## A UNION VIEW

The following report from the  
Athens W.C.T.U. appears in the  
White Ribbon Tidings for October:—  
Local Option has been in our vil-  
lage for over two years and the law is  
well observed. We do not think that  
during that time any liquor has been  
sold in the village, though here and  
elsewhere, a limited amount is brought  
in to meet the demands of appetites  
formed during the period of the open  
bar.

While the local Union regards with  
satisfaction the working of the local  
option law, there has been no relaxa-  
tion of effort towards the attainment  
of the ideal, "Abstinence for the in-  
dividual and prohibition for the state."  
We have been trying to keep our  
principles before the public and have  
found no way better than through the  
medium of medal contests. Our last  
event of this kind was highly success-  
ful. The girls who took part in the  
contest were all students of the High  
School, and their performance was very  
creditable. The recitations were  
interspersed with songs, instrumental  
solos and duets. This part of the pro-  
gramme was also principally given by  
the High School students. Pupils of  
the Public School in many cases ac-  
companied by their parents, were pre-  
sent in large numbers, and as the  
majority of our High School  
students come from the country and  
surrounding villages, the good influ-  
ence exercised is wide-spread. Since  
the last contest the services of those  
reciting have been in demand at var-  
ious social gatherings.

It is the purpose of the Union to  
hold a contest this fall for the pupils  
of the Public School and the success of  
the event is assured.

## ALGONQUIN NATIONAL PARK

The high altitude of the Algonquin  
National Park of Ontario is one of the  
attractions and has much to do with  
the benefit derived from a visit to it.  
The elevation above sea level at Algon-  
quin Park Station, the objective  
point on the railway, is 1700 ft.  
There is tonic quality to the air which  
must be experienced to be understood.  
With prevailing winds from the north  
and the west, the air purified by its  
journey over millions of square  
miles of forest land, much of which is  
pine and balsam "The Highland Inn"  
offers exceptionally good accommoda-  
tion to visitors and any season of the  
year is a good time to visit  
this territory. The Inn is open all the  
year round. Handsome publication  
and all information free on application  
to J. Quinlan, District Passenger  
Agent, Montreal.

## BURNED TO DEATH

A sad burning fatality occurred at  
Smith Falls Friday when the little four  
year old girl, Teresa Merkley was  
burned to death. Along with her younger  
brother, the little girl was upstairs,  
when it is supposed they were playing  
with matches when the child's dress  
caught fire. Her father and mother  
were down stairs at the time and upon  
hearing screams the father ran upstairs  
only to meet the little girl at the head  
of the stair, screaming and one mass of  
flames. He carried her downstairs and  
medical aid was immediately summoned  
but the little one lived only a few  
hours. She was a daughter of Mr. and  
Mrs. Harry Merkley, who have only  
been residents of the Falls for a short  
time. The body was taken to Win-  
chester, where the family formerly lived,  
for burial.

RHEUMATISM  
CURED BY  
Fig Pills

An absolute guarantee goes with every  
box of FIG PILLS. They will  
cure RHEUMATISM, KIDNEY dis-  
order, BLADDER trouble, CONSTI-  
PATION, SLUGGISH LIVER and  
all STOMACH and BOWEL disor-  
ders. At all dealers, 25c cents per  
box, or The Fig Pill Co., St. Thomas,  
Ont.

THE DAIRY TEST AT THE  
EASTERN SHOW

The prize list for dairy cattle at the  
Eastern Ontario Live Stock and  
Poultry Show, Ottawa, January 16th  
to 19th, 1912, provides large prizes for  
Ayrshires, Holsteins, Jerseys, Short-  
horns, Guernseys and Grades. There  
are three sections for each class—cow,  
48 months and over; cow, 36 months  
and under 48 months; heifer, under  
36 months. The total amount of prize  
money for the dairy cattle is \$1400.00.  
There will be a production test extend-  
ing over 72 hours beginning at 9 p.m.  
on Friday, January 12th. Award  
will be made according to the follow-  
ing scale:

25 points for pound of fat.  
3 points for each pound of solids  
not fat.  
1 point for each 10 days in milk  
after the first 30 days; limit 10 points.  
At one of the recent shows a pure-  
bred cow competed in the Test. The  
owner valued her \$150.00 before the  
test but after winning first prize and  
\$50.00 in prize money he sold the cow  
for \$500. This illustrates the value

to a breeder of competing in this dairy  
test. Full particulars regarding the  
rules, classification and prizes will be  
found in the prize list which may be  
secured from D. T. Elderkin, Secretary  
Ottawa.

Miss Sadie Davenport of this place  
who since her graduation from the  
Brookville Business College has been  
stenographer for the Gillies Lumber  
people at their Morristown N.Y.  
branch was last week promoted to the  
head office of the firm at Braeside,  
Ont.

