U. S. GREATLY RESPONSIBLE FOR CONDITIONS

Member of Press Delegation Scores President Wilson's Attitude.

Hullfax, N. S., July 28—Failure of the United States to assume some of the responsibilities "which its triumphant entry into the war imposed upon that country" is largely responsible for the continued unsettled conditions throughout the world, in the opinion of Mr. Robert Donald, chairman of the Empire Press Union and one of the foremost newspapermen in Great Britain, who addressed a huge gathering at a civic luncheon here today.

Two years ago President Wilson was the inspiring moral force of democracy. He rose to a pinnacle of greatness unequalled by the head of any state, the hopes of humanity were centered upon him. Mr. Wilson's failure, the reasons and causes of which I will not discuss, have called the hearts of millions who had put their faith in him and almost worshipped him. They look with real sorrow upon the spectacle of America as one of the tragedians of history.

Speaking of the dependent races of all colors and creeds within the British Empire, Mr. Donald commented that some of these dependent races had had "self-determination," and would like to try it. He remarked that the blessed policy of self-determination was being enforced in some places but the votes of responsible free people, but at the point of a bayonet, enforced by a friendly ally.

"The state of things concerns you in Canada as it is a menace to her industrial life and financial stability. Anything which hits us touches you. Statesmen strive to ease the situation but the process is painfully slow. The events are too big for the men."

GOOD THINGS COMING TO THEATRES OF ST. JOHN

BERT LYTELL IN SIR GILBERT PARKER'S "RIGHT OF WAY" TOMORROW

Tomorrow at the Imperial "The Right of Way," starring Bert Lytell, the young actor whose versatility and magnetism have become synonyms for his name among motion picture audiences, will be thrown on the screen.

As many doubtless recall, from reading the famous book by Sir Gilbert Parker, this is a story of modern Canadian life, the narrative of the great romance of Charles, of "Beasty" Steele, the brilliant lawyer, irresistible in his personal charm, absolute and unprincipled, uncanny skilful in his profession—at once the pride and despair of Montreal. How his masterful personality, his craving for drink, his somehow attractive superciliousness, brought him into the lives of two women, different entirely save that both were beautiful, constitutes one of the really big love stories of modern times. It won for the author his knighthood as a matter of fact; and Mr. Lytell's enactment of the principal role, the artistic merit of the production, but the picture on a plane equal to that occupied by the novel.

"The Right of Way" is one of the big literary film-clasicals of the year.

This Store Will Bring You Inspiration For New Frock

The Voiles have never been so pretty—a rainbow of dainty summer colorings, or the darker shades which may well prefer.

Gossamer Organdies, too, and crisp, delightful Swisses are other cottons that fashion has glorified for summer.

YOU CAN MAKE THEM AT HOME WITH THE AID OF McCALL PATTERNS

And you will save enough to afford two or three at the usual price of one. Any of the six styles pictured above would be appropriate for a Charming Mid-summer Frock—you can get the Patterns here.

TO RELIEVE THE COAL SHORTAGE IN NEW ENGLAND

Embargo Against Tidewater Shipments Practically Shuts Off Export.

Washington, July 28—Adequate orders have been issued, members of the interstate commerce commission believed today, to relieve the coal shortage in New England. Beginning next Monday, under the priority orders promulgated yesterday by the commission, coal will be moved through five Atlantic ports to New England consignees at the rate of 120,000 tons a month.

Coal dealers were agreed that if shipments were maintained at this level, a fuel famine would be averted.

Orders of the interstate commerce commission include provision for an embargo against tidewater shipments until daily consignments to New England are cleared. This restriction, coal operators declared, practically will shut off export of coal.

FARM LABOR SHORTAGE

The shortage of farm labor in New York State is great as it now is, would be still greater were it not for the fact that farmers, anticipating the difficulty, have planted smaller crops than usual all over the state," says David S. Flynn, director of the New York State Employment Bureau.

