Uncle Ben's Disappointment

He Thinks "Mary" Evasive, but He Tells Her of the Big-Hearted Parson Shears, After Whom Shearstown is called.

Editor Evening Telegram.

Dear Sir,—I was rather disappointed in reading over "Mary's" letter in your paper last evening. When I wrote my letter of enquiry I referred to your correspondent "Mary," thinking she knew everything, and felt sure I should have no trouble in getting the facts from her. She appears to be evasive, and certainly does not give the information, but through Tom refers me to the Minister of Marine and Fisheries. As I am not very well acquainted with that gentleman I did not like to trouble him. I took "Mary" to be a real Encyclopedia, but I'm sorry to say I am very much disappointed and will have to try some other source. At the end of her letter she tries to ball me up by asking me in what year Shearstown got the name and who gave it the name and who was it called after? Well, begannies, I can give her more correct data on that than she did on the question I asked her. If I mistake not, it got its name the very first year her uncles Moses, Nath., Eleazor and the rest of them were up to Spaniard's Bay Pond River gathering fresh water clams for bait to go fishing, and I dare say she well remembers the tub-full they sent down to Tom for the same purpose. Shearstown was called after the late Rev. W. C. Shears, the philanthropic minister, who resided at Bay Roberts for about forty years, and it was given the name under the good old Liberal Government, of which I am proud to say I was a very strong supporter, as it spent the people's money with judicious economy. I might here give "Mary" a bit of history in the Fifties with regard to the town in question. At that time there were very few families living there, who have long since passed away. Some of their names were Seymours, Deers, Sharps, Edisons and Parsons, and a few more families. Time was then when we were in hard luck and in very poor circumstances, through no fault of our own, so we just existed with scarcely enough to keep 'body and soul together, and would not have been able to do that only for the kind assistance of the said rev. gentleman. But, sir, poverty is no crime. It was then known as Spaniard's Bay Pond. Under Tory Governments it could make no advance, but with the good advice and attention to our needs of the above named clergyman, together with the Policy of Progress brought about by the Liberal Government, then a new era of prosperity began to dawn upon us, so that things improved, and as a good omen its name was changed to Shearstown, and it is to-day one of the most prosperous settlements in the Island. Again, I might tell "Mary's" Tom I need not ask the said Minister of Marine and Fisheries for the facts of my enquiry, because he is not very well posted on the matters sought after, and for her enlightenment as to the history or name of Shearstown I will refer her to the celebrated Captain Martin Sharpe, who, I feel certain, will give her all the particulars she needs with regard to the origin of its name. In conclusion, I may add that I am reluctant in owing up to being "raised" at Spaniard's Bay Pond, but when the name of Shearstown is mentioned I confess to a feeling of pride at being born there, simply and solely because of that place being named after one of the best and truest-hearted clerics that Newfoundland has ever had. This, too, despite the fact that the places named are one and the same. Hoping you will excuse me for trespassing so much on your valuable space, I remain,
Yours sincerely,
UNCLE BEN.

Double Drowning at Charlottetown.

Mrs. John McIntyre and Hired Man Broke Through Ice on Harbor and Rescuers Were Too Late.

CHARLOTTETOWN, P. E. I., Feb. 28.—Last night a double drowning accident occurred in Charlottetown harbour the victims being Mrs. John McIntyre, aged 45, who lived on a farm at Rosebank on the opposite side of the harbor and a hired man Daniel Plaisted, aged 23. They had attended service in St. Dunstan's R. C. Cathedral and afterwards started to drive across the harbor on the ice to their home about a mile away. The watchman on the wharf heard cries of distress and ran to the Labor Union Hall, two blocks away securing a number of young men who hauled a boat on the ice and started searching. Within an hour they discovered the body of Mrs. McIntyre. It was upheld by her cap and hair frozen in to the ice, at the edge of the open water, where the winter steamer Earl Grey berthed. The body was submerged up to the forehead. It is supposed that she and Plaisted were walking alongside the sleigh when it broke through. She ran for help towards the light on the Marine Wharf and fell into the open water. No trace of Plaisted or the horse has been found. Mrs. McIntyre leaves a husband and three children. Further details show that just as the young men were launching the boat from the wharf the woman, who had been calling "Come to me quick," ceased her cries. The body was only 25 feet away and had the rescuers been able to locate it at first she might have been saved.
Rev. Mr. Morgan, of Millertown, is in the city under medical treatment.
