

The Silver Jubilee of Rev. Dean Murphy.

We learn with great pleasure that the Ven. Dean the Very Rev. Jas. Murphy, P.P., of Irishtown, will celebrate his silver jubilee on the 25th inst. On that day he will have completed a quarter of a century passed in the vineyard of his Lord and Master. What trials and labors have been his during this long period in only truly known to himself and to Him whose eye penetrates the recesses of the human heart. How faithfully and with what holy zeal he has performed the many sacred duties incumbent upon him as a priest of the Catholic church is patent to the many people over whom he has, like the good Shepherd, so paternally watched during this length of time. This day then will be a red letter day for the rev. gentleman. His confreres from the different parishes in the Diocese will assemble in Irishtown to congratulate him on this his silver jubilee, and present him with tokens of their deep respect and esteem. His good people, whom he has so wisely counselled and served for the last eighteen years, will no doubt also on this joyous occasion manifest their love and esteem for their revered pastor. The rev. gentleman is so well known in the Huron district and through Ontario and Quebec that it is needless to say much of his life and the following particulars concerning him and his career may be of some interest to some of our readers. Father Murphy was born in the vicinity of Montreal P. Q. At an early age he entered the Sulpician college in that city, finished his classical course there in a short time, and chose the ecclesiastical state for his vocation. After four years spent in the Sulpician Seminary in the study of theology, and having received minor orders therein, he was ordained priest on the 4th of July, 1858, in Sandwich, which was then the Episcopal See of the Diocese, by the late lamented Bishop Pissoneau. He had not met much time to rest after his ordination. Immediately he was appointed procurator to the college of Sandwich. A year being spent by him in this office, he was transferred to Stratford, where he became assistant to the late reverend Bishop Cymon. An idea may be formed of the intense work he had to perform as assistant, when we consider that at that time the following missions had to be attended from Stratford, viz: Mount Carmel, McGillivray, Bothwell, St. Marys, Mitchell and Kinkora. In September, 1859, he was promoted by his Bishop to the pastorate of Biddulph. Here he began to show his ability as an administrator. Here he built a handsome brick church. In 1861 he also erected a frame church and established a separate school in Mount Carmel. In May, 1865, he was transferred to the mission of Irishtown. Here he has labored for the last eighteen years. His labors and duties while here have been manifold. In 1869 he erected the Seaford church, a large, handsome brick building, which strongly bespeaks his talent as a builder of churches. In June, 1872, Zurich saw a handsome little brick church spring up under his guiding hand. In the same year the French settlement on the shores of Lake Huron rejoiced in the same good fortune. In 1876 the village of Blyth had its beauty enhanced by a lovely frame church built by him. The same year the handsome town of Mitchell saw looking down on it from the neighboring hills a beautiful church, also the work of the reverend Dean. In the years 1876-7 he greatly enlarged the Irishtown church and increased its beauty both externally and internally. In 1878 the town of Wingham also saw rise in its midst a brick church, the work of the reverend Father. But a few years ago he erected a handsome brick presbytery at Irishtown, from whose lofty tower one can enjoy the beautiful scenery of the surrounding country. Truly the reverend Dean has been a worker in the true sense, and his twenty-five years have not been spent in vain. However, besides those material temples which he has erected over the Diocese for the glory of God and for the good of religion, who can tell and enumerate the number of those spiritual temples he has built up—souls saved by his teachings, his examples and the administration of the Holy Sacraments. These are some of the works performed by the reverend Dean, and when he is called to his reward, they will stand as monuments of his energy and zeal for the love of God, telling to future generations how much in a short time a priest of God, inflamed with ardent charity and zeal, can accomplish. (Cont.)

Colborne.

PERSONAL.—John Clark, of Bull's Run avenue, and R. D. Morris, of Garbraid, visited Buffalo to see the sights and joys of the 4th of July. A fine, large stable, 36x25, was raised on the farm of Harry Green, Batterman row, last Saturday afternoon. The sides were marshalled by William McCann, of Paradise, and Benjamin Hogarth, of Bull's Run avenue. Again the music, led by an eastern man, won the day—Mac beat. During the raising, James Stirling got hit on the head with a commander, but is able to be about again. The builders were the Larks, from the Nile, under command of H. MacWhinney.

Kintail.

