

"A stitch  
in time  
saves nine"

Painting at regular intervals saves money. It protects the lumber and greatly increases its length of service. A coat of good paint applied when needed will double the life of your house so that at the end of 25 years it will be practically as good as new. If you neglect to paint, decay is bound to set in and your house will soon deteriorate 50 per cent.; renewal costs will then more than double the amount you would have expended had you painted regularly. If they need it, paint your house and barns this year. Ask the local S-W dealer for SWP—a good paint, that will last.

*The Little Paint Man.*

## SHERWIN-WILLIAMS PAINTS & VARNISHES

Sherwin-Williams Paint, Prepared (SWP) is made from pure white lead, pure zinc, pure linseed oil, and the necessary coloring pigments and driers.

Sherwin-Williams Varnishes are made from the best gums, pure linseed oil, pure turpentine, and are thoroughly filtered and aged. They spread and wear well.