Dr. J. F. Dunn, for the past four  
years a successful practitioner at Elgin,  
has purchased the practice of Dr.  
Lynch in Almonte and will remove to  
that town next week. Since taking up  
residence in Elgin Dr. Dunn won hosts  
of friends in the village and surround-  
ing locality and his removal is greatly  
regretted.

Rev. S. J. Robins has resigned the  
pastorate of Calvary Baptist Church,  
Brookville. Calvary Church was organ-  
ized but a few months ago, its mem-  
bers being seceders from the First Baptist  
Church, and Mr. Robins who was pastor  
of the latter became the first pastor of  
Calvary Church. Mr. Robins took a  
very active part in the recent elections  
and was particularly bitter in his  
attacks upon the Laurier Government.

## Charged with Bigamy

The following despatch has reference  
to a former resident of Leeds County:  
Vancouver, B. C., Oct. 10.—Ex-  
Ald W. J. Cavanagh, who lived for  
several years in Emerson, Man., was  
committed for trial on a charge of  
bigamy. The first Mrs. Cavanagh,  
who still lives in Emerson, says they  
were married in Ontario years ago.  
The second wife Miss Lilly N. Camp-  
bell, who says she married Cavanagh  
in San Diego, Cal. The second wife is  
now living with him and their child.  
Relatives of the second wife are press-  
ing the charges.

## A Corn Festival

They do some things different in  
Lisbon, North Dakota, according to  
the Ransom County Gazette, received  
this week from our former townsman,  
C. D. Clow. Their fall fair is called a  
"Corn Festival" and the exhibits are  
confined to products of the soil. This  
would probably not be regarded as  
very attractive if held in Leeds  
County, but at Lisbon a "multitude"  
of people assembled, enjoyed the  
musical programme, and admired the  
exhibits. The Gazette says: People  
from Iowa, Illinois and Indiana had  
never seen the like. Corn was there  
in abundance and quality unexcelled.  
Vegetables outdid anything ever be-  
fore seen in this or any other county.

## Methodists Favor Union

The completed tabulation of the vote  
in the Canadian Methodist Annual  
Conference, composed of equal num-  
bers of ministers and laymen, on the  
basis of union with the Presbyterian  
and Congregational Churches, shows  
that 1,579 ministers and laymen voted  
in favor of union and 270 against it.  
The figures are:

Conference	For	Against
Toronto	241	46
London	190	44
Hamilton	149	27
Bay of Quinte	167	15
Montreal	140	54
New Brunswick	111	12
Prince Edward Island	84	14
Nova Scotia	84	21
Newfoundland	40	21
Manitoba	129	16
Saskatchewan	120	9
Alberta	124	12
British Columbia	84	12
Totals	1,579	270

## TWO PRIZE WINNERS

In connection with the Grand  
Trunk Exhibit at the Festival of Em-  
pire, Crystal Palace, London, England  
further advices, dated September 12th,  
have been received from London re-  
garding the awards that were given to  
the Grand Trunk, and the Grand  
Trunk Pacific, and it is gratifying to  
know that these Companies have re-  
ceived four "Grand Prix" for their  
splendid display instead of the two  
that were announced in the cable re-  
ceived on September 1st.

These awards have been made under  
the following:—"Arts and Crafts";  
Engineering, Lighting, and Trans-  
portation"; and "Building Trades";  
also "Advertising." This is considered  
by the Companies named as a great  
honour, as other railways exhibiting at  
the Exhibition have only received one  
award.

The official report from the Grand  
Trunk representative at this Exhibi-  
tion, for week ending September 9th,  
shows that the number of persons  
visiting the Grand Trunk Pavilion was  
21,186, bringing the attendance up to  
279,942 people.

**100 GIRLS WANTED.**  
\$5.00 per week  
to commence with  
for girls eighteen  
and over. Apply  
at once.  
**D. S. PERRIN & Co. Limited,**  
London, Ont.

## A GREAT EXPLORER.

**Dr. James M. Bell Did Valuable Work  
For the Dominion.**

Dr. James Macintosh Bell, F.R.G.S.,  
who has recently been in Canada, and  
who while here took over the old  
homestead, in which he was born, is a  
native of Almonte, Ont., a son of Mr.  
Andrew Bell, C.E., of that place, and  
a nephew of Dr. Robert Bell, former-  
ly director of the Geological Survey.  
Dr. Macintosh Bell, himself, was, as a  
matter of fact, for some years a very  
prominent member of the staff of the  
Geological Survey of Canada. In 1898  
he accompanied his uncle, Dr. Robt.  
Bell, to Grand Lake Victoria on the  
Upper Ottawa, and thence to Nim-  
nikow Lake on the Rupert River. In  
1898, he assisted his uncle in making  
his historical geological reconnais-  
sance of the Michipicoten district, and  
the following year accompanied him  
to the Mackenzie Valley, where he  
performed some invaluable explora-  
tory work. He spent the winter of  
1900-1901 at Fort Resolution, and the  
following summer, accompanied by  
Mr. Charles Camsell, he traveled by  
an unknown route to Great Bear Lake  
and made a geological exploration of  
its northern shores, returning to civi-  
lization via a previously untraveled  
portage route to the north arm of  
Great Slave Lake, the Athabasca Riv-  
er and Edmonton. His party arrived  
at the latter place so late in the win-  
ter that considerable fears were en-  
tertained for their safety.

