Oct. 22—The Alaska boundary dispute was brought down to this morning. It consists of between the colonial office and Ottawa. The correspondence shows that Canada agreed to the question to "jurists of re- and protected strongly when Root, Lodge and Turner were by the United States. The office expressed its regrets at then urged the acceptance of a man rather than the break- of negotiations. Mr. Cham- asked Canada's consent to this, ready without waiting for that to be given. Sir Michael Her- England and Mr. Hay, for the States, signed the treaty. There thing for Canada to do then but and agree, and this was prac- ce.

Maginness interviewed.

Oct. 22—It is Sir Thomas essay who speaks thus of the boundary award. "It is a most into outcome. I am a satisfied tribunal should have given access to the sea without evok- the slightest criticism of the States."

Senator Turner expressed satisfaction with the decision in an interview with a representative of the Associated Press. He said: "I believe it to be a fair and just settlement, as between two govern- ments, and I am very glad indeed that the majority of the commissioners could see their way clear to join in such an award, thus justifying the confidence of the two governments that a decision could be reached by jurists wholly from the two interested countries."

Senator Turner declined to discuss the statement of the Canadian commis- sioners, Sir L. Jette and A. B. Aylesworth. Special opinions were submitted on the second and fifth questions by Lord Alverstone, Secretary Root and Sena- tors Turner and Lodge, which will form part of the record, and in which the reasons for their conclusions are ex- plained. As the Associated Press has been officially informed that Lord Al- verstone and the American commis- sioners rely upon these opinions to answer the criticisms of the Canadian members

of the tribunal, these opinions assume more than a legal and technical inter- est. Lord Alverstone, in dealing with the second question, recites his reasons for believing that the entrance of the Portland channel was at 54.45 north latitude. Lord Alverstone says: "Inas- much as the questions submitted to us only allow long opinions on questions numbers two and five, the opinion upon question five is an able judicial disquisition dealing with the contentions of counsel on both sides with this result. It is impossible to resist the conclusions that the construction of the treaty now contended for by Great Britain is an afterthought, never entertain- ed by any officer of the British govern- ment during the lifetime of the makers of the treaty, and which originates at least sixty years after the treaty was signed."

The opinion of Mr. Aylesworth has not yet been turned in.

Press Comments.

London, Oct. 21.—From a British view point the best that can be said of the settlement of the Alaskan boundary dispute is that it is over. In the foregoing words the Graphic strikes the keynote of the London press comment on the decision of the Alaskan boundary tribunal. This decision is generally denominated "the surrender of British rights on the altar of American friendship."

While there is no suggestion of per- sonal criticism of either Lord Chief Jus- tice Alverstone or the American commis- sioners, the tendency is to regard the Canadian commissioners as the heroes of the hour for their refusal to sign the document surrendering what they con- sidered to be the rights of the Dominion.

The question of the effect of the deci- sion and the attitude of Canada towards the Mother Country is seriously raised and in some quarters it is predicted that the findings will strike a severe blow at the arbitration of any further cases where there may be a conflict of colo- nial and American interests. No doubt is anywhere expressed that Canada will abide loyally by the decision. The Standard, commenting on the loss of a gateway to the Klondike and the islands strategically commanding the mouth of the Portland canal, says it is useless to dispute their confirmation to another power, however friendly and en- lightened. "This loss will be regretted deeply by patriotic Canadians. We could wish that the result had been dif- ferent," continues the Standard, "but we cannot doubt that the American com- missioners, no less than Lord Alver- stone, are perfectly convinced that as jurists they were giving effect to the purposes kept in view by the framers of the treaty."

The Daily News fears that Canadian resentment will take the form of revok- ing the preferential treatment now ac- corded the United Kingdom, and sug- gests that some arrangement might be reached with the United States to per- mit the bringing of the new Pacific rail- road to the coast across American ter- ritory, similar to the right of way of the Canadian Pacific railway across the state of Maine.

Not Confirmed.

London, Oct. 21.—A report was in cir- culation on the stock exchange today that the negotiations between Russia and Japan had been broken off, but the for- eign office officials here said they had not heard anything confirming the rumor. "The Leicester Courier says: 'Having appealed to Caesar, it is hoped that Can- ada will be content to abide by Caesar's decision. Lord Alverstone is not a man to sacrifice Canadian interests unless ab- solutely convinced that her renunciation was not legally sound.'"

The Yorkshire Post (Leeds), says: "The difficulty in arbitration is in dis- covering the impartial judge. Lord Al- verstone seems to come nearer to the ideal since appointed by the arbitrator. He has decided against the British claims."

The Yorkshire Observer says: "There is no obvious warrant for the conten- tion of the Canadian commissioners that the decision was other than a judi- cial one, or that the rights of Canada had been deliberately ignored."

The Pall Mall Gazette says: "The Canadian commissioners would have shown more dignity and self-possession if they had not declined to be parties to the award, and more particularly had they abstained from the unfortunate de- claration of their opinion that the find- ing of the tribunal was not a judicial one."

The Evening Globe says there is something very pathetic in the words of the Canadian commissioners, who say: "We have been compelled to witness the sacrifice of the interests of Canada, and we were powerless to prevent it." "That," says the Globe, "is too fre- quently the position of British repre- sentatives which has resulted in more than one diplomatic victory being scored against us by the United States."

Man Suspected of Being Implanted in Sensational Crime Attempts Suicide.