This place is becoming noted as a place of resort to all votaries of pleasure. The exhilarating breezes of Lake Huron, the beautiful natural surrounding, and the kind and courteous disposition of the inhabitants are no doubt among the multifarious attractions. A grand picnic was held here on Dominion Day by the various scholars of Ashfield, thirteen schools being represented. About 10 o'clock notwithstanding the inclemency of the weather, rigs came pouring in from north and east, bearing living burdens comprising a monstrous medley of all conditions, from the aged man with heavy hair to the infant in its mother's lap. After the elements had somewhat subsided an immense concourse of people wended their way to the dock, where the wretched rig was fitted up with swings and the grounds otherwise rendered suitable for the occasion. The Benmiller brass band was in attendance, and at intervals discoursed abundance of excellent music which in addition to the enchanting strains of the "jubilee" as charmingly played by Miss McKay, relieved the

monotony of the day, and greatly added to the enjoyment. About 1 o'clock a delicious repast of the choicest delicacies was served up, and after the edibles were demolished the company repaired to the grounds where prizes for running, jumping and throwing the stone, &c., &c., were competed for by the children. The little folk entered into all the games with a zest and skill that would have done credit to those of mature years, particularly the tug of war, which was the most exciting feature of the games. Ten pupils under fifteen years were selected for S. S. No. 3, and an equal number from No. 9, and set in array for the tug by their respective teachers, Messrs. Lane and Yule. The former were very gritty little fellows, and were almost a match for their opponents who after three stiffly contested pulls were declared the victors. The dock being fitted up for dancing the elite of Ashfield repaired thither and engaged in the "light fantastic" to their heart's content. About 5 o'clock the company dispersed, more than satisfied with the day's enjoyment.

Danlop.

Miss Kate Macdonald is away visiting friends at Kincardine. VISITORS.—Miss Martha Young and sister, Mrs. Lewis of Pontiac, Mich., with their children, are guests of their parents, Mr. and Mrs. Young. OLD FACK.—A few days ago Sam Appleby received a warm welcome from his old comrades, the Black Sheep. Sam is now a resident of Clinton. He looks well and hearty, and is still a strong supporter of the single side.

PERSONAL.—Our townsman, D. Cumming nearly got the first prize at quills at Goderich again this year. He was only behind the man from the Sapoy village by one point. On the "fourth" he went to Buffalo, but we do not know whether he had a tussle with any of Uncle Sam's residents at quills.

Our Irishman recently gave a lady a drive from town. On unhitching his buggy he found that she had dropped her purse in his rig, and he was at once going to send a messenger with it to her residence five miles further, but she had discovered her loss, and returned to make enquiries about it. Like a true son of the Emerald Isle, he returned it after a little badinage, receiving many thanks from the fair owner.

St. Helens.

Andrew Glasgow, of Algoma, is visiting friends here. Edward Glasgow, of Kansas, left for home this week, being here attending his father's funeral. Peter McDonald, who was prostrated with inflammation and pleurisy is recovering. John McCrosbie, John Joynt and Patrick Devereu, who were down with inflammation, are recovering. Quite a number have started haying but find there is not much profit in turning their hay every day up to the sun to dry. Wait a little longer; dry weather may come. Our shoemaker, Wm. Story, who returned from Algoma last week, has resolved to pull up stakes and leave this village. This will be a good opening for a good tradesman. Charles Durenin, deputy reeve of W. Wawanosh, while going to Goderich last Saturday with a fractious horse which attempted to run away, got thrown out of his buggy between the front wheel and the spring, injuring one of his legs severely. He succeeded in stopping his horse before going far, or matters might have been worse.

Marine Notes.

ARRIVED. Saturday—prop. Quebec, Sarnia, passengers and freight. Schr. Ontario, Blind river, lumber. Schr. H. N. Todman, Victoria harbor, lumber for Buchanan & Lawson. Monday—Schr. Emmue, Sandusky, coal for Big Mill. Wednesday—Prop. Ontario, Sarnia, passengers and freight. Prop. United Empire, Duluth, passengers and freight. DEPARTURES. Saturday—prop. Quebec, Duluth, passengers and freight. Monday—schr. Ontario, Blind river, light. Wednesday—prop. Ontario, Duluth, passengers and freight. Prop. United Empire, Sarnia, passengers and freight. Schr. H. N. Todman, Meaford, salt. Schr. Explorer, yatching excursion, Georgian bay.

"When I see so many children leaving school, year after year, duly certified as fully equipped for the battle of life, and find so many of them in after life unable to construct a proper sentence in English, or to present off hand, a connected story of any important event, I am forced to acknowledge the weakness of a system of so much unproductive 'ramming' so much stealing from encyclopedias and ready reference books, in order that pupils may keep their places in their respective grades, or attain a high per cent. on paper at examinations."—[Supt. Cooker, Buffalo.]

LIQUID GLUE.—A glue ready for use is made by adding to any quantity of glue common whiskey, instead of water. Put both together in a bottle, cork it tight, and set it for three or four days, when it will be fit for use without the application of heat. Glue thus prepared will keep for years, and is at all times fit for use except in very cold weather, when it should rest in warm water before using. To obviate the difficulty of the stopper getting tight by the glue drying in the mouth of the vessel, use a tin vessel with the cover fitting tight on the outside to prevent the escape of the spirit by evaporation. A strong solution of isinglass, made in the same manner, is an excellent cement for leather.