On this trip Dr. Bell suffered great  
hardships, he and his party being sev-  
eral times threatened with starvation.  
The results, however, were very  
valuable, and Dr. Bell's report of his  
expedition is one of the most valu-  
able publications of the Dominion  
Geological Survey. The pluck and  
skill he showed during this trip at-  
tracted world-wide attention, and al-  
most as soon as he had completed  
his report he was appointed geologist  
to the Lake Superior Corporation  
with headquarters at Sault Ste. Marie.  
In 1903 he was engaged by the Gov-  
ernment of Ontario to direct the pro-  
vincial survey of the region south  
of James Bay, and the following year  
he was appointed to New Zealand by  
the office of the appointment of di-  
rector of the Geological Survey of New  
Zealand. He resigned the position a  
few months ago and has removed to  
London to take up practice as a con-  
sulting mining expert, but hopes to  
spend some time every year in Can-  
ada, and eventually to retire from  
practice and take up his residence at  
Almonte. Dr. Bell's work in New Zea-  
land was attended with great suc-  
cess, the geological survey being plac-  
ed upon an entirely new footing, and  
the mining interest as a result receiv-  
ing considerable impetus.—Family  
Herald.

## A Camp Joke.

A good story is told by the officers  
who attend Niagara Camp regarding  
a young spring of an officer, and  
though it has probably not lost its  
color as time has gone on, the most  
recent version may be given.  
A young man whose father was  
rather prominent in the military  
about two decades ago became an  
officer in a rural regiment. His limit-  
ed experience did not keep him from  
feeling his importance, though he  
was not quite sure of his duties. He  
had only been at camp for a few days  
when a very serious looking officer  
went up to him and asked him to go  
to headquarters for some red paint.  
"We will need it to paint the last  
post," he said.  
Shortly afterwards, the young man  
returned and said that the paint had  
all been used up.  
"Then go into town and ask the man  
at the hardware store," said the offi-  
cer. "Tell him what we want it for  
and he will know what we always  
get."

Off started the junior officer through  
the town, and Niagara-on-the-Lake can  
be hot when it tries. He returned  
about an hour later, very warm and  
very angry. He had been offered  
some other paint to cover up the  
"green on a few of the officers," and  
he "tumbled" to the fact that he was  
being made the subject of a practi-  
cal joke.

## Fooling Him.

The season of fall fairs has opened,  
and once more we hear stories of un-  
happy householders in the big cities  
sleeping in the bath-tub, i. e. the dog's  
kennel, or on the dining-room table.  
Certainly some houses in the larger  
cities do become badly crowded with  
country cousins, aunts, uncles, other  
relatives and friends. The city peo-  
ple would have a hard time proving  
that the country people, whom they  
have visited during the summer holi-  
days, haven't the right to expect to be  
given lodgings while the fair is on.  
A certain Toronto man, whose house  
could scarcely accommodate all the  
country people whom he was to en-  
ertain during the time of the Ex-  
hibition, put off, in a funny way, a  
country man with whom he had be-  
come but slightly acquainted.  
"I won't give you my street num-  
ber," said W., the city man, "be-  
cause you would probably forget it,  
but I live on the east side of —  
street, and if you walk up the street  
you'll easily find my house because  
my initials—T. W. W.—are on a  
metal plate in the sidewalk."  
If the country man tried to find the  
other, he discovered that such a metal  
plate was in front of every house, and  
probably somebody explained to him  
that the metal plate marked the spot  
where water was turned on and off,  
and that T. W. W. stood for Toronto  
Water Works.

## A Great Man.

A young man who used to live in  
an Ontario town, was given consid-  
erable joshing by his friends because  
of the way a poem which he had  
written was handled by a religious  
weekly in Toronto to which he had  
sent it.  
Save that, in the following, the am-  
bitious young author's name is  
changed, the heading put on the  
poem by the editor was as follows:  
**THE LAST WAR**  
By John Smith.  
(He maketh wars to cease in the ends  
of the earth.)

