

Money was loaned to the pool by the government.

Aaron Sapiro's express advice was that the pool should be kept out of politics. The government did all in its power to assist the enterprise, within the limits set by Mr. Sapiro.

To review the other policies of the government and its predecessors would be to write the history of Saskatchewan, and space is lacking for that. It is accurate to say that the welfare and progress of the province has always been the government's

chief concern. Its policies have been progressive, although it has never yielded to the demands of minorities for freakish legislation.

The government's record is its title to the continued confidence of Saskatchewan voters. No Provincial Cabinet in Canada can appeal to its public with so clean a sheet and so meritorious a history as the Cabinet headed by the Hon. Charles Dunning. The present government of this province is an asset that should not be lightly thrown away.

VOTE the LIBERAL "Ticket"

SASKATOON NEEDS THEM BOTH

HON. A. P. McNAB

G. H. YULE

The people of Saskatoon can do their part toward assuring a continuance of safe, sane government under Premier Dunning by voting the straight ticket—McNab and Yule—on June 2.

Harris Turner, M.L.A.

Senior Member for Saskatoon City in the Saskatchewan Legislature

Every elector in the City of Saskatoon has two votes. Harris Turner has, during the past four years, consistently taken the stand that the business of Saskatchewan can be best conducted without dragging party political considerations into every detail.

Harris Turner has not avoided criticism by refusing to let his voice be heard. He has been outspoken and frank in his attitude on all public questions.

Vote for Turner and against the "You know me Al" system of distributing Government jobs.
