

CANADIAN GROCER

THE DAYTON COMPUTING SCALE
IS MADE IN CANADA.

Automatically flashes your advertisement by electric light when scale is used.

The Dayton advertises the merchant and his wares—and NOT the scale.

A Tried and Trusted Partner

It's a beauty. In mere looks alone, it is the handsomest scale ever built. In utility—it has the endurance of the pyramids and the cold-blooded equity of British law. Its price calculations and its hairsbreadth weighing accuracy guarantee you all your profits—and that's all you are in business for.

Let us send you our latest catalogue just off the press.
