

**ARTHUR W. CLAYTON
DIES FROM INJURIES****INJURED ON NOV. 18TH
BY CAR COLLISION****Relapse Follows Operation—
Widow and Three Children
Survive**

(From Thursday's Daily.)

Arthur William Clayton, who was injured in a street car collision at the Government and Yates street terminus on Saturday, November 18th, died this morning at the Royal Jubilee hospital as a result of the injuries received in the collision. He had been in a low state ever since the accident, and although he rallied after an operation was performed he had a relapse this week and sank gradually until the time of his death to-day.

The coroner, Dr. E. C. Hart, said when asked if there would be an inquest that he presumed there would be one, but that at the moment he had not been notified of the death. The accident occurred through the air break on an Esquimalt car which was stationary at the terminus. The deceased conductor of a Gorge car which had come to a standstill behind the Esquimalt car was in the act of lifting up the feeder and it was his car when the Esquimalt car commenced to move and running down the slope crushed him between the two cars. The motor of the Esquimalt car had set the air brake and was walking through the car to take control of the feeder and it was supposed that an escape of air from the brake tube was the cause of the car starting unexpectedly.

The injured man was badly ruptured and was taken to the hospital, where an operation was found necessary. He was attended by Dr. George Hall, who pronounced him to be in a very low state. Hopes, however, were entertained of his recovery until the relapse he sustained this week.

The late Mr. Clayton was born in London, England, and was 46 years of age. He resided with his wife and three children at 414 Bay street. These survive him together with one brother in Victoria and one in Prince Rupert. He was a member of Capital Division, No. 109, Carman's Union. The funeral arrangements are being carried out by the H. C. Funeral parlors.

MET AT ROYAL OAK.**Branch of Women's Institute Held Interesting Meeting—Good Membership.**

A special supplementary meeting of the Royal Oak branch of the Women's Institute met on Thursday evening for the purpose of making arrangements for the entertainment of the children of the district at Christmas time. About sixty ladies were present, and the plans were taken up with enthusiasm and thoroughly discussed. It was decided that the four schools, which come within the Institute district should all be asked to co-operate in the entertainment, and repeat part of the programme which they would already have given in their own schools. The Royal Oak hall is much larger than any of the schools, and has a good platform, so that the whole Christmas performance will give the children a vastly better opportunity of displaying their ability. The schools which will join in the entertainment are Strawberry Vale, Prospect Lake, Elk Lake and Royal Oak.

This movement is only one of the many which the progressive women of this district are carrying forward, and it may come as a surprise to many Victorians to learn that the ladies are already making plans for establishing a public library in their district. The organization are carrying forward, and it may come as a surprise to many Victorians to learn that the ladies are already making plans for establishing a public library in their district.

The school which will join in the entertainment are Strawberry Vale, Prospect Lake, Elk Lake and Royal Oak.

BOY BANDIT-BUSY

Tacoma, Wash., Dec. 14.—The red-haired boy bandit, who has been terrorizing Tacoma the past week, got his twelfth victim when he held up and robbed Miss Ethel Kelley and her brother, Charles, at South Thirty-eighth and J. streets.

They were on their way to the brother's house at 4121 South J. street. The highwayman obtained \$12. The police have made some twenty arrests of red-haired young men, only to let each man go as he proved his innocence.

**REV. T. E. HOLLING TO
LEAVE VICTORIA SOON****Has Been Transferred to Ban-
ford, Ont.—Rev. C. T. Scott
Coming Here**

Victoria is soon to lose one of her most highly respected clergymen in the person of the Rev. T. E. Holling, who at the close of April, 1912, will leave for Brantford, Ontario, to fill the pastorate of the Colborne Street Methodist church there.

His post in Victoria, as pastor of the Metropolitan Methodist church, will be taken by the Rev. C. T. Scott, M. A., D. D., formerly pastor of the Colborne Street church. The exchange as far as is known is satisfactory to both clergymen.

The Rev. Mr. Scott will come to Victoria with splendid recommendations as a preacher. He has occupied the pulpit in many of the principal churches in Canada.

It is gratifying to know that Rev.

