

So then & there I determined
to send you these slips - but
I put them away so carefully
feared they were lost - however
they turned up in a box - one
of Ralph Waldo Trines. I + care
me if you think me presuming
on friendship. But I may be
just a dotty old Grandmother
but I feel my Grandsons very soon
will be looking too, for the wise
men of today in Canada. Kindly
keep an eye on that wild but lovable
Mama & Papa. The Irishman - they
too are looking for & needing - a
better Society - doesn't quite describe
what John Barrett & Menil need
Good friends mean so much
I you & they are that I know
Believe me faithfully & sincerely
