THE PITMAN ON THE

# Massey-Harris Mower

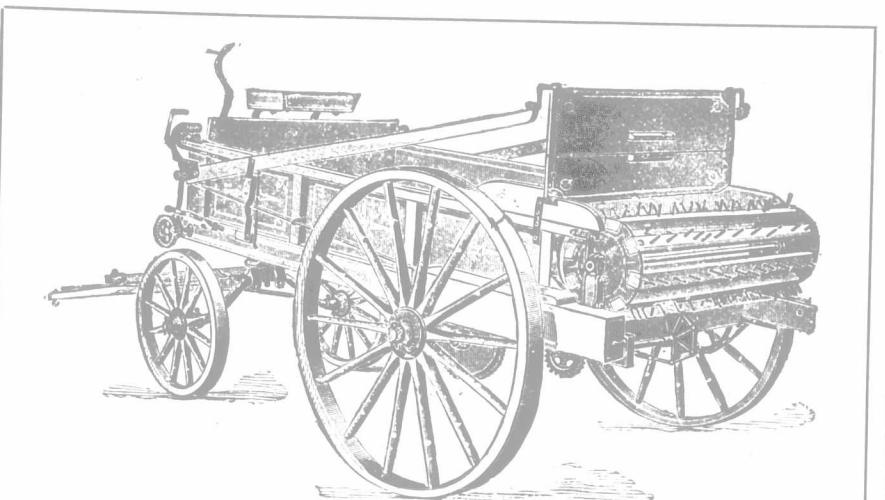

IS EQUIPPED WITH ROOMY OIL CHAMBERS AT EITHER END.

The oil is drawn up by suction through the oil hole by the natural action of the Pitman.

These patented features, to be found on Massey-Harris Mowers only, add greatly to the life of the bearings.

# GUARD YOUR INTERESTS

The manufacturers of the McCormick guard the interests of agriculturists by building a machine that works successfully in the field, and the farmer should guard his interests by purchasing the McCormick — a machine that has a record of seventy-two years of continuous success in the harvest fields of the world.

Write for a "Model Machine," which tells how to guard your interests in buying harvesting machines.