Mr. Holling's new charge, the Brantford Colborne Street church, is con-

sidered one of the best appointments in the Hamilton conference. He will have completed his fourth year at the Metropolitan church at the close of next April.

Rev. Mr. Holling came to Victoria in 1908. Previous to that time he was pastor of the Young Methodist church, Winnipeg, where his work was very successful. He has made hosts of friends during the years he has spent in Victoria and his departure will be sincerely regretted. As pastor of the Metropolitan church he established an excellent reputation both as a preacher and an organizer of church and Sunday school work.

WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office,
December 6th to 12th, 1911.

Victoria—Bright sunshine, 16 hours 49 minutes; highest temperature, 49 on 8th; lowest 38 on 12th; rain, .77 inch.

Vancouver—Bright sunshine, 13 hours 55 minutes; highest temperature 52 on 8th; lowest 38 on 7th; rain, .42 inches.

Kamloops—Bright sunshine, 17 hours; highest temperature 44 on 8th; lowest 24 on 7th; rain, .22 inch.

Prince Rupert—Highest temperature 46 on 8th; lowest 22 on 7th; rain, .42 inches.

Atlin—Highest temperature 49 on 30th; lowest 19 on 24th; precipitation .36 on 11th; lowest 10 below zero on 30th; precipitation .19 inch.

Prince Rupert—Highest temperature 46 on 8th; lowest 22 on 7th; rain, .42 inches.

Atlin—Highest temperature 49 on 30th; lowest 19 on 24th; precipitation .36 on 11th; lowest 10 below zero on 30th; precipitation .19 inch.

Prince Rupert—Highest temperature 46 on 8th; lowest 22 on 7th; rain, .42 inches.

Atlin—Highest temperature 49 on 30th; lowest 19 on 24th; precipitation .36 on 11th; lowest 10 below zero on 30th; precipitation .19 inch.

Prince Rupert—Highest temperature 46 on 8th; lowest 22 on 7th; rain, .42 inches.

Atlin—Highest temperature 49 on 30th; lowest 19 on 24th; precipitation .36 on 11th; lowest 10 below zero on 30th; precipitation .19 inch.

Prince Rupert—Highest temperature 46 on 8th; lowest 22 on 7th; rain, .42 inches.

Atlin—Highest temperature 49 on 30th; lowest 19 on 24th; precipitation .36 on 11th; lowest 10 below zero on 30th; precipitation .19 inch.

Prince Rupert—Highest temperature 46 on 8th; lowest 22 on 7th; rain, .42 inches.

Atlin—Highest temperature 49 on 30th; lowest 19 on 24th; precipitation .36 on 11th; lowest 10 below zero on 30th; precipitation .19 inch.

Prince Rupert—Highest temperature 46 on 8th; lowest 22 on 7th; rain, .42 inches.

Atlin—Highest temperature 49 on 30th; lowest 19 on 24th; precipitation .36 on 11th; lowest 10 below zero on 30th; precipitation .19 inch.

Prince Rupert—Highest temperature 46 on 8th; lowest 22 on 7th; rain, .42 inches.

**LAW RESULTS FROM
POOR CONSTRUCTION****Dundedin Block Prince Rupert
Built on Slender Timbers
Leased to Capt. Irving**

In the Supreme Court Chief Justice Hunter is hearing an application by Capt. John Irving for the reversion of a lease on the Dundedin block, Prince Rupert. The defendants are Arthur Pearson and William Moscrop. The building was constructed in 1909, but was not strongly built, with the result that it canted, and the building inspector and council gave notice to the owners that it would have to be strengthened or pulled down. Capt. Irving became interested in it through representations made by the defendants, who said it could be put in shape for \$25,000. On that understanding, Capt. Irving entered into a lease, but on arrival at Prince Rupert discovered that the cost of renewing the building was between \$5,000 and \$8,000. He therefore declined to proceed and brought the present action to have the arrangement annulled.

Grave L. Parker, forty years an architect, gave an estimate figured at \$10,000 for the rebuilding of the block. He was over \$5,000, but he refused to carry out the work because he did not like the job owing to the condition of the building. The building inspector of Prince Rupert gave notice to the owners to that effect, and told how the Prince Rupert council had taken action in ordering repairs. The block, which is wood, appears to have been too light in construction, and the earth on rock on six feet by eight feet timbers, these being the heaviest timbers in the building.