High School Trustees.

A meeting of the High School Trustees was held last Monday, pursuant to notice. Present: the chairman, Rev. Dr. McLean, Dr. Taylor, and Messrs. Williams and Jordan. Minutes of last meeting were read and confirmed. An application from Mr. A. J. Moore, for increase of salary, was read. Moved by Dr. McLean, seconded by Mr. Williams, that Mr. Moore's salary be increased \$50, to take effect from the first of January last.—Carried. An application from Mr. Heale, for an increase of salary, was read. Moved by Dr. McLean, seconded by Mr. Williams, that if the work is properly performed for the next six months, to the satisfaction of Mr. Strang (as in the meantime we consider that the school has not been kept as clean as it should be) that Mr. Heale receive a bonus of \$10.—Carried.

A petition from Mrs. Doty and a number of ladies of the Christian Temperance Union of this town, praying for the introduction of scientific temperance instruction in the High School, was read. Moved by Dr. Taylor, seconded by Dr. McLean, that the prayer of the petition be acceded to, subject to the approval of the Minister of Education.—Carried.

The report of Inspector McLellan, on the High School, was read and filed.

Moved by Dr. McLean, seconded by Mr. Williams, that the Secretary be instructed to ascertain from the Department of Education if the Legislative Council of this Province has passed any act for the last half year in accord with the amended regulations passed on the 31st July last, and that the chairman and secretary be instructed to request the Town Council to raise any additional sum that may be required over and above the Legislative and County grants, to meet the expenses of the High School for the current year.—Carried. The Board then adjourned.

Garbraid.

A number of valuable sheep belonging to Mr. Jos. Morris, Garbraid were worried by dogs on night last week. Five sheep were killed outright.

Benmiller.

The best Place in Goderich to Buy Your Dry Goods and Groceries, is at COLBORNE BROTHERS.

SEE HOW TO Preserve 256 Pounds of Fruit, Tomatoes, &c. FOR ONE DOLLAR.

ONE (\$1) PACKAGE OF THE American Fruit Preserving Powder & Liquid Will Do It.

The Preserving Powder and Liquid are together in package; the Liquid in bottle with the powder packed around it. Both the Powder and Liquid are antiseptic. Used together as directed, they combine to form the Cheapest, Best and Most Reliable Antiseptic in the world, being instantaneous in its action and permanent in effect, and warranted to be as healthful as common table salt.

Fruit, Juices, Syrups, Sauces, Marmalades or Composites of Fruit, Spiced Fruits, Tomatoes, Vegetables, Cider, &c.

The Preserved Fruit, etc. may be kept the year round, or for years, in Glass, Earthen or Stoneware Jars of any size, simply corked with a common cork, or with strong paper, or oiled cloth tied over the top, or they may be kept in Wooden Kegs and Barrels. No need to keep the vessels air-tight. The Fruit, etc. may be used or removed from large vessels as wanted from time to time during weeks or months. The Fruit, etc. may be transported over land or water, involving weeks or months in transit.

One (\$1) package will preserve two Barrels of Cider: it will keep as still cider in barrels; as desired it may at any time be made into sparkling cider. The Preserving Powder and Liquid is not a new and untried experiment, but has been extensively used throughout the United States and Canada, and to considerable extent in foreign countries during several years past, and as can be shown by thousands of testimonials, it has proven itself reliable and satisfactory in every climate—in fact it has given such universal satisfaction, and grown into such demand as to warrant the belief that it will supplant all other methods of saving Fruit, etc.

Acting upon such assurance and belief, the package of Preserving Powder has been enlarged to the extent of making one (one dollar) package, to preserve 256 pounds of Fruit, etc., or two (2) barrels of Cider. Also in place of publishing the manual or circular pamphlet giving twenty-eight pages of testimonials as formerly published, a small package of the Powder and Liquid is made (as a trial package) to sell at retail, for 25 cents.

Try the Preserving Powder and Liquid—you will like it—you will find it less than half the trouble and expense of any other method, more reliable and accommodating, and the Preserved Fruit, etc. even Superior to the Best "Canned or Preserved" Fruit, etc. For Cider it is cheap and decidedly the best known method of keeping it sweet.

Full directions in English, French, German and Spanish accompany each package. Agents wanted in every Town, County and State.

Price, 25 Cents and \$1.00 Per Package. L. P. WERRALL, Proprietor, New York.

JAMES IMRIE, Goderich, Ont., SOLE AGENT FOR CANADA.