The Boston Herald reports that Massachusetts farmers also have planted short crops in view of labor shortage and are not generally taking on additional help. A distinct downward tendency in the planting of farm crops has resulted in Massachusetts.

Fruit growers in the Hudson Valley have appealed to the State Employment Bureau for women pickers of berries and currants, as 800 women have already been placed by the bureau to meet this demand. "Spend your vacation on a farm," says the bureau in its recurring campaign for 600 women workers.

The women are paid piece rates. Farmers have made the concession this year of paying the workers fifty cents a day for rainy days when they cannot work. The farmer supplies housing and utensils and the women buy their own food.

"Boo—Yes, I don't know how it is, but I feel thoroughly wound up tonight. Hoops—How very strange! And yet you don't seem to go.—London Tit-Bits.

97 Men Die Poor!

Out of every 100 men, only 3 achieve a sufficient competence to retire to a comfortable, independent old age.

It should not be so when one considers how small a sum invested annually for a few years in an Imperial Endowment Policy will ensure a competence for a man's declining years. Yet we continually see and hear of old folks starving for a meagre living or depending upon the charity of friends or children for support.

You don't want to come to that do you? Then write us today for a copy of our interesting booklet entitled "Penniless Old Men." You will be astonished to learn from it how easily you can now provide for your comfort and independence in your later years.

WORKERS AND EMPLOYERS.

Factory Council Idea Means Orderly Co-operation.

Factory councils are explained and advocated as follows in Koda Live Wire, a publication issued "by and for the employees" of the National India Rubber Co. at Bristol, R. I.

"There are people in this factory who do not understand the factory council idea. And until every one knows what the factory council is and stands back of it, it cannot fulfill its mission.

"The factory council idea is fundamentally one of orderly co-operation between the management and employees of manufacturing concerns. It is a workers' organization, and through it the employees of a factory may make known their opinions. It is a well worked out plan whereby these opinions may be carried to the attention of the management through the proper channel and in a decent fashion.

"We spoke last week of the impossibility of having a properly governed nation until the people of the country made it their business to know what was going on in the world of politics. The same principle holds good in a factory. The factory council will succeed or fail exactly in proportion to the amount of understanding and co-operation it gets from those whom it is supposed to represent.

"There are various ways of handling the affairs of a plant like ours. One is for the management to go on its own way, regardless of the opinions of any one else. Such an attitude is not in harmony with the spirit of the age. Another way is for the employees to attempt domination by mob force. This is contrary to American ideals of law and order.

"A third way is the intelligent cooperation brought about by frequent conferences between management officials and chosen representatives of the employees. That is the factory council idea."

NECK BROKEN IS UNAWARE OF IT FOR FOUR MONTHS

For nearly four months N. P. Bowman, a farmer near Cassidy, Kan., has been living with a broken neck.

It is a case absolutely unprecedented in the annals of medical history, physicians say.

The sixth, or lower, vertebra, in Mr. Bowman's neck, was crushed when he was struck from behind by an automobile. The vertebrae, of the fourth and fifth vertebrae were broken off. The column of the neck was moved at least an inch off the centre, and still Mr. Bowman lives.

Fully as remarkable as the accident itself is the fact that Mr. Bowman did not know his true condition until he arrived at the Eldorado, Kan., hospital from his home and had an X-ray examination taken of the injury. For two months since leaving his bed he has been up every day, and no medical attention has been given him except frequent applications of liniment. He underwent the ride from Cassidy to Eldorado and returned in a car, suffering great pain, but amazing doctors by his ability to stand this experience.

The X-ray pictures show that the sixth vertebra was utterly crushed, and that by this time much of it had been absorbed into the system. It had practically disappeared so far as the bony structure is concerned, nothing but splinters and fragments remaining—Wichita Beacon.

