The Wide-Awake Man. while our soldiers are fighting our b mong rebels and contraband chattele e you doing, my Wide-Awake man ? rave boys under canvass are sleeping em pressing to march with the van,

What are you waiting for, sweet little man. m, with the tertible warlike moustaches, Fit for a colonel or chief of a clan You with the waist made for award-he Where are your shoulder-straps, sweet little

Cover his face lest at freckle and tan : ster the Apron-string Guards on the com That is the corps for the sweet little man ! Give him for escort a file of young misses, Each of them armed with a dendy ratten ; They shall defend him from laughter and hieses, Aimed by low boys at the Wide Awake man. All the fair maidens about him shall cluster. Pluck the white feathers from bonnet and fan.

Make him a plume like a turkey wing duster-That is the crest for the sweet little man. Oh, but the Apron-string Guards are the fellows Drilling each day since our troubles began-"Handle your walking stick." " Shoulder

That is the style for the sweet little man. Have we a nation to save? In the first place, Saving ourselves is the sensible plan-Surely the spot where there's shooting 's

. Where T can stand, says the sweet little man. Such was the stuff of the Malakoff takers. Such were the soldiers that scaled the Eedan Truculent housemaids and blocdthirsty Quakers. Brave not the wrath of the Wide Awake man.

Sauve qui peut! Bridget, and right about, Ann-Fierce as a shark in a school of manhaders, See him advancing, the sweet little man.

Yield him the side walk, ye nurseoy maidens.

When the red flails of the battle-field's threshers Beat out the continent's wheat from the bran, While the wind scatters the chaffy seceshers, What will become of our sweet little man.

How will he look when his features they scan How will he feel when he gets marching orders, Signed by his lady love ? sweet little man,

Fear not for him, though the rebels expect him-Life is too precious to shorten its span : Woman her brooms ick shall raise to protect him, Wi'l she not fight for her sweet little man!

Now then, nine cheers for the stay-at-home Range Blow the great fish horn and beat the big pan First in the field that is farthest from danger, Take your white feather plume, Wide Awak

certain lapse of time for their due apprecia-When we stand close under some lofty tower we have a confused and dizzy notion of its greatness; when we see i from the furthest point of the open space surrounding it we gain a more just idea of its absolute magnitude; but no one can died suddenly whilst delivering the charge "Lord, sir," said he "massa never tells me truly judge of it who does not look back from the distance and see it overtopping hundreds of spires and gables, dwarfing what otherwise would be grand, and standing out alone against the sky. So of the great battles of the world. It needs many years before the importance of one of these events can be rightly judged. In the days before the Russian War the present generation knew of nothing but the conflicts between the old Imperial France and her enemies. Austerlitz and Jena, Leipsic and Waterloo, seemed like combats of Titans,—the wars of an extensive race, having nothing in common with tensive race, having nothing in common with ourselves. We could hardly form the conception of people living and going through the ordinary duties of life while such tred the ordinary duties of life while such tred duties of life while suc mendous events were taking place at their doors. But now we have had campaigns equally romantic and battles equally bloody; yet we see all with a coolness approaching indifference. It may be that twenty years hence the battle fought in front of Richmond will stand, in the estimation of the world, in the same line as the most famous contests in her last words. Addressing her husband of the French Imperial period. The num- she said; "I am going to die, am I? He ber of the troops engaged, the length and fiercenesss of the fighting and the immense interests involved give the separate us; we have been so happy."

