derklasse craft should be designed, par-ticipated yesterday in a series of tests from which the committee of the East-ern Yacht Club obtained valuable data to aid it in selecting thre boats to rep-resent the United States in the contests here two weeks later against three Ger-man challengers for the President Tatt and Governor Draper Cups. The yachts yesterday were separated into three di-visions and were sent twice over a tri-anger ocurse six miles in length, and course of the same distance. The honors of the day in the first di-vision fell twice to the Joyette, owned by Commodore Wm. H<sub>a</sub>-Childs, of the Ben-sonhurst Yacht Club, Brooklyn, N. #### FIGHT NEWS.

New York, Aug. 17.— Willus Britt wired the officials of the Fairmount A. C. yesterday that he was about to leave Frisco with Stanley Ketchel, and that they would both arrive here the latter they would both arrive here the latter part of this week. It appears that Ketchel, who weighs 185 pounds, has been doing some strenuous outdoor training in the mountains and will be in pretty fair condition when he begins work here for the ten-round bout with Sam Langford at the Bronx Club on Sent 10. Sept. 10.

Sailor Burke wants to fight Willie Lewis again. Burke bobbed up to-day with the statement that he was drugged before the bout with Lewis last Friday night and that he did not know what he was doing when he got into the ring. Eyewitnesses of the bout, however, said to-day that Burke was in full posses sion of his faculties at all stages, par-ticularly when Lewis knocked him dowt in the sixth and last round.

Sandy Ferguson and Joe Jeannette are training hard for their ten-round mill to be decided here a week from Friday night. Ferguson says he will weigh 205 pounds, while Jeannette will tip the beam at about ten pounds less.

San Francisco, Aug. 17.—Stanley Ket-chel will start east to-day on a hurried trip to prepare for his bout with Sam Langford, but messages received here by friends say that he will spring a big sur-prise in the boxing line on the eastern-ers. Instead of taking a vacation in the wilds Ketchel writes that he has put himself in first-class shape, and that if Langford thinks he is going to find an

put himself in first-class shape, and that if Langford thinks he is going to find an easy mark he is badly mistaken. Ketchel has followed some of the training methods pursued by Jeffries when the latter used to train in the mountains. He has been hunting and fishing, and, in addition, has followed his old calling of wood-cutting. He was originally a lumberman, and it is to his constant use of the axe that he attributes the powerful muscles of his arms. can swing the axe as strongy as ever before, but admits that he is getting heavier. He says this does not indicate any lack of training, however, but that he has naturally a tendency to work up to 175 pounds or thereabouts. He says he will make the middlekeight limit in the match with Langford, but that he does not intend to reduce so much here-after. 1

The funeral of John McLaughlin took place from his father's residence, 42 Ray street south, to Hamilton Cemetery this afternoon. Rev. Mr. Fletcher con-ducted the services at the house and grave. The pallbearers were C. W. Gardner, William White, Fred Little-wood, A. Rogers, P. Nichol and T. Lees, jun. The floral tributes were numerous and beautiful.

# BACHELORS WON.

The third game of baseball was played last night between the married and sin-gle men's teams of the Right House staif. Each side had a game to its credit, and excitement ran high. The score was quickly run up again to startling fig-ures. Vollick (single) was rather un-lucky, but "Home-run" Casey (single) more than made up for it by his talent as a base-runner. When they quit, after the seventh inning, the score was 24 to 15 in favor of the single gentlemen.

dinary business channels for this par-ticular purpose. Extraordinary profits have been made upon such investments; and now that more profitable employ-ment can be found for such capital eith-er in regular business or in new enter-prises, it is folly to suppose that the owners will not take advantage of an unusual situation by turning their pro-fits into cash. Predictions as to the flu-ture of the market are extremely har-ardous. As just said, prices may go higher, but the tired spots are multiply-ing and with every advance the danget of a reaction increases, especially at stocks pass from strong into weaker hands.—Henry Clews.
