Printed in Two Colors Will be sold at little in advance of Unprinted Parchment. Get a ream of it at once.

H. G. HARRIS.

Fertilizer

It is hard to make most of the farmers realize that there is a great possibility of them not being able to get what commercial fertilizer they will require this spring. But never the less it is an absolute fact and the wise farmer will take home his fertilizer soon. As if you wait till spring you may not be able to get any. As even now it is very hard to go what you want as transportation is so bad we have only a few more cars of Basic Slag to sell.

C. O. COOK & SON, Waterville

Farmer's LOOK HERE!

It is a positive fact that there will be a great advance in having machinery before July 1st. A FISHING PROCLAMATION.

An old Highland fishing proclamation was read by the Rev. Percy Coats at a meeting of the Lunenburg Fishery Board at Lancaster. The proclamation read as follows:—"This shall be a proclamation of Her Grace the Duke of Argyll: If any man be found fishing in the loch, on the loch, around the loch, through the loch afoor the Loch, or hinder the loch, his neck shall be broken in twelve places, and if he shall hereafter offend he shall be persecuted w' far war' persecution, for he shall be burned and hanged. By all the laws of the European of Scotland and Her Grace the Duke of Argyll."

THE CALL

(By Dr. Frank Crane).

You have as much sense as the next man. Use it. Rely on it. And it will grow.

You have two good hands, two good eyes, two good ears your liver and lights are in good working order, you have just as good a physical machine as Vincent Astor. Use them.

You have as much faith as St. Francis ever had, if you'd use it.

You have as much hope and cheer as much as Mark Tapley. Use it.

You have as much strenuousness as Roosevelt. Use it.

You have as good an education as Rockefeller had.

You can read the same newspapers, magazines and books Mr. Howell reads.

You can see the same pictures in the galleries that Charles Dana Gibson can see.

You have as many funny experiences as George Ade.

You have a pen and as much paper as Rudyard Kipling.

Had ship's anchor fall on my knee and leg, and knee swelled up and for six days I could not move it or get help. I then started to use MINARD'S LINIMENT and two bottles cured me.

PROSPER FERGUSON

5,000,000 YANKEE SOLDIERS OR MORE IF WANTED.

London, May 16—America preparations on the western front amazing in their immensity; and plans are being made to care for five million troops. Harry E. V. Brittain, secretary of the English Branch of the Pilgrims Club told the Royal Colonial Institute last night. If the Germans do not give in, he added, the number of American troops will be increased to any amount necessary.

ENTIRE HUN BALTIC FLEET AT CIEL.

London, 16—The entire German Baltic fleet, except a few light cruisers, was recalled last week to Kiel, where important naval forces now are being concentrated, says a despatch from Hamburg, received in Geneva and transmitted by the department of the Daily Express.

SIR DOTGLAS HAIG'S HEIR

(Westminster Gazette) The birth of a son and heir to Sir Douglas Haig fulfils for another generation the old prophecy concerning the duration of the famous family from which the field marshal derives: "Tide, tide, What'er betide, They'll aye be Hoigs in Bemersyde." Sang Thomas, the Rhymers, and, sure enough, the lands and barony have been in the unbroken lineal possession of the family since the days of Malcolm IV.

DEATH OF MRS W. G. CLARK.

The death occurred on May 9th, at Bear River, of Annie J., wife of Warden W. G. Clark. She was a daughter of the late Alpheus Marshall, of Bear River. Besides the husband three daughters survive. The daughters are; Mrs. J. H. Cunningham, Sydney Mines; Mrs. A. G. McIntyre, New York and Miss Nan at home.

The S. S. Margaretville has been purchased from J. A. Balmont by the Maritime Fish Corp. Montreal. After repairs the steamer will be taken to Canso.

Keep Minard's Liniment in the house.

IN PRIVATE HOMES.

While the regulations governing public eating places and the orders of the Canada Food Board prohibiting or restricting the manufacture of certain varieties of biscuits, cakes, etc., wheat, sugar and shortening, are not compulsory in the case of private households, they are being observed voluntarily in thousands of homes. These regulations have not been issued for amusement, but because there is real necessity for them, in order that we may support our soldiers and Allies to the fullest possible extent. Consequently, their observance is a test of patriotism and good citizenship.

A moral obligation and responsibility rests upon every citizen to follow these regulations just as closely as circumstances possibly will admit, and to use his or her influence to secure more general observance in private homes. If every Canadian realizes a personal duty to be a food controller, there will be an eagerness to adopt the suggestions and advise of the Food Board and not to shirk that food service which is necessary in order to feed those who are bearing the brunt of the fighting and suffering.

ECONOMY WITH SUGAR.

Regulations have been put into force which are expected to effect an annual saving in Canada's sugar consumption of 25 per cent, or about 100,000 tons. These restrictions are absolutely necessary if we are to have the sugar with which to conserve for fruit crop during the summer period.

