## THE PEARY COOK FIGHT.

Peary Says That He Knows of No Cook Records.

France Wants to be Arbiter in the Dispute:

Explorer Peary's Vessel Still at Battle Harbor.

Sydney, N. S., Sept. 13.-Commander Robert E. Peary is still at Battle Har-bor, Labrador, and his family here are eagerly awaiting word of his departure on the Roosevelt for Sydney.

Mrs. Peary yesterday received a wireess message from her husband that he would keep her posted, and from this brief word it is assumed that Commander reary has not definitely fixed the me of his sailing from Battle Harbor. Further information from Battle Harbon is now expected here before the latter part of this week.

part of this week.

Plans are being made to have Herbert
L. Bridgman, Secretary of the Peary
Arctic Club, with the correspondents,
meet the Roosevelt in the vicinity of St.
Paul's Island, and take him aboard the
steamer Tyrian which the government
had turned over to the newspaper men.
The Tyrian is a much faster sinp than
the Roosevelt, and this would expende the Roosevelt, and this would expedite Commander Peary's arrival here, and at the same, time give the correspondents an opportunity to question the Arctic ex-plorer about his dash to the boreal point

plorer about his dash to the boreal point and the Cook controversy.

Pending the arrival of Commander Peary no new phases of the Peary-Cook controversy are expected to develop, although the questions that have arisen are being earnestly discussed among the mem.ers of the Peary welcoming party which is made up of Arctic explorers, edientists and correspondents. It is cientists and correspondents. It is known here that Mr. Bridgman has sug-gested to Commander Peary through wireless telegraph that because of the temper of the controversy it might be well to defer any long statement until he has reached here.

FRANCE AS ARBITER.

Paris, Sept. 13.—French scientists are eginning distinctly to favor the sum-plission by Dr. Cook and Commander

beginning distinctly to favor the summission by Dr. Cook and Commander Peary of their records to an international scientific tribunal. Prince Roland Bonaparte, President of the Paris Geographical Society, believes that France is the logical arbiter. Speaking on the subject yesterday, the Prince said: "Recitals are inconclusive. They contain plenty of literary effect, but small detail, and they lack exact information. Personally, I think that both Cook and Peary should be asked to produce their proofs, maps and diaries. Until that is done the scientific world has the right to entertain what might be called scientific doubt. This does not imply distrust of either men, but it is proper that a demonstration should be given. It is humanly possible that both Dr. Cook and Commander Peary reached the pole, but why one rather than the other? I think that all documents should be submitted to a scientific society, which would name a commission composed of explorers, astronomics. mission composed of explorers, astronomers, navigators and polar experts.

Every document should be produced in order that the conclusion may be definite. The commission should have the order that the conclusion may be definite. The commission should have the right to summon witnesses and cross-examine them. Naturally, in the selection of a commission, the United States should be excluded. One cannot be both

indige and party.

"In the United States the scientists, according to their sympathies, are divided into what may be called Cookists and Pearyists. Therefore an American verdict would convince no one. England should also be excluded, as the two countries are bound by ties of blood countries are bound by ties of blood. Besides English cousins have displayed

In conclusion, the Prince declared that In conclusion, the Prince declared that France was the logical country to undetake the task. "France is on friendly terms with the United States," he said, "and completely disinterested, as none of her expeditions aim at the North Pole."

### Scarlet Fever Disappearing and Trolley School Opened.

Trolley street school was opened this morning on recommendation of Dr. Alway, Medical Health Officer of Barton Township. Lake school has not been Township. Lake school has not been opened yet, and will very probably remain closed this week. Dr. Alway stated this morning that it would in all probability be opened a week from today. This morning he put nine houses on the inspector's list to be disinfected, and more will follow rapidly. Some, he said, are not quite ready yet, but in a very few days there will be a busy time for the inspector. The epidemic now seems to be on its last legs, and will soon be wiped out entirely. Dr. Alway is, however, keeping up every precaution.

### RECEPTION AT RYERSON.

Ryerson Methodist Church had a reception service last evening, the first since the coming of the new pastor, Rev. C. S. Applegath. An even fifty new members were received, b' goodly proportion on profession of faith, others from out of the city and a number from the other city churches. Rev. Mr. Applegath officiated. The church is growing rapidly and the Sunday school is strong. The people look for much good to be accomplished.

Murray's Action Against Hydro-Electric Commission.

If It Succeeds the Beck Scheme Will be Knocked Out.

Toronto, Ont., Sept. 13.-An applica ion will be made to-morrow at the Par liament buildings, before the Attorney-General of the Province on behalf of Major John A. Murray, of this city, for fiat for leave to proceed with his ac tion against the Hydro-Electric Commis-

At will be remembered, the claim of Major Murray against The Commission for an injunction to restrain the Commission from proceeding with the construction of the power transmission line, and from erecting towers, and con-structing machinery and acquiring ease-ments from the farmers, etc., on the ground chiefly that the whole proceed-ing is unconstitutional, and that the Onario Government has no right to pro-

ing is unconstitutional, and that the Ontario Government has no right to proceed with its power scheme for the transmission of power generated by the Ontario Power Company from the waters of the Niagara River.

The Ontario Power Company takes water from the Niagara River under a franchise or license from the Ontario Government and Major Murray claims that the Niagara River being an international boundary river and also navigable, the Dominion Government has exclusive control over it.

The action, of course, raises very important constitutional questions, because if Major Murray is right, then the power companies are under the jurisdiction of the Dominion Government, and the Hon. Adam Beck's power policy would have lost its foundation altogether.

Mr. A. F. Lob is to represent the Hy.

### Guelph Woman Takes Her Own Life While Despendent. (Special Despatch to the Times.)

Guelph, Ont., Sept. 13.—In an uncon-cious condition, with a bullet hole in her right temple, and a revolver from shot had been fired by which the shot had been fired by her side, Mrs. Robt. Haugh, wife of Robt. Haugh, groeer, Glasgow street, was found in the bathroom at her home about half past three on Sunday afternoon. Medical aid was summoned, but noon. Medical aid was summoned, but she never recovered consciousness, and survived but a short time. She had been in poor health of late, but was about as usual on Saturday and Sunday. In the afterooon she lay down for a rest, and with her husband just outside the room on the verandah, took a revolver kept under the mattress, and, going to the bathroom, fired the fatal shot. A fit of despondency was no doubt responsible for the rash act, and no inquest will be held. A three-year-old daughter and two sons survive with the husband.

Lord's Day Alliance, who was in the city yesterday, was asked by the Times when action would be taken against the ice cream vendors in this city for doing business on Sunday. He said that the Legal Committee of the alliance would meet to-day in Toronto, and nothing would be done until after that meeting. He further explained that the reason to nothing had been done in the meantime was owing to many of the members of the alliance being away on their holidays.

of the Catholic diocese of Hamilton, Bishop DuMoulin indulged in a little heart to-heart talk with the congregation, and told the people very frankly what he thought of critics and their criticisms in matters of this kind. He presumed that there would be criticisms, and people would want to know why this one or that one was not appointed. "That is my business. I have my own reasons. As a cardinal once said to me: You are the bishop and the judge; I guess the Bishop of Hamilton knows his business." I think he does too," said his Lordship, who spoke appreciatively of Dean Mahoney's services, and said it was a high honor to the congregation of the cathedral to have him appointed vicar-general. icar-general.

explaining the meeting of the Council, which convened in Plenary Council, which convened in Quebec on Sunday next, his Lordship referred with satisfaction to the fact that the Catholic Church was not a national church and never would be. The Catholic Church, he declared, was universal.