The Chief Justice sat until late yesterday afternoon hearing the details of the building contract, and the estimates made by the architect, and the repairs, and resumed the case this morning with Capt. Irving still on the stand and under cross-examination by E. J. McDougall, solicitor for the defendant. The defence is being heard this afternoon. H. B. Robertson is representing the plaintiff.

In the county court this morning the dispute over a plastering contract between L. A. Wilson and R. J. Scott is being continued. Counsel for the plaintiff and defendant addressed the jury before lunch.

**SEEKS EXEMPTION
FROM TAXATION****Case of New Westminster Y.
M. C. A. Is Now Being
Considered**

New Westminster, Dec. 13.—At the regular meeting of the city council the most interesting question brought up was that of the exemption of the Y. M. C. A. from taxes, and from charges for water and light. It was pointed out that some time ago an almost unanimous plebiscite had been taken in favor of this action, but the city solicitor had ruled that it was impossible to do this under the Municipal Clauses Act. Alderman Johnson pointed out that on previous occasions, when they had demanded an amendment to allow these privileges to churches and halls, they had been refused. He had voted against the step. In this case then the result of a request at Victoria for an amendment of the act might meet with a different result. The matter was referred to the mayor and the city solicitor for consideration.

A satisfactory statement with regard to the submerged pontoon at the end of Fourteenth street was made by the engineer, who said that the pontoon was ready to give his assurance that he would not hold the Dominion government responsible for any liability in connection therewith if they removed it. This was the condition under which District Engineer Kiefer was willing to take action, he was now only waiting for an answer from Ottawa to be able to do all probability to go ahead with the work of raising this obnoxious structure. The building inspector submitted a letter to the council asking for an amendment to the following clause of the building by-law, that "in the absence of definite subdivisions between the apartments of different families, eight rooms shall be counted as one apartment." He suggested that it would suit the city electrician better if this clause "eight rooms" instead of "eight rooms."

The suggestion was referred to the building committee for consideration. Further improvements for Agnes street were foreshadowed in a petition from a considerable number of residents, that the street be widened to 80 feet, they themselves, being willing to give the necessary seven feet from their respective properties, and also requesting that the E. C. E. R. be requested to lay a track along there while the street is being paved, so that they will not have to tear it up at a later date. The finance committee was asked to report on this, and also on a question of the registration of subdivisions, immediately on their being passed by the council in accordance with a recommendation of the engineer.

THIBETANS ROUT CHINESE.

Celestia, Dec. 14.—The revolutionary forces of the Chinese, who have driven the Chinese out of the town of Shera. The Chinese imperial troops made a stand at Gyasa, between Thibet and Shera, the Chinese, but were defeated by the Thibetans.

CAPITAL FOR ROSSLAND MINES

Rosland, Dec. 14.—Charles Dempster, manager of the Five mines, has arrived in Rosland after a three months' business trip to New York. He states he has received instructions from his principals to start the Five mines again, and work will commence on that property about the first of the year. He is also going to inspect some properties in and around Rosland with a view to operating some one of them. Should he find one which will offer sufficient encouragement to his principals he is assured that money will be put into the camp to begin work. This would of course be on only a small scale at first, but would lead to bigger things.

**BODIES OF THREE
MORE VICTIMS FOUND****No Hope for Two of Entombed
Miners Where Signals Were
Heard Yesterday**

Bryceville, Tenn., Dec. 14.—The theory on which hope is based that more men will be rescued alive from the Cross-mountain mine, the scene of Saturday's explosion, is that Sam Miller, the last man seen alive, was at the head of a party of the explosion victims, whom he has led to a refuge somewhere back in the workings. Three more corpses were recovered this morning. No hope is held out for John Duff and Arthur Smith, whose signals were heard Tuesday. The chalk-marks on the walls indicating to rescuers the route the imprisoned men had taken are being followed. They have been inscribed by Duff and Smith.