There is sugar in Cuba but the ships to carry it are required elsewhere. We have been using far more sugar than we need.

IN HOLLAND.

The little Dutch nation of 7,000,000 is in a perilous position. Germany is demanding privileges of transportation through her territory which are contrary to her neutral position. The fate of Belgium is before her and it is even hinted to her broadly that it will be well for her to remember it. She has yielded to some of the imperatives demands made upon her and she may expect further exactions. It is not quite clear why Germany should want to force Holland into the war either for or against her. If with her, Germany would then have to defend all her coast line against the Entente powers and the latter would be fully justified in invading it. The advantages to Germany would be of a doubtful character. If against Germany, Holland would invite the landing of the Allies and afford them an advantage in many ways. In either case, however, Holland would be greatly injured, if not practically devastated. The consort of Queen Wilhelmina is a German prince and many officers in the Dutch army are in favor of Germany. It is to be hoped that the brave little nation will be able to keep out of the war. If no, it is to be remembered that she can raise an army of 700,000 men, that she can flood much of her territory, and that whilst she might be devastated she is not to be despaired.

BRAZIL PREPARING FOR REAL ACTIVE ALLIANCE, SAYS SIR JOHN AIRD.

An Atlantic Port, May 16—Brazil is planning to take an active part in the war against Germany within a short time, possibly by the end of the summer, declared Sir John Aird, of

the Canadian Bank of Commerce, of Toronto, who arrived here today with Lady Aird on a steamer from South America. Sir John has been in South America for several months. He went to Rio de Janeiro and crossed by rail to Montevideo. He declared there is a great improvement in conditions in South America. Finances are 100 per cent better than they were a year ago, he declared.

"The people of Brazil are strongly pro-Ally," he said. "They realize there are thousands of young men in the country who could fight. They are asking, in an increased clamor: 'Why, if we have declared war on Germany, don't we go over and do something?'" Throughout Brazil the opinion prevails that before the summer is over the country will certainly take an active part in the war.

"At present, ships of the Brazilian navy, including submarines, are guarding a great deal of the South American coast."

NO LOAFERS ALLOWED.

Every male person between the ages of sixteen and sixty residing in Canada must hereafter be engaged in some useful occupation. Any person violating the new law shall be liable to a fine not exceeding \$100 or six months in the county jail, with hard labor, or on the county farm. The purpose of the law is to prevent persons capable of useful labor from remaining in idleness, at a time when the country most urgently requires the services of all the human energy available. There are a few who could be rounded up in this county who are living in idleness and are capable of work. No one should be allowed to waste time when our Allies are threatened with starvation for what we could produce.

Minard's Liniment for sale everywhere.

Western Canada's Live Stock Trade Increasing

(1) Calgary Stock Yards. (2) First Prize Angus Bull.

The effects of the increased production campaign in Western Canada are already noticeable. All over the country farmers are enlarging and improving their herds, while many others, desiring to emulate their success, are entering mixed farming in earnest. Besides feeling it a patriotic duty to produce as much food as possible, more and more farmers are finding that mixed farming in Western Canada pays. Of course, this is not a new realization. The most successful farmers of the West are those who have divided their attention between grain grow-

ing and live stock raising, but the possibilities of quick returns with the former have blinded many to the advantages of the latter. Notwithstanding the high prices now being obtained for wheat, oats and other grains, prices which a few years ago were undreamed of—mixed farming is becoming increasingly popular among the farmers of Western Canada. Nothing is too good for them. They have money to invest and are investing it wisely with an eye to the future. The country is continually being secured for well bred animals. Just now word has been received that more than a hundred pure bred Aberdeen-Angus females and bulls from the best herds of Iowa and Illinois have been loaded for shipment to Western Canada. These are choice specimens from the herds that have been producing the grand champion carloads and individuals at the International Live Stock Show; they will become seed stock for the farms and ranches of the Prairie Provinces. The movement of pure bred stock to Western Canada is going on continually—from day to day, from week to week. To-day it is Aberdeen-Angus and Shorthorns, yesterday it was Jerseys and Herefords, last week all these and others breeds as well. One day dairy cattle predominate, another day beef cattle, and another dual purpose animals. They are brought from Eastern Canada, from all parts of the States, from England and Scotland, and even from other parts of Europe. Already possessing some of the largest and most valuable herds of particular breeds of cattle, the Western Provinces of Canada bid fair to become one of the greatest cattle countries in the world. They have every advantage for the raising of cattle economically—healthy climate, low priced lands on which grow nourishing foods, an abundance of clear water, convenient markets, etc. And, what is more important, these advantages are beginning to be fully recognized by the settlers, who are making use of them to their own and the country's profit.