Poor Oliver Goldsmith's farewell words Chickahominy a place among the foremost military events of the age. It is said of a really great victory that it should be as interesting to the statesman as to the soldier; the statesman as to the that it should not only exhibit some problem of strategy, but should influence the conduct of their beligerents and the policy of neighboring nations. In these respects the late battles are pre eminent. It cannot be doubted that all through America they are made as follows:—Take a mackeral barrel,

## Influence of Females.

once or twice a week in a lady's drawing room, even though the conversation is slow, and you know the girl's song by heart, than in a club, tavern, or the pit of a theatre. All amusements of youth to which virtuous women are not admitted, rely on it are deterious in their nature. All men who avoid famule society have dull percentions and are female society have dull perceptions and are stupid, or have gross tastes and revolt against what is pure. Your club swaggers, who are sucking the butts of billiard cues all night, call female society insipid. Poetry is uninspiring to a yokel; beauty has no charms for a blind man: music does not have gross tastes and revolt against the end of it and squeal vociferously. His cries will bring other rats, all of which will be tilted into the water, and all will fight for one spot in it, viz., the end of the log. As only one rat can hold it, the victor will drown all the rest, and can in the moning be drowned himself. We have seen twenty please a poor beast who does not know one rats caught in one night by such a trick. tune from another; but as a true epicure is

Coppens a Disnipponant.—To disinfect a cospool, dissolve half a pound in a pailful of warm water and throw it in. If the sulphate of iron be dissolved in water and thrown into cesspools it renders them pure, even where the gas is in such quantity as to be oppressive to the lungs and irritating to the nose. The rationale of the process is this. The sulphurie acid of the salt combines rapidly with the ammonia, forming a sulphate of ammonia, and the iron is thrown out as an oxid. The salt of ammonia (sulphate) is very soluble in water, and to a great extent inodorous. In addition to this, the ammoniacal gas is most rapidly absorbed by the water of the solution, and thus arrested until the sulphuric acid has time to leave the iron and unite with the ammonia.

PREPARING GLUE FOR READY USE. To any quantity of glue use common whiskey instead of water. Put both together in a bottle, cork it tight and set it for three or four days, when it will be fit for use without days, when it will be fit for use without the application of heat. Glue thus prepared, will keep for years and is at all times fit for use, except in very cold weather when it should be set in warm water before using. To obviate the difficulty of the difficult using. To obviate the difficulty of the using. To obviate the difficulty of the stopper getting tight by the glue drying in the mouth of the vessel, use a tin vessel with the cover fitting tight on the outside to prevent the escape of the spirit by evaporation. A strong solution of isinglass made in the same manner is an excellent cement for

planed surface of the wood is first rubbed with dilute nitric acid (aquafortis,) made with one ounce of the acid added to eight with one ounce of the acid added to eight of water. One ounce of dragon's blood is dissolved in nearly a plot of spirits of wine, this and one-third of an ounce of carbonate of soda are then to be mixed together and filtered, and the liquid in this thin state is to be laid on with a soft brush. This process is to be repeated, and in a short time afterwards the wood possesses the external appearance of mahogany. When the polish diminishes in brilliancy, it may be restored by the use of a little cold drawn linseed oil.

### Last Words.

Surely there is something very pathetin those words of Dr. Adam, of Edinburgh the High-School head master :- "It grows dark boys; you may go." As the shades of death were fast closing around him, the master's thoughts were still with his work; and thus regarding the shades of death as but the warning twilight of the earthly day, he gave the signal of dismissal to his imsame instant "dismissed" from work to his eternal rest! Every one knows that the of his advertisements; "N. B. Capes, victwo last words which Goethe uttered were torines, &c., made up for ladies in fashiontruly memorable: "Draw back the curtain, able style, out of their own skins. said he "and let in more light."

At the time of Humboldt's death, the sun was shining brilliantly into the room in which he was lying, and it is stated that his last words, addressed to his niece, were these: "How grand these rays; they seem to beckon earth to heaven!

Sir Walter Scott, during his last illness, more than once turned to Lockhart, and exclaimed with great fervor to him: "Be a good man, my dear." When we recollect nicle says that some one asked Stonewall's the character of the man who uttered them, old negro body servant how he came to be

Amongst the last utterances of the great conversation always was. He felt, he said, "as one who was waiting, and waited for." When we remember Charlotte Bronte's stormy and sorrowful life, lightened for only

looked upon as the most important events of the war—perhaps the most important in American history.—Times.

