

REFEREE SAYS M'TIGUE-STIRBLING CHAMPIONSHIP FIGHT WAS DRAW

Never Awarded It to Challenger, He Declares—Force Used.

Columbus, Ga., Oct. 5.—The title fight between W. L. Stripling, challenger, and Mike McTigue, light heavyweight champion here yesterday afternoon was officially declared a draw, three hours after the fighters left the ring by Harry Ertle of Jersey City, N. J., the referee. Ertle issued a statement declaring he was forced to award the fight to Stripling because he was being intimidated by angry spectators. He asserted that fight promoters had forced him to grab the right arm of the challenger and raise it aloft, naming Major Paul Jones, heading the committee of the local post of the American Legion staging the fight as the man who grabbed his arm. Stripling's hands and raised them aloft. Stripling, a high school student of Macon, Ga., won the fight, newspapermen agreed, by taking eight of the rounds. McTigue was awarded one round and the other was decided a draw.

In eight rounds, Ertle frequently had to separate McTigue and the challenger in the clinches, as the youthful Stripling would wade into the Irish, his two arms were grabbed and they would wrestle over the ring. The fight programme was put on before 1,000 spectators at the driving park arena after McTigue had made an effort to call off the fight because of an injured left hand. Doctors pronounced the cause an imperfect healing of an old fracture.

When it was officially announced that the fight was off, police protection had to be sought for McTigue. He was prevailed upon to fight by leading citizens who were responsible for the match. The fighting was one-sided, Stripling forcing the action, while McTigue with the exception of one or two spurts was contented with clinching and striking the challenger over the kidneys.

At the end of the tenth round the men continued to fight, apparently reacting to a neutral corner. Ertle made a motion to indicate a draw and left the ring. He was followed by McTigue and both were surrounded by cheering fans. The crowd yelled for Stripling and angry spectators rushed through the police cordon in an effort to get to Ertle.

A member of the military police returned the referee to the ring. It was some time before the police could clear the square circle. Ertle called newspapermen to a conference and asked Stripling to remain in the ring. The challenger sat down in a chair, looking over to where his mother was sitting and burst into tears.

Twelve reporters responded. Ertle asked them the opinion and then he received the youngster over eight rounds, lost one and that the other was a draw. Bout Goes To Challenger.

Stripling then was declared the winner. Meantime the police used their clubs in getting McTigue from the arena. He was taken to Fort Beasing. "Pat" Stripling, father and manager of the youthful champion announced before the fight began at the champion's dressing room that his championship had signed a contract with McTigue to fight in New York at an early date.

McTigue, it was announced weighed in at 162 pounds. The challenger was three pounds heavier. Neither fighter made much headway against the other in the first two rounds. Stripling landed heavily to the face in the second round, the first solid blow of the match. They clinched frequently.

Stripling showed signs of forcing the champion was taking matters calmly. Stripling landed a right on the champion's nose and the blood began to trickle from a cut. Stripling continued to rush the champion, the fourth round but little damage was done. Stripling landed a left heavily to the jaw in a clinch and McTigue pounded the boy's kidneys.

The challenger landed a heavy one on the back of the head and in consequence of the clinch, landed heavily on McTigue's jaw and the champion went into the ropes in the fifth round. The champion got one to Stripling's head as the round ended.

They mixed it in the clinches in the sixth and the fighters went up against the ropes. Stripling's right landed on McTigue's face and they clinched.

Dean Stone Of Columbia Law School Resigns

Retirement Effective June 30, 1924; Will Be Absent on Leave.

New York, Oct. 4.—Dr. Harlan P. Stone has resigned as dean of Columbia Law School. It has been announced, to devote himself to practicing law. His resignation will take effect June 30, 1924, and until that date Dean Stone will be absent on leave. He has been dean of the law school since 1910. Thomas L. Parkinson, professor of legislation, will serve as acting dean.

