenditures on butter, meat and bread. It was pointed out to one of them that this policy on the part of banks was generous to say the least. "Generous," he snorted, "why, let me tell you it is nothing less than a premium upon obligation in which the employe stands to lose his self-respect and his hold upon his savings account. I know of one case in which the young man had a savings account of moderate weight when he joined the staff of one bank in Toronto, but who has today nothing but his next week's pay to draw upon. And this, not because he has any propensities for the racing track or banker, but because, in order to live with fair comfort, he has been forced to take out bits from his savings every week until at last he has had no savings, and is practically living from hand to mouth. Does this indicate generosity on the part of the Bankers' Association?"

ICE IS DANGEROUS. Owing to the strong east wind that has been blowing during the past few days, the ice in Toronto Bay has been weakened to such an extent that it is unsafe for pedestrians. Only yesterday, Mrs. Ernie Cooper, while crossing the bay on her way to the city, had a narrow escape from drowning when the ice gave way under her.

Had it not been that her husband was present, it is quite probable that Mrs. Cooper would not have been rescued, as few people were in the vicinity at the time.

BIG DAMAGE BY FIRE

Creighton's Garage, Dundas Street, Burned, With Loss Estimated at \$90,000.

With a loss estimated by the fire department at \$90,000 to building and contents, Creighton's Garage, 1244 West Dundas street, was destroyed by fire yesterday morning. There were 100 cars stored in the building, and most of them were destroyed, the loss to the contents being \$75,000, and \$15,000 to the building.

For over two and one-half hours the firemen fought the flames, with a strong east wind blowing.

The outbreak of the fire started when a United States army truck, with engine trouble, caught fire. The men were filling the tank with gasoline when the flames burst out. The manager of the company placed the loss at \$120,000. The building was insured for \$15,000, while very little insurance was carried on the cars.