Insulate an ioliows:—Take a mackeral barref, for instance, then fill it about one-third full with water. Then place a log end wise in the water, so that one end will just rein the water, so that one end will just remain above the surface. Make the head of the barrel a little too small to fit, and sus-It is better for you to pass an evening of the barrel, so it will hang as if on a pivot,

please a poor beast who does not know one tame from another; but as a true epicure is hardly ever tired of water, sancey, and brown bread and butter, I protest I can sit for a whole night talking to a well-regulated, kindly woman about her girl Fanny, or her boy Frank, and like the evening's entertainment. One of the great benefits a man may derive from woman's society is, that he is bound to be respectful towards her. The habit is of great good to your moral men, depend upon it. Our education makes of us the most eminently selfse men in the world. We fight for ourselves, we push for ourselves, we yawn for ourselves, we push for ourselves, we yawn for ourselves, we push for ourselves, we yawn for ourselves, we push for ourselves and our case; and the greatet good that comes to a man from woman's society is, that he has to think of somebody to whom he is bound to be constantly attentive and respectful. Thecker.

FROST & WOOD.

## SMITH'S PALLS THRESHING MACHINES. MANUFACTURED BY Frost & Wood, Smith's Falls, C.W.

THESE Celebrated Machines, to which the attention of the Agricultural public is I called, have during the past seasons given the most entire satisfaction. Their superiority wherever they have been introduced and brought into competition with other Machines have been universally acknowledged by all who have used them, both for Durability, ease of Draft, and the thorough and effective manner of their operation.

Our SEPARATOR (capacity, four to ten horse power) for the coming season will be superior in every respect to any ever before made, as our aim is to excel every manufac tory in the Province, in producing first class work. In their construction none but the very best materials are used—frames well put together—cylinders run in copper boxes, which is a great improvement,—babbet metal in boxes where necessary, and everything is gct up in the very best manner and with the latest improvements

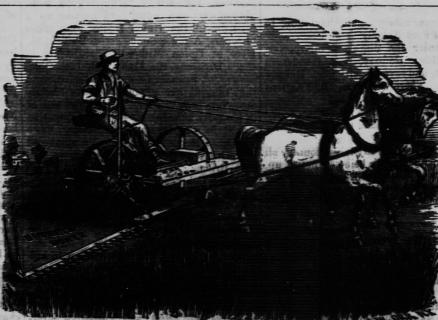

The DOUBLE PINION HORSE POWER, by which we drive the Separator and which we have much improved, is celebrated for great simplicity, ease of draft or effective power, costs less to keep in repair, and is very strong and durable.

Parties who intend getting Machines for the coming season, are respectfully invited to examine ours before purchasing elsewhere, as we are satisfied that they are the best and

most reliable in the Provinces. We continue to keep always on hand: -WOOD & IRON BEAM PLOWS, STUMPING MACHINES. CULTIVATORS. STRAW CUTTERS,

DOG POWERS COOLERS. CROSS CUT SAWING MACHINES for cutting logs for firewood, shingles, stave &c., &c. Also—COOKING, BOX, and PARLOR STOVES, &c., &c., &c. We make to order on short notice SHINGLE MACHINES. CIRCULAR SAWING MACHINES, (capable of sawing 8 to 10,000 feet of lumber per day,) GRIST AND SAW-MILL CASTINGS, and all kinds of JOB WORK. Particular attention paid to the repairing of old Threshing Machines.

Smith's Falls, August 13th, 1862.

Circulars can be obtained by applying to the Principals, or at Mr. Durie's Book Store, Spark's

Lake Huron Grindstones.

The undersigned, having examined and tested the quality of Lake truron Grindstones brought into this neighborhood by r Alex. Kinch of Remsay can confidently recommend them to the public.

They are every way superior to the Bores stone now in constant use, and being put at a very low figure, are within the reach of every farmer and mechanic. None should be without one.

They are to be seen at the Railway Station in this village.