**PREDICTS DISASTER
FOR GERMAN EMPIRE****Editor of Occult Magazine Re-
fers to Some Strange
Coincidences**

London, Dec. 14.—In the current number of the Occult Review Ralph Shirley, the editor of that paper, has a curious note on Germany, in which the coincidences mentioned in the last number are to have attracted a good deal of attention outside the circles to which the Occult Review generally appeals. Mr. Shirley begins by speaking of a recent queer happening in Austria.

Hundreds of inhabitants, we are informed, gathered in the large square which has Bismarck's statue in its centre, when suddenly the sword beneath the original total brought her modern German holds extended in this hand-dropped and fell noisily to the ground.

"The fall of the sword was immediately followed by the death of the Emperor, the third or fourth story of a building he would have an air tax, which would increase in proportion to the higher the occupant went. As it is a rule of the Central Ratepayers' Association that the ratepayers' Association at the city hall R. H. Gregor, representative from the city, proposed to bring the matter up more fully at the next ordinary meeting of the association. He calls it "a graduated aerial valuation of the death duties and the income tax," or at least it is on similar lines.

As far as Mr. Gregor went into this aerial taxation scheme appears to be based on recognition of the fact that men have a right to the air. Therefore, from the third or fourth story of a building he would have an air tax, which would increase in proportion to the higher the occupant went. As it is a rule of the Central Ratepayers' Association that the ratepayers' Association at the city hall R. H. Gregor, representative from the city, proposed to bring the matter up more fully at the next ordinary meeting of the association. He calls it "a graduated aerial valuation of the death duties and the income tax," or at least it is on similar lines.

**DUKE OF CONNAUGHT
OPENS CONVENTION****Attends First Session of Public
Health Association at
Montreal**

Montreal, Dec. 14.—A brilliant start was given to the inaugural meeting of the Canadian Public Health association last night at the Convocation hall of the Royal Victoria college, when the first meeting of this association was formally opened by His Royal Highness the Duke of Connaught.

The governor-general was accompanied by the Duchess and Princess Patricia, while on the platform were Hon. R. L. Borden, Sir Lomer Gouin, premier of the province of Quebec; Hon. Martin Burrell, federal minister of agriculture, and Mayor Guerin, who all delivered brief addresses.

All the speakers showed keen interest in the work of the association. Hon. Martin Burrell intimated that a department of public health might shortly be added to the activities of the federal government, although a separate minister might not be assigned to it. He emphasized the fact that he was speaking quite unofficially, but Premier Borden, who followed him, also expressed his complete support of the work of the association.

Sir Lomer Gouin officially made the announcement that the province had been divided into ten sanitary districts, over each of which would be placed an expert, chosen preferably from medical graduates of McGill and Laval universities.

MANY COMPLAINTS FILED.

New York, Dec. 14.—The analysis of the 25,000 complaints received by the New York department of health during the past eleven months of the year, which was the largest number of objections were elicited by barking dogs in at houses. The singing nuisance and flocks of pigeons ran a close second. There were twenty complaints over the quality of beer sold in this city, several petitioners calling attention to the alleged fact that a pint of New York beer is often nearly all foam or water.

**HAS SCHEME TO
TAX SKYSCRAPERS****Member of Vancouver Rate-
payers Association Submits
Novel Proposal**

Vancouver, Dec. 14.—A skyscraper or aerial tax for Vancouver is the very latest suggestion. At a meeting of the central executive of the Ratepayers' Association at the city hall R. H. Gregor, representative from the city, proposed to bring the matter up more fully at the next ordinary meeting of the association. He calls it "a graduated aerial valuation of the death duties and the income tax," or at least it is on similar lines.

As far as Mr. Gregor went into this aerial taxation scheme appears to be based on recognition of the fact that men have a right to the air. Therefore, from the third or fourth story of a building he would have an air tax, which would increase in proportion to the higher the occupant went. As it is a rule of the Central Ratepayers' Association that the ratepayers' Association at the city hall R. H. Gregor, representative from the city, proposed to bring the matter up more fully at the next ordinary meeting of the association. He calls it "a graduated aerial valuation of the death duties and the income tax," or at least it is on similar lines.

As far as Mr. Gregor went into this aerial taxation scheme appears to be based on recognition of the fact that men have a right to the air. Therefore, from the third or fourth story of a building he would have an air tax, which would increase in proportion to the higher the occupant went.
