Provide For The Unexpected.

"THE unexpected always happens," as is proven by the many thousands in the prime of life who have recently died from Spanish Influenza,—the unknown factor. A year ago Spanish Influenza was unknown in this country; to-day hundreds of thousands of families are bereaved of beloved members who looked forward to many years of useful service, because of this unexpected epidemic.

Men die unexpectedly, with their plans unfulfilled, their tasks incompleting. It is necessary to provide for life's unknown factors, which thwart our purposes and frustrate our plans. If you fortunately escaped the "Flu," have you provided for the next unknown factor that will cross your path, sooner or later? Clearly, the only sure way to protect your family and business against premature death is by means of life insurance. Better decide to-day upon taking that postponed Policy; then come what may there will not be the bleak, despairing outlook in your home that Influenza and Pneumonia have brought to so many good homes this winter.

See your nearest Agent of the Company, or write to either of the undersigned at Head Office for full particulars, stating your age at nearest birthday.

CHARLES H. FULLER,
Secretary and Actuary