"I regret more than I can say Dean Stone's determination to lay down his distinguished post at the head of the law school in order to devote himself to private practice," said Nicholas Murray Butler, president of the university. "I can well understand the strength and earnestness of the solicitation that have reached him, but we at Columbia shall only be reconciled in case his withdrawal from our company opens the way to his selection for the Court of Appeals or for the United States Supreme Court, either of which would be a great honor."

Dean Stone is a native of New York and has been a member of the law school since 1900. He has been a member of the law school since 1900. He has been a member of the law school since 1900. He has been a member of the law school since 1900.

Dean Stone is a native of New York and has been a member of the law school since 1900. He has been a member of the law school since 1900. He has been a member of the law school since 1900. He has been a member of the law school since 1900.

Says World Markets

Syracuse, N. Y., Oct. 5.—(By A. P.)—An international commission with the power to fix the retail price of milk and to control in some degree its production was proposed to the World's Dairy Congress today by Dr. E. Laur, director of the Swiss Rural Union.

The price of raw milk is strongly influenced by the prices of butter, cheese and condensed milk. Dr. Laur said. These are commodities of international commerce and consequently the price of milk is influenced by the world markets. While the commerce in milk products is internationally organized, milk producers are not and as a result the price of milk in many countries does not cover the cost of production, he declared.

Urging an organization that would permit an exchange of views on all that is of interest concerning the international marketing of milk, Dr. Laur called upon the congress to sponsor the foundation of a commission. It is all right for Swiss cheese to be well supplied with holes but there can be a condition of too much hole and not enough cheese, said Professor R. Burri, director of the Swiss Dairy and Research Station, another speaker. He said that experiments with green food silage as feed for cows had failed because the cheese produced from their milk had had an excessive number of holes, due to the peculiar fermentation caused by the silage feed.

Chicago Short 6,647

Babies Say Reports

Chicago, Oct. 5.—(By A. P.)—With a steadily declining birth rate, Chicago is "short" 6,647 babies since 1916, according to statistics issued by the Infant Welfare Society of Chicago.

In 1916, when the population of the city was only 2,517,172, 56,417 babies were born. In 1922, when the population was 2,810,000, only 56,724 babies were born. The rate during those years had fallen from 22.4 to 20.2 per 1,000. Using these figures as a basis, Orlo F. King, Extension Secretary of the Infant Welfare Society declared that Chicago is short 6,647 babies.

"The falling of the birth rate," said Mr. King, "is a forcibly living hazard to the human life that is the most important of all the problems of the community. It is a problem that we must face, and we must face it with good reason, for the birth rate will continue to drop as it has since 1916. Statistics of the Society show that last year, when it cared for approximately 12,000 babies, an actual saving of 480 lives was credited to the Society because the death rate among babies under 2 years of age cared for at these stations was only 14 a thousand, while throughout the city generally it was four times as great."

Mrs. McDonald, the eighty-seven year old mother of John McDonald, was found dead by a neighbor in a brook, which runs past her home in Liverpool, N. B., yesterday.

Ted (Kid) Lewis defeated Frankie Burns, tonight at a twenty round feature at Premierland, London, yesterday.

Plans are being formulated for an inter-club bowling league to be held this winter. At a meeting of representatives of various organizations held last night, preliminary arrangements were made to form a league of eight teams. The meeting was held in the G. W. V. A. hall, and the following representatives were present: Y. M. C. I. J. E. Quinn and P. Quinn, Knights of Columbus, E. A. Kennedy and F. W. G. Lewis, New Brunswick Lodge, Knights of Pythias, W. Demings and E. T. Hill, M. H. A. El Boyner, G. W. V. A. H. B. Roberts and A. I. Machum. A meeting will be held next week to complete organization.

The work of constructing the plant for the Canada Cereals Co., has commenced at Newcastle, and it is expected about fifty men will be employed about the first of the year. It is understood that a furniture factory will be established there during the next couple of months.

Representatives of the residents of summer resorts in the district of South Bay and Grand Bay, to the Kings county line, met with the Lancaster councilors, John T. O'Brien, Murray Campbell and William Golding, with the county secretary, J. King Kelly, in the latter's office, Prince William street, last evening for the purpose of settling the matter of police protection for the district for the coming year.

