NOTES FROM GREENWOOD.

NOTES FROM GREENWOOD. Mr. Arihur Johnston, of Greenwood, writes to say that Shorthorns, though not as brisk in demand as they have been, are holding their own in public confidence and esteem quite as well as any other breed of cattle, or anything healthy and well, as well as they have ever and the abominable flies, the latter of which seem worse in their operations, if not in num-bers, than they have ever before been. We have a few of our bull calves taken into the stables, and we intend to take the reanding though scarcely as early as on some former occasions. We will be in good shape to supply our customers about October to January. We wave already sold three of the oldest one-we have three white ones, for which we ex-pect keen competition. We intend to use one we have three white ones, for which we ex-ber them on our own red cows, in order to make suc. H. Bollert, of the Maple Grove Stock Farm.

of them on our own red cows, in order to make sure of roans. I. Bollert, of the Maple Grove Stock Farm, Cased, Ont., writes under date of Aug. Sth :-"On account of health and other personal en-gagements I am unable to exhibit any of my Hottatins this fall, for which I foel sorry, as my herd is in better shape than ever before; that is in better shape than ever before; that with your permission, quote a few figures of what they are doing upon what they are pick-ing in the pastures without anything else, and you will admit that this has been an unfavor-able season for milk production -- Jennie E. Stota, S. 202 ibs. (her former record, under more favorable feeding, was 2.216 ibs. in St days); Jennie E. 4th, her 2-rear old daughter, gave, in 3 months, 3.974 ibs., 5 oz., being an and produces another calf within the year. I would ask, where is there another herd in his country that an make an equal showing under similar conditions - And I would further ask those who are interested in dairying, to compare these figures with those of the aver-age Ontario dairy cow, and then yidge for her selves which is the most profitable cort to ker are developing wonderfully fine dairy points, and stamp him as a sire of unusual more it is could hardly be otherwise, if the law that like produces like, be true, as every animal in his long pedigree has been a first DIR.-JAS. honest dealing. GREENHOUSE STOCK FARM, ABERFOYLE, ONT. It was but lately we had the pleasure of in-specting Mr. W. B. Cockburn's 1894 importa-tion of Oxford and Suffolk aheep. We found him busy preparing several for the coming-shows. After a look over them we could not but remark that these will make the Oxford and Suffold classes very interesting at the forthcoming shows, and will, no doubt, give their owner a very high reputation for the quality of sheep imported and bred at Green-house. Mr. Cockburn eff for England on the 18th of April, and returned on the 10th of June with 75 Oxford and Suffolk sheep—a very select lot drawn from the best known flocks in Eng-hand : Messrs. A. Brassey, Chipping Norton G. Adams, Faringdon, and J. Treadwell, Ayles-bury, and the Suffolks from Joseph Smith's flock at Woodbridge, England. A number of these are being fitted, while the remainder of these are used hit importation, he purchased ten from Mr. H. Arkell, all of which are im-ported from Messrs. Brassy, Adams, Barron Rothchild or Fox, and were all winners last 'ear, both in Ontario and also at the World's Fair. We cannot help noticeing Doncaster Royal, a 3-shear ram, a really wonderful sheep, bred by Mr. Brassey, of Chipping Norton, and was champion ram at Detroit Fair two years ago; also stood at the head of the pon that won first at the same fair for the best pon of ten mutton sheep. Another grand sheep is a shearling. Lord Gloucester, also bred by Mr. Brassey, and a winner at the World's Fair two years ago; also stood at the head of the pon that won first at the same fair for the best pon of ten mutton sheep. Another grand sheep is a shearling. Lord Gloucester, also bred by Mr. Brassey, and a winner at the World's Fair two years ago; at the same fair for the best pon of the ser-ings; among them is the ewe lamb that won het at Chicago last year. In another pen were for ewe and four ram lambs, just landed a few days ago, after having been shown at five different shows i four ewe and four ram lambs, just landed a few days ago, after having been shown at five different shows in England, with the following result:--At the Oxfordshire Show, both rams and ewes, lst; at Wallingford, lst; Bath and West, at Pulford, lst; Royal Counties Show, at Canterbury, lst; at the Royal Counties Show, at Canterbury, lst; at the Royal at Cambridge, they were again 1st; also ist at Norfolk County Show, which is a pleasing record. We noted as pen of Suffolk shearling ews, also winners at the Royal. They need only be seen to be appreciated. These, with a number of Suffolk lambs, complete the lot in training for the ex-hibition war path. After dinner Mr. C. kindly drove us to the Royal City of Guelph, a dis-tance of 7 miles.