RETURNED FROM BERMUDA (Special to Times)

Frederickton, July 28—Rev. J. B. De Wolfe, rector of Christ church, and Canon of Christ church cathedral, arrived home last night after spending the winter in Bermuda. His wife is at Woodstock with her parents. Canon Cowie and his wife landed at St. John on Monday. He stated today there was no foundation for the story that he had accepted a parish in Bermuda. Beyond the fact that he is rector of Frederickton he said his future intentions were unknown.

NEW LUMBER COMPANY

Walter H. Millikan, Charles J. Melli-day and Harry Powell, all of St. John, have been incorporated as Imperial Lumber Co., Ltd., with head office at St. John, and capital stock of \$48,000. The company is authorized to carry on a general lumbering business in its various branches.

ILL OF TYPHOID GERMS 'CARRIER' SOUGHT

Cleveland Women Guests Stricken—None Ill Whom the Caterer Served Elsewhere.

Cleveland, July 24—Health Commissioners of Cleveland and Lakewood, Ohio, today were united in the belief that a "typhoid carrier" was responsible for the illness of thirty-eight society women following a reception at the home of Mrs. George S. Case of 17,864 Lake avenue, Lakewood, a month ago.

Dr. H. L. Rockwood, Cleveland health commissioner, declared that a continuing condition existed on local bathing beaches, and that it was very likely the "typhoid carrier" picked up germs at one of the beaches and spread them among guests at the reception.

W. J. Benger, commissioner of health for Lakewood, believed, nevertheless, that the disease was spread through food served at the luncheon, and said he was "reasonably sure" the food became infected with the typhoid germ after it was delivered to the house where it was served.

The Lakewood health commissioner said he reached this opinion after he learned that none of the guests at another reception where food from the same caterer was served had suffered any illness. All of the caterer's employees were interviewed and it was found only one of them had been ill in years.

Cleveland's commissioner does not believe the city water was the medium through which the typhoid germ was conveyed to the guests at the Case reception. He said recent tests of water showed it absolutely free of the typhoid germ.

Physicians attending the women, now ill, however, are inclined to believe that water used in washing lettuce served at the luncheon contained the germs.

Dr. Rockwood ordered Dr. George B. Moorhouse, chief of the city bureau of communicable diseases, to take charge of the investigation. Dr. Moorhouse will be assisted by Dr. H. O. Way, city bacteriologist, and Dr. E. C. Rousseau, city dairy and food inspector.

Didn't Undetect Her.

Mrs. Kasper—So the doctor sent your husband to Bermuda for a rest. Didn't he want you to go with him?

Mrs. Knaga—Oh, yes, he suggested it, but I told him I never could bear the smell of onions.

PERSONALS

Miss Elizabeth McGrattan of St. George was in the city today attending the wedding of Miss Dorothy E. Murray and Urban J. Sweeney.

Miss Elva Stairs, who has been connected with the Evangelical Hospital for some time as head nurse, left the city on the Montreal train Saturday afternoon and after a lengthy vacation in Woodstock and other northern parts of the province, will resume her profession in the Victoria Hospital in Fredericton.

Friends of D. J. Gallagher, gas bus inspector for the marine department, will be pleased to learn that he was able to leave the hospital yesterday afternoon. He hopes to be able to return to duty in about a week.

Mrs. George Adam of Doverchester, N.S., accompanied by her daughter, Mary, arrived in the city yesterday to visit relatives here.

Miss Jessie Stewart and her mother, Mrs. Stewart of Summerside, P. E. I., are visiting in the city for a few days.

Friends of Mr. and Mrs. Francis Connors, 87 Douglas avenue, will sympathize with them in the loss of their infant child, which was buried today.

Rev. Charles O'Hara, C.S.S.R., of St. Patrick's Church, Toronto, arrived in the city yesterday. He is a son of Mr. and Mrs. Charles H. O'Hara, Douglas avenue, Fredericton.

Hon. A. S. White of Sussex is in the city today.

Hon. J. M. Willis and Mrs. Willis of St. Paul, Minnesota, are in the city registered at the Royal.

