

DR. WILSON'S FAMILY ANTI-BILIOUS AND PRESERVING PILLS

have been in use by the public in all parts of Canada for several years. During this time, the proprietors of this excellent specific have received thousands of testimonials from a grateful people.

All speak highly of their wonderful properties, which not only remove the local or present symptoms of disease, but heal as well. Those who are not sick, but, blessed with robust health, walk confidently, fearing no evil, cannot afford to despise this magnificent medicine.

A myriad deadly dangers lurk unseen around the healthiest. Fate, with silent tread, in the busy city street, the mart of commerce, the tabernacle of worship, or the private dwelling house; in town and country alike, stands ever ready to waylay those unprepared for her assaults.

Foolishly unprepared, guilty of their own sickness, and it may be death, are such, who, offered these *Preserving Pills*, refuse their assistance, passing from health to sickness, sickness to chronic debility and final dissolution.

The blood is the life, and to continue healthy, the many accumulations that ultimately produce disease, must not be allowed to accumulate. Nature is strong, and will do much of herself, but there are times in the lives of every man, woman, child, yes, in those of every creature that draws the breath of life, when nature needs assistance.

Not by poisonous drugs can nature be assisted or strengthened, but by helpful tonics and strength producing medicines, such as it has been Dr. Wilson's aim to present to the public in the form of his *Family Anti-Bilious and Preserving Pills*.

A beautiful red-tipped girl or laughing boy, bounding joyously along, kept in health; or restored thereto, after suffering all the vicissitudes of ill-health; by the mild, healing, and preservative effects of *Dr. Wilson's Family Anti-Bilious Pills* is a most beautiful sight.

But the daughter of ill-health, who neglects the boon offered her, and refuses to take some such specific as *Dr. Wilson's Family Anti-Bilious and Preserving Pills*, will, on the other hand, fall, first into a state of half sickness, half health, owing to her blood becoming little by little contaminated.

Pimples or blotches next begin to show themselves on the face, the liver is inactive, and a sense of utter weariness is often experienced, the blood coursing languidly through the veins. Remedies other than the right, are taken, which relieve, but do not cure; the symptoms finally returning in an exaggerated form.

Indigestion and its attendant ills, drive the weakened sufferer to the verge of despair, she flies from one remedy to another, until perhaps, in some opportune moment she hears of *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

A trial is made of them, and the result is almost miraculous. The feeble appetite is improved, the blood begins once more to course with its wonted energy through the veins, the whites of the eyes lose their unhealthy yellow look, the foul smelling breath becomes pure scented, the nerves regain and preserve their proper tension, and a healthful being rejoicing in regained strength, is the final result.

These Pills act on the liver, stimulate the secretion of the bile, soothe irritation, allow the bile to mingle freely with the food and thus work off effete matter.

These Pills are sudorific, they stimulate the pores of the skin to act, to pour out the perspiration, ridding by this means the blood of its superabundant watery material.

These Pills act on the kidneys, and are safe in their curative properties. They cause the watery matter to flow freely, thus preventing Diabetes, Inflammation of the Kidneys, Dropsy, and other terrible diseases from taking hold on the system.

These Pills are expectorant, unload the humors and keep the lungs in a healthy, normal condition, preventing the approach of that most invidious foe of the human race, Consumption.

These Pills are preservative in their properties. They do not purge and weaken, thus creating disorders, but infuse new life, as well as retain the original vitality in the system.

These Pills are not costly, although many have declared them to be "worth their weight in gold." They are, in fact, prepared and placed on the market with the especial view that they may be within the reach of all.

These Pills give immediate relief to those who use them. Is any one suffering? Does anybody seek relief for a friend? Let him forever put away the idea that suffering is a necessary evil, let him seek, and obtain immediate relief by purchasing *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

There is no disease they will not cure, or, at least, very much ameliorate, provided only that the lungs are not too far gone in a state of decay, or the body too badly affected by the disastrous results of using mineral or other deadly drugs and poisonous compounds.

Old men, who, past their prime, need a stimulant to ward off the growing lethargy that naturally comes over them in the later years of life, find *Dr. Wilson's Family Anti-Bilious and Preserving Pills* the one thing needed.

Aged women, grandmothers of threescore years and ten, aye, even those of fourscore years, have no words of praise too good for *Dr. Wilson*, discoverer and perfecter of these *Family Anti-Bilious and Preserving Pills*.

Men, in their prime, declare that there is no equal to be found to this famous medicine, which helps to keep them up to the mark, and renews their youth; such cannot help but speak well of *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Women in the beauty of matronhood know from careful test and wide-spread experience, that no other medicine is of such efficacy, both as respects its effect upon themselves and their darling little ones. They therefore always keep *Dr. Wilson's Family Anti-Bilious and Preserving Pills* in their houses.

Young men, full of vigor, know that their continuance in health and strength is mainly due to their careful watching of such robust constitutions; because however robust and strong a young man's constitution may be, it must of necessity be sometimes relieved of its surcharged accumulations by a specific of the value of *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Graceful girls, growing imperceptibly into queenly women, find them of great benefit. Sensible of their innate weaknesses, when the elastic vigor of youth periodically fails, they fly to *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.

Youths and boys, whose healthy habit oftentimes becomes impaired; who find themselves heavy and drowsy, full of lassitude and dreary feelings without just cause, know that they can have no safer, readier, or surer remedy than *Dr. Wilson's Family Anti-Bilious and Preserving Pills*.