## TOMB IN A TOWER.

**A Remarkable Edifice, the Whim of a  
Wealthy Tea Planter.**

Near the well known seaport of  
Southampton, England, there is a re-  
markable edifice known as Petersen's  
tower. The erection is all the more sin-  
gular because it marks the burying  
place of a certain John Petersen, a  
wealthy tea planter.  
The man appears to have been rather  
an eccentric individual, and in or-  
der to prove to the world his belief in  
concrete as a building material set  
about the construction of this great  
tower. The building took many years  
to complete, but is entirely of con-  
crete and by the time the final layers  
had been placed had reached an alti-  
tude of more than 300 feet. It is about  
forty years since the tower was erect-  
ed, and its present condition is certain-  
ly a justification of the faith of the  
builder.

As has been indicated, Petersen left  
instructions that his body should be  
placed under the tower, and this was  
accordingly carried out. Another de-  
sire that the chamber at the summit  
should contain a light was defeated by  
the firm stand which Trinity House,  
the lighthouse authority, took on the  
matter. Such an illumination would  
have been visible for miles out to sea  
and would naturally have proved very  
misleading to sailors.—Scientific Amer-  
ican.

## PULLING THE COURT'S LEG.

**A Practice the English Judge Did His  
Best to Discourage.**

The following remarkable judgment  
was delivered some years ago by a  
magistrate in one of the English col-  
onies:  
"Pachus is hereby charged with hav-  
ing on the 11th of January followed  
the court on its rising and while said  
court was in the act of mounting into  
its buggy came from behind and, seiz-  
ing the court's dangling leg, the other  
foot being on the step, forcibly pulled  
back the court, frightened the horse  
and nearly caused an accident. The  
reason alleged for this by accused is  
that he wanted to hear the result of an  
application of his. The practice by pe-  
titioners of pulling the courts by the  
legs is one that should be discouraged.  
Accused only says he is a poor man,  
admitting the truth of the complaint.  
He is sentenced to one month's rig-  
orous imprisonment."

Strange to relate, the Lieutenant gov-  
ernor of the province on reading this  
sentence felt it necessary to intimate  
to the magistrate that neither the sen-  
tence itself nor the peculiar phraseology  
in which it was couched was calcu-  
lated to meet with approval from minds  
running in legal grooves.

## Berns and Its Bears.

Berns is surrounded by the blue  
green river Anre, and seven bridges  
cross into the picturesque suburbs; the  
view of the Alps is one of the finest  
to be had. One may walk through the  
streets of Berns, writes an American  
visitor, and find constant surprises.  
The odd fountains will be observed  
with interest. They were mostly built  
in the sixteenth century. There are a  
number of public institutions worth a  
visit—the historical museum, museum  
of industry and the museums of art  
and nature; several libraries and the  
public gardens, which contain the great  
bear pit so universally known, to say  
nothing of the quaint gates and the  
headquarters of the Postal union.  
Bears have been kept on public exhibi-  
tion in Berns since 1480 in commem-  
oration of the killing of one by the  
Duke of Zähringen on the site of the  
town.

## When the Guitar Arrived.

The advent of the English guitar in  
the eighteenth century caused the dis-  
appearance of bandorees, poliphants and  
similar wire strung instruments, or,  
rather, it supplanted them, for, owing  
to the use of fingers, the English guitar,  
though smaller, could be used for ac-  
companying the voice as well as for  
solo performances. The instrument,  
which had a decorative appearance, is  
frequently depicted in the portraiture  
of the eighteenth century. It was  
made in various sizes, two of the  
smaller "to be managed by young  
ladies from seven to ten years of age,  
the other by ladies of ten and up-  
ward."

**Fish Delusions.**  
There are two popular delusions  
about fish—one that they cannot live  
out of water and the other that they  
can live in any pure water, the food  
supply taking care of itself. As a mat-  
ter of fact, there are fish in Africa  
which, having to exist in absolutely  
dry rivers for a portion of the year,  
have developed lungs, while in many  
an amateur's aquarium fish cannot live  
in the water provided owing to lack  
of food.

**Suspicious.**  
"Very suspicious man, they say."  
"Very. Bought a dictionary last  
week, and now he's counting the words  
to see if it contains as many as the  
publishers claim."

**True Courage.**  
True courage has so little to do with  
anger that there lies always the  
strongest suspicion against it where  
this passion is highest. True courage  
is cool and calm.

**Cheerful.**  
"She's of a very cheerful disposition.  
Isn't she?"  
"Yes, indeed. She even sings while  
washing dishes."—Detroit Free Press

There are few things reason can dis-  
cover with so much certainty and  
ease as its own insufficiency.—Collier.

Sale of Remedies for  
Headache!

There are more ZUTOO tablets for  
headache sold in this country than all  
other remedies combined. Think how  
good these tablets must be to have such  
an immense sale.  
Dealers could not sell them now  
would people buy ZUTOO tablets in  
such large quantities, were they not what  
all users say they are, that is, a perfect  
harmless and reliable cure for headache.  
Do YOU use these tablets which so  
many people have chosen as best? If you  
do not, it is your next move. 25c at dealers.