SCOUTS SUICIDE THEORY.

Brother Says Max Poindexter Was Killed By Robber in Chicago.

Chicago, July 28—That Max C. Poindexter, oil speculator, who was found dead in the Lexington Hotel, was slain by a robber is the belief of his brother, Robert Poindexter, of St. Joseph, Mo., who arrived today.

The brother does not accept the suicide theory, and he exonerated Miss Orval Waite, the Memphis woman with whom Poindexter was traveling. His theory is that criminals have been following his brother, who always carried a large sum of money, and that he was slain for his money.

The police scout this theory, and say it is not borne out in any particular. They assert that a robber would not have overlooked the \$300 Poindexter had strapped to one of his legs.

Robert Poindexter says that his brother believed himself marked as the victim of a plot. He had said he was being trailed by some persons who knew that he carried money.

"Before he left on this last trip south he borrowed a pistol from our sister, Mrs. Della Athie, saying he might need it for protection. This is the pistol that was found beside his body," Robert said.

Mrs. Poindexter, the widow, and Miss Walters were brought together after the request had been postponed.

"Please forgive me," pleaded Miss Walters.

"I forgive you," finally said the widow, after she had considered the request for some time.

Miss Walters is being held for the inquest, after which it is thought she will be released.

Correct Eyeglasses

Eyeglasses that are just as comfortable and efficient as they are becoming are the kind you will want.

We fit glasses that make you see as you should and give you that degree of comfort and satisfaction which is due you.

The superior service we give you is not an overnight growth, but the result of experience, study and hard work in our profession.

FIRST AID LIQUOR CUT OFF.

New Rule Bars Stimulants For All Injured in Factories.

Washington, July 28—Under a ruling by William M. Williams, Commissioner of Internal Revenue, workers in factories and industry generally must not be furnished with a drink of whiskey as a "first aid" treatment.

Secretary Houston, of the Treasury Department, has approved the new ruling, which repeals Section 74, Regulations 60, authorizing procurement of liquors for use in "first aid" treatment at manufacturing, industrial and other establishments, as provided by Section 74, of Regulation 60.

"Any person to whom such a permit has previously been issued may, prior to the expiration of the present calendar year, use any liquor heretofore procured by him under authority thereof for the purpose and at the establishment indicated in said permit, upon compliance with the requirements of the section above mentioned.

"Such person will not, however, be permitted to procure further supplies of intoxicating liquor for such purposes, and the Director will refuse to approve any application for permit to purchase Form 1410 filed hereafter by such person. When the liquor now in the possession of such person has been disposed of as above provided, his permit shall be inoperative."

It had been the custom of the attendant surgeons at "first aid" stations at all industrial establishments to administer liquor in medicinal quantities as a temporary stimulant to men or women who have been injured while at work and who are awaiting transportation to the nearest hospital. Hereafter the patient must wait without a stimulant until the ambulance arrives to take him to the hospital.

INSPECTOR BEATEN AT KENT WEDDING

Rev. Mr. Wilson Receives Report From Kent County—Warrants to Be Sworn.

(Special to Times.)

Fredericton, July 28—Rev. W. D. Wilson, Chief Inspector under the Prohibition Act received a telephone message shortly before one o'clock this afternoon to the effect that sub-inspector Albert Coates who was beaten by a mob at St. Edward, Kent County, last night, has been taken to his home where he now is in a serious condition.

Two officers have been despatched from Moncton by the chief inspector to investigate the whole matter and swear out warrants for deadly assault, St. Edward where the wedding with the resulting fight and beating took place is some six miles out of Dieppe.

Another seizure of liquor in Madawaska county has been reported. It was close to the Main border but details are lacking. Sub Inspectors Daigle and Pickard are on duty there.

Home Gardeners can have clean, soft skin by using **SNAP** better than soap, because it gets out dirt and grime easily and quickly.
