WHEAT SHIPMENTS.

The total amount of wheat handled by the railways this year is just being figured up, and the figures show excellent results. The Canadian Pacific returns show that 41,300,000 bushels were marketed on that road up to Dec. 1. The Candian Northern report states that the system handled 20,000,000 bushels of wheat up to the canadian Pacific returns the canadian Northern report states that the system handled 20,000,000 bushels of wheat up to the

TURKEYS ON THE SQUARE.

In spite of the necessity which re tail butchers and grocers have felt comporting their choice poultry from the eastern provinces on account of the alleged inferiority of the hom-product, it is a fact that home-grown turkeys are supplying the bulk of th local demand. For the past wee farmers have been bringing on to the market square an selling them to individuals or de livering them to the hotels of the city The prices obtained by the farmers are, as a general rule, higher than the butchers will pay them, consequently the latter have little other than imported poultry to dispose of. than imported poultry to dispose of.

Wednesday was practically the Christmas market on the Square Dressed meats were offered freely and found ready sale. Turkeys of splendid quality and good weight sold at 20c to 22c per lb. A farmer came in with a load of nineteen large turkeys. At eleven o'clock they were nearly all sold. Geese are in good demand at 13c to 16c per lb. Spring demand at 13c to 16c per lb. chickens are not so much in favo but are selling fairly well at 121/2c Butter and egg prices have take upward tendency, which seems be prompted by the fact that the

price will be paid at the Christmeseason if at no other. Fresh eg were quoted at 50 cents per dozen at dairy but er at 30c to 35c per lb. "The market has been strong eve day this week," said one farme "and there is no reason why eve one in Edmonton should not ba all the necessary things for an of fashioned Christmas feast."

ALBERTA RED FOR MEXICO.

H. H. Cooper of Vancouver, who came up from Calgary Tuesday, is enthusiastic over the possibilities of the Mexican market for Alborta wheat, as well as that of the South American republics on the Pacific coast. Mr. Cooper has spent some time in Mexico City and is in a position to understand the Mexican market. The object of his visit to Alberta is to further study the possibilities of establishing a trade with that country and will make a test shipment if satisfactory freight rates can be arranged. As soon as terminal facilities are established at Vancouver the bulk of Alberta grain, says Mr. Cooper, will go by that route.

The fact that Only 209 cars of corn are expected at Chicago to-morrow, cut a swath in the matter of price making.