Paris, Oct. 21.—A man named Lader- mann shot himself to-day at Lyons as he was being arrested by the police in connection with the murder of Les Bains last month of Eugenie Fougere. His condition is critical. Ladermann's brother says the crime was arranged between a woman named Girat, known in certain circles as "La Noblesse," and Henri Massot, her lover. Ladermann agreed to assist in the theft of the Fougere woman's jewels upon the condition that there be no killing. He secreted himself in the gar- den of the murdered woman's villa. When Fougere's maid came in the house she was bound and gagged by the Girat woman, who then treated Fougere in the same manner. After handling Ladermann the jewels the Girat woman strangled Fougere, whom she hated. Then, in order to dispose of the witness of the crime she strangled the maid, and the Girat woman then asked Ladermann to bind and gag her. This he did before leaving with the jewels.

LONDON APPROVES CANADIANS' ACTION

IN REFUSING TO SIGN BOUNDARY AWARD

Press Comments on the Decision—The American Commissioners and Counsel Satisfied.

London, Oct. 21.—All the American commissioners and counsel express satisfaction at the Alaskan boundary award. Senators Lodge and Turner sat for New York to-morrow on the White Star liner Cedric. Mr. Dickinson will start for home Saturday on the American line steamer Philadelphia.

Mr. Dickinson said: "The decision should be very gratifying to the United States as its contention on the main points have been fully sustained. The question of the Portland canal was fairly debatable and although I thought the merits of the controversy were with the United States, I have too much confidence in the integrity and ability of the tribunal to question its justice. Canada got all she could have with any reason expected, and will no doubt, in time, be reconciled to its wisdom. If the contro- versy had been left undecided, it probably would have been a fruitful source of very acute trouble. No man who values peace and the friendly relation which should exist between such closely allied and kindred countries, should, when the first feeling of disappointment has passed, fail to rejoice at the fact that this matter has been determined."

Senator Turner expressed satisfaction with the decision in an interview with a representative of the Associated Press. He said: "I believe it to be a fair and just settlement, as between two govern- ments, and I am very glad indeed that the majority of the commissioners could see their way clear to join in such an award, thus justifying the confidence of the two governments that a decision could be reached by jurists wholly from the two interested countries."

FIGHTING ADMIRAL NOW IN COMMAND

JAPAN CONTINUES NAVAL PREPARATIONS

Steamship and Railway Companies Are to Hold Themselves Ready for Any Emergency.

Yokohama, Oct. 21.—The ministerial conference, naval preparations, notably the appointment of Vice-Admiral Loga, known as a "fighting admiral," to com- mand the standing squadron, have led to a renewal of the anticipations of trouble. Some decided development in the crisis is expected shortly. The steamship and railroad companies are reported to have been notified to be in readiness for emergency.

St. Petersburg, Oct. 21.—A dispatch to the Novoe Vremya, from Vladivostok under today's date, says: "The Japanese government has informed its consul here that there is no reason why the Japanese should leave Vladivostok. This was in reply to a query of the consul on the subject."

Opening of Ports.

St. Petersburg, Oct. 21.—The Navy-krail, of Port Arthur, commenting on the commercial treaty between the United States and China, declares that article twelve (opening ports in Manchuria to United States trade) strikes at the very heart of Russian interests in Manchuria, and says it is convinced the treaty will only be ratified after material modifica- tions, as it affects part of the territory which, by virtue of existing relations, is not free so long as Russia has not definitely come to an understanding with China regarding her rights.

"Moreover," the paper adds, "prior to her present occupation Russia had special treaty relations with China regard- ing this territory, giving her the right to build railways and guaranteeing that no similar privileges would be granted to others."

BOUNDARY AWARD.

United States Officials Do Not Expect Details Until Mail Brings News.

Washington, D. C., Oct. 21.—The im- pression prevails at the United States state department to-day that all the details of the Alaskan boundary com- mission's decision will not be known until the mails bring copies of the treaty and other documents laid before the commission. There is a sharp gap in the outline description of the bounda- ry in the northern portion, which will probably be filled in when the full trans- cript is received. Inspectors of the charts here add to the satisfaction of the officials, particularly as the com- mission actually extended the American title over a large territory north of the Klondike river to the homelink island ad- vanced by Secretary Everts a quarter of a century ago, instead of limiting it to the boundary fixed by the Hay-Pauncefote modus vivendi. The American state de- partment intends to put the work of re- vising the boundary in the hands of the coast survey.

VOLUNTARY LIQUIDATION.

Action of Directors of the First National Bank of Allegheny.

Pittsburg, Pa., Oct. 22.—Following the suspension yesterday of the Federal National Bank of Pittsburg, the First National Bank of Allegheny failed to open its doors for business, and its directors have notified the comptroller of the currency that the institution has gone into voluntary liquidation and requested him to take the necessary action in such cases.

Vice-President R. J. Stony, Jr., of the First National Bank of Allegheny, read a statement signed John Thompson, pres- ident, after a meeting of officers and direc- tors with the clearing house committee, which says: "It was resolved that, although the bank has ample assets to pay all of its deposits in full and leave a handsome surplus for the shareholders, get its supposed connec- tion with the Federal National Bank of Pittsburg has created wide distrust, and it caused a run on the bank to such an extent that we feel it our duty to place the bank in voluntary liquidation."

The clearing house bankers have a san- guine opinion of the general situation, but the two banks so unfortunate at this time were found to be beyond the immediate reach of aid, although they are declared to be solvent and in good condition. Accord- ing to a report on the condition of the bank at the close of business on September 21st the liabilities were \$1,735,470; amount due depositors, \$1,032,128; cash on hand, \$113,113.
