Party-Line Consideration

Two-party line is a single circuit, shared in common by two subscribers. It is not reserved for a single user and should be used on the share-and-share-alike basis.

On a two-party line it is impossible for both users to try to talk out on the same circuit at the same time. There is also the liability of both being wanted at the same time to receive incoming

Therefore, there are special considerations which we urge a party-liner user to keep in mind:

1. Long conversations prevent the use of the line by the other subscriber, therefore party.

I line talks should be as brief as possible.

2. Whenever another party-line subscriber requests the use of the line for an emergency, courtesy should be prompt, the first user temporarily to give up the use of the line.

3. Whenever a party-line subscriber takes the preceiver from the nook and finds the line in use, the receiver should be replaced at once

o in a careful manuer. 4. At the end of a conversation the receiver should be replaced upon the hook immediately, otherwise the other subscriber cannot signal the central office.

Be sure always to give the operator the let-ters W or J in calling a party-line subscriber

Co-operation is required to ensure good service of any kind.

WATE ARE Ford Dealers in this district and have formed an estimate of the number of cars we will require to meet the needs of this territory. We cannot get enough cars to fill that estimate because there are not enough cars being made to fill all dealers' estimates throughout Canada.

The number of cars we can get depends upon the number of orders we send in and the early date at which we send them in, as the Ford Shipping Department follows the principle, "First Come, First Served."

Cars ordered now will not be delivered until March, and deliveries will be uncertain throughout the year. If you do not want to wait for summer or autumn delivery, come in and reserve your car by signing an order today.
