Jap Army Ordered to Renew Its Attack On the Fortress.

St. Petersburg Expects the Assault- Japanese Sappers Have Reached the Centre Ditches, and Russians Are Now Only ia Possession of the Parapets of Defence Works On Rihlung and Sungshu Mountains.

Washington, Nov. 26.-The Associated Press learns on excellent authority that the Japanese army has been ordered to renew its attack on Port Arthur at once and to take the main fortifications at any cost. Reaches Centre Ditches.

Tokio, Nov. 26.—It is reported that the Japanese sappers directed against Rihlung Mountain, Sungshu Mountain and East Keekwan Mountain have reached the base of the centre ditches. The defensive works outside the parapets of Rihlung Mountain and Sungshu Mountain have been captured, leaving the Russians in possession of the parapets only. The Japanese guns are shelling the parapets and inflicting heavy damage. The occupation of the forts is expected shortly. If the forts are taken, the capture of Port Arthur seems to be assured within a short

zeiger's Mukden correspondent telegraphs as follows: "According to a report brought by Chinese to Rus-sian headquarters, the corpse of Gen. Kuroki has arrived at Yinkow." All Port Arthur Coal Lost.

Tokio, Nov. 26 .- The usual daily bulletins were received yesterday from the third army headquarters before Port Arthur, and the news indicates that the conflagration caused on Sunday by the naval gun fire from Chungshoo destroyed not only the magazines of the army buildings, but the only coal supply that remained in the fortress. After it was seen that the army buildings were ablaze, shells were constantly dropped upon the scene, so as to make powerless any effort to extinguish the fire. The buildings continued to burn until 2 o'clock Thursday afternoon, and it is practically certain that all the coal stores were destroyed.

Japs Hold Permanent Forts. Telegraphing in a second bulletin from army headquarters, General Nogi's chief of staff says: "All the permanent forts are now in our possession. We hold all the advance works on Rulin Mountain and on the entrenched hills farther south, including old Fort Kuropatkin, Kobu Hill, Petou Mountain, Antsze Mountain, Chungshoo fort, all the galleries and moats of the fort on Kehwan Mountain, the two main forts on Rulin Mountain, Sachitaklyama, and 174 Metre Hill. the outer harbor, owing to mild weather in the last week, has been unusually successful. Two ships carrying 25,000 tins of meat and three junks with provisions have been seen tured. No Russian soldiers remain in Port Arthur proper, except in the westerly entrenchments. Our bombardment yesterday was continuous, and the Russian warships were repeatedly hit by shells. An explosion took place on one of the second-class cruisers. Eleven deserters came in from the Russian line before dawn. They say food, ammunition and water are lacking.

Une grain of the active principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of meat, eggs or other wholesome food, and this claim has been proven by actual experiment which anyone can perform for himself in the following manner: Cut hard-boiled eggs into very small pieces, as it would be if masticated, place the egg and two or three of the tablets in a bottle or jar containing warm water, heated to 98 degrees (the temperature of the body) and keep it at this temperature for three and one-half hours, at the end of which time the egg will be as completely digested as it would have been in the healthy stomach of a hungry boy.

The point of this statement is that what Stuart's Dyspepsia Tablets will do to the egg in the bottle it will do to the egg or meat in the stomach, and nothing else will rest and invigorate the stomach so safely and effectually. Even a little child can take Stuart's Tablets with safety (and benefit if its digestion is weak and the thousands of cures accomplished by their regular daily use are easily explained when it is understood that they are composed of vegetable essences, aseptic pepsin, diastase and Golden Seal, which migles with the food and digest it thoroughly, giving food and digest it thoroughly, giving the overworked stomach a chance to

Sir Edward Grey, M. P., speaking at Hastings, said he dreaded a preference more than protection. After we had taxed our food in the inter-

A MEMORY

When the workmen were about to place the glass in the door of the place the glass in the door of the sheriff's office in Harrison Hall, the late Sheriff Mercer noticed that the word "sheriff" was spelled with two R's. This was too much for that gen-tleman's love of pure English and he at first refused to allow the pane to be put in. Later he consented to the glass going in on condition that it should be turned upside down so that the spelling would not be par-ticularly noticeable. This was done and since then the glass remained as am a memory of that remarkable man Sheriff Mercer, The upside-down miss-spelled sign was the cause of considerable comment, and visitors to Harrison Hall always had to comment

Recently the County Council had the old sign removed from the glass and a new one put on. The latter sign is a cheap looking affair and it now is the cause of considerable caustic comment.