At two previous meetings it was reported by former Mayor Hayes that the people were not in favor of the summer residents. A delegation had appeared at the county council meeting on Oct. 2 and by arrangement met at the county secretary's office last evening. Those present were: G. Stanley Oliver, Matthew G. Adams, Charles

Zev Has Trial Over 71-4 Mile Route

Runs Distance for First Time Since Injury—Time 2:06 2-5.

New York, Oct. 4.—Basil Jarvis and the others in the entourage of Papyrus, the English Derby winner, had an opportunity to get a line on how Zev looks in action. The brown son of The Firm and Miss Kearney, now considered as the horse which will meet the English representative in the \$100,000 international race at Belmont Park on Oct. 20, had his first trial at a mile and a quarter since his injury in the running of the Lawrence Realization Stakes at Belmont on Sept. 8, more than three weeks ago.

Trainer Sam Hildreth sent the colt out on the main track at Belmont Park in company with the Manoccos Stable's Knobbe and the pair stopped the full distance handily in the splendid time of 2:06 2-5. The speed of the horse was evidently still with him. Trainer Hildreth has brought Zev along slowly, gradually working him up to the full distance of the international race, which is a mile and a half. He has worked at the shorter distances at a clip that proved that he has not lost the foot that carried him out in front in so many of his races.

The fractional times of the trial were caught as follows: 0.24, 0.49, 1.01 2-5, 1.12 2-5, 1.39 4-5, 1.52 8-9, 2.06 2-5. Papyrus later was out for his work on the training track and on the main track. Trainer Jarvis likewise is planning another walk back to the stable. Papyrus, though he has been able to ask a little more of the handsome colt than he anticipated, since the weather has remained cool and Papyrus has picked up wonderfully after his rather distressing journey.

The Derby winner cantered for about five furlongs on the training track, and this limbering up exercise was followed by a walk with Bar Gold, another lighter canter following and then another walk back to the stable. Papyrus and those in his charge have settled down to the routine of training life in America, and this will not be seriously interrupted until after the big race, following which preparations will be made to send Papyrus back home in his palatial stall on the Aqueduct.

THE BEST MEDICINE FOR WOMEN

When Mr. Myers of Winston-Salem, North Carolina, stepped into the drug store and asked his druggist for the best medicine he had in his store for women's ailments, it is any wonder he was handed a bottle of Lydia E. Pinkham's Vegetable Compound? Mrs. L. K. Myers in writing of it says: "I had been weak, run down and had a pain in my left side for a long time, so I could not do my work. Lydia E. Pinkham's Vegetable Compound, helped me in a short time so I was able to do all of my housework including washing and ironing, and now I feel fine all the time." As Lydia E. Pinkham's Vegetable Compound holds the record for benefiting 98 women out of every 100 women who take it, it will pay every suffering woman to try it.

U. S. VISITORS TO EUROPE MORE FRUGAL THAN USUAL

The American tourist army left no fabulous sum in Europe this summer, at least not in Great Britain. Several of the biggest stores here report that their sales to Americans this season were below the average. Others doubted if American visitors left as much as \$25,000,000 in England.

Last year it was estimated that between \$60,000,000 and \$70,000,000 were spent in Great Britain by American tourists. Waiters in some hotels say the time this year were from 30 to 40 percent below the average. Some well known bars report a slump in business since the tourists returned home.

Mr. and Mrs. W. C. Cross, Mr. and Mrs. Harold McLean, and Miss Barbara have returned after a motor trip to Grand Falls, where they were guests of Mr. and Mrs. Douglas Kitchen. They had a delightful trip. They returned by way of Houlton, Maine.

THAT COST HIM 6 MONTHS PAY

—Also a Heavy Doctor's Bill.

"Four years back," writes Mr. R. Howard, of Bracebridge, Ont., "a scratch on my leg turned to an awful ulcer. It took six months of doctor's treatment to cure me, and all the while I was laid up, never earning a cent."

"Recently, a similar injury started inflammation and ulceration on the other leg. Knowing about Zam-Buk, however, this time I acted very differently and without delay, I used Zam-Buk alone, and not only was the ulcer speedily and thoroughly healed, but I didn't lose a day's work while the treatment was in progress."

Get a box of this grand herbal healer to-day! For eczema, pimples, boils, abscesses, scalp sores, poisoned wounds, piles, cuts, burns, scalds, etc. Of all druggists and stores, etc., \$ for \$1.25 or direct from Zam-Buk Co., Toronto.

"The Sure Guard Against Blood-Poison"

Dry Law Puzzles Noted Norwegian

Whole Nation "Censored" Says Johan Bejer—Thinks It Strange.

Boston, Oct. 4.—Johan Bejer, noted Norwegian author, declared in an interview that he could not understand the ways of American prohibition. "It is strange to me," he said, "why certain groups—society is it that censor the customs of your people, regulate, I might say, the life of individuals and instead, following the advice so often given in these columns, take a teaspoonful or two tablets of Bisulard Magnesia in a little water after meals with the result that their stomach no longer troubles them, they are able to eat as they please and they enjoy much better health. Those who use Bisulard Magnesia never dread the approach of real time because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and without the slightest pain or discomfort. It is this plan yourself, but be certain to get pure Bisulard Magnesia especially prepared for stomach use."

Wires Against Doping Stomach With Artificial Digestants.

Most people who suffer, either occasionally or chronically from gas, sourness and indigestion, have now discontinued disagreeable diets, patent foods and the use of harmful drugs, stomach tonics, medicines and artificial digestants, and instead, following the advice so often given in these columns, take a teaspoonful or two tablets of Bisulard Magnesia in a little water after meals with the result that their stomach no longer troubles them, they are able to eat as they please and they enjoy much better health. Those who use Bisulard Magnesia never dread the approach of real time because they know this wonderful anti-acid and food corrective, which can be obtained from any good drug store, will instantly neutralize the stomach acidity, sweeten the stomach, prevent food fermentation, and without the slightest pain or discomfort. It is this plan yourself, but be certain to get pure Bisulard Magnesia especially prepared for stomach use."

NEW YORK BARS YULE TREES

Embargo Deals Severe Blow to New England Industry.

Boston, Oct. 4.—No Christmas trees or greens can be shipped from New England to New York this year, under an order issued by the New York State Department of Farms and Markets and received at the New England moth quarantine inspection office of the Federal Bureau of Entomology.

Pennsylvania, Ohio, Wisconsin, Illinois and Virginia for several years have maintained embargoes against trees from areas under quarantine.

A large proportion of firs, spruces, and hemlocks cut in New England for Christmas trees hitherto have gone to New York. The industry is a large one in Maine, New Hampshire and Vermont.

VIBRATIONS MAKE TRIP TO DENTIST A PLEASURE

Safety Expert Issues A Warning

Tells Convention That Deaths From Avoidable Accidents Are Increasing Rapidly.

Buffalo, Oct. 4.—Immediate steps must be adopted to prevent the ever increasing and appalling toll of human lives taken in the United States by avoidable accidents, Marcus A. Dow of New York city, president, told 3,500 delegates to the annual safety congress of the National Safety Council here.

Accidents in 1922 took more than 75,000 lives in this country, Mr. Dow said. Over a period of ten years public accident deaths have increased of all proportion, while in the same period industrial accident fatalities have decreased.

"If there is any doubt in the minds of any as to the great need of organized safety work, just picture the far reaching and unhappy consequences of one single accident wherein the breadwinner of one American family loses his life," he continued. "Visualize what it means to that family to be suddenly deprived of a husband and father without warning of any kind."

"It is bad enough that 75,000 persons of any age or station in life should be killed or maimed in a single year, but when we stop to consider that out of that number 20,000 were children under 16 years of age, of whom 10,000 were babies under five years, it is time for us to rise up and insist that this cannot go on. Let us get together and put a stop to it and wipe out this blot upon our nation."

ACCEPT PROPOSAL FOR POLICE TAX

Lancaster Summer Residents Have Meeting With Councilors.
