To the Ratepayers  
of St. John's.

At the request of a large number of my friends, both East and West, I have decided to place myself in Nomination at the forthcoming Municipal Election. Owing to the limited time between now and Polling Day, and the possibility of not being able to call on every elector personally, I would kindly ask them to accept this card as a personal canvass. I promise, if elected, to use all my energies to see that the civic taxes are spent judiciously.

## War News.

Messages Received  
Previous to 9 A.M.HEAVY FIGHTING; GERMANS ARE  
MAKING DETERMINED EFFORT.

LONDON, June 21.  
Officials issued to-day by Austrian and Russian War Offices all indicate what has been anticipated, that the Germans are making a determined effort to resume the initiative lost by the Russian General Brusiloff's diversion, by a strong attack on General Kuropatkin's army in the north, especially in Volhynia on the Stry and Stokhod rivers in an effort to prevent the Russians receiving reinforcements. Although up to the present the Germans are making no striking advances, they are clearly holding up their opponents most stubborn fighting with fluctuating results proceeding around Gouziatyn west of Kolki. The Germans are again attacking farther north in Smorgon district, and in the region of Riga. Military experts say that it remains to be seen whether the Germans will be able to bring sufficient pressure in those sections to relieve the hard pressed Austrians in Bukovina and enable them to make a fresh stand on a new line.

## ADVANCING IN WEST AFRICA.

LONDON, June 21.  
The Allied forces invading German West Africa, are continuing to advance successfully, it was announced officially to-day. A column moving from British East Africa into the northeastern section of the German Colony, has occupied Kandeni. Another column, advancing from the south, has taken Lanfeaburg.

## CHANGES IN CONSTANTINE'S MINISTRY.

ATHENS, June 21.  
King Constantine is taking up the

question of changes in the Ministry as a result of the continuation of the blockade by the Allies, and it is believed that former Premier Zaimist will be asked to try and form a cabinet which will be acceptable to the Entente.

## NORWEGIAN TORPEDOED.

LONDON, June 21.  
The Norwegian steamer Aquila has been torpedoed by an Austrian submarine, 100 miles off Marzilles. Crew saved.

## PROTEST FROM GREECE.

WASHINGTON, June 21.  
An identical note, protesting vigorously against the interference by the Allies with the marine trade of Greece, has been presented by the Greek minister to the State Department, diplomatic representatives and Secretary Lansing of the American Government. It asserts that the traditional principles have been violated and that Greece has been unable to obtain any official explanation or response to enquiries.

## VIOLENT ATTACK ON FREICH POSITIONS.

PARIS, June 21.  
A violent attack on the French positions northwest of Rheims, was made by the Germans last night at Hill 108 and in the direction of Berry au Bac. The attack was repulsed by French artillery fire. The Germans exploded two mines before launching their infantry attack against the French trenches. Their repulse was due, the statement says, to the effectiveness of the French screen fire. In Verdun sector no infantry action was reported, but mutual bombardment was maintained during the night.

## ITALIAN SUNK.

LONDON, June 21.  
The Italian steamer Poviga was sunk last night, according to Lloyds.

## PFLANGER'S ARMY CUT IN TWO.

LONDON, June 21.  
Confirmatory reports of the cutting in two of General Pfanger's army in Bukovina are contained in a despatch

to the Star from Petrograd to-day. When the Austrians retreated due south along the Rumanian border and others towards the Carpathians the hope was to save time and hold the Russians on a fortified line running from Kutly to the Sereth and along the rivers Mikhodra and Sereth but despite the delay caused by the prolonged defence of Czernowitz, General Letchitzky threw his reserves up on the heels of the retreating Austrians with such speed that he succeeded in reaching that line simultaneously with them, with the result that Pfanger's force was cut in half midway between Kutly and Sereth, at Stroginet.

## GUARDSHIP BLOWN UP.

STOCKHOLM, June 21.  
A small German guardship has been blown up by a mine off Falsterbo.

## WAR OFFICE COMMUNICATION.

LONDON, June 21.  
The following communication was issued by the War Office to-night: The day being devoid of any important incident, passed quietly on most parts of the front. An intermittent shelling occurred near Habuterna, Souchez Valley and Fellingheim, while mining continued briskly near Neuville, St. Vaast, and Loos salient near LaBassee. Yesterday evening five of the enemy's ammunition lorries came under fire of our artillery. One of them was hit, and all of them exploded.

## RELATIVES PROHIBITED FROM VISITING FRANCE.

LONDON, June 21.  
After Monday next no relative of sick or wounded officers will be permitted to visit France, unless their condition is dangerous, and special permission has been granted, it was announced to-day. This restriction has been imposed owing to the necessities of the military situation.

## THE PETROL SUPPLY.

LONDON, June 21.  
The Government have declared that a more effective diminution in the use of petrol by motor cars will be obtained by control than by increasing taxes on cars. Henceforth according to the announcement made in the Commons to-day, increased taxes are to be restricted to a central authority to be created, with power to grant permits for the purchase of a specified amount of petrol for which a license of sixpence per gallon must be paid at the time of purchase. For commercial cars or those of doctors and veterinary surgeons, permits will be issued at half rates. The discussion in the Commons elicited the general opinion that control of petrol would be more equitable than increasing the tax on motor cars, though one member of the House pointed out that the extra cost of petrol would be more than the amount of the extra tax. Efforts were made in the Commons to have the maximum income tax reduced from five to four shillings per pound, but the Government declined to do anything except to endeavour to relieve the incidence tax on small unearned incomes.

## POTATOES SCARCE.

AMSTERDAM, June 21.  
According to the Vorwarts, a potato famine is threatening Cologne. The quantity available at the present time is two and a half pounds per head per week, but the paper declares that the sale of potatoes is to be completely stopped in the next few days.

## CLASH WITH CARRANZA'S FORCES

EL PASO, June 21.  
A detachment of American cavalry clashed with Carranza's forces at Carrizal about 80 miles south of El Paso early to-day, both sides suffering heavy casualties. According to unofficial reports received by the Mexican military authorities who are investigating, forty Americans were killed by machine gun fire in a surprise attack. The Mexican casualties are said not to have been so heavy, but General Felix Gomez is named as being among the Mexican dead. An American command, said to have been a part of a scouting patrol from Auzman is returning to General Pershing's line of communication. General Gonzales, a Mexican commander, in Juarez, gave out the statement which he announced as official, that the Mexican command or had taken 17 American prisoners; he also said that General Gomez' death is confirmed, but said he had no official reports.

## May be Refloated.

Supt. H. A. Saunders, of the Anglo-American Telegraph Company, received a message last night stating that the S. S. Arache, which went ashore, Monday night, at Point Platte, Little Miquelon Island, was still aground. No cargo had been jettisoned, and no water was in the hold. With the assistance of another steamer she could be easily floated. The crew are still on board. The Arache is a steamer of 8,000 tons and is wheat-laden.

## Our Baseball Column.

PLAGIARISED AND OTHERWISE.

Those of our readers interested in Baseball will please note that this column will be published each Tuesday, Thursday and Saturday.

But we're on the trail of a certain guy. There's a simp we are out to trim. And when we have finished, his folks will buy a kimono of wool for him. We will smite him even as Samson smote: We will leave him among the slain. Just show that fathead to us who wrote: HOW BEAUTIFUL IS THE RAIN!"

In order to allay any wrong impression that might be gathered otherwise, we have to say for the benefit of the fans generally that the same teams—Wanderers and Red Lions—will meet again next Wednesday, as in the Baseball League the games follow in regular rotation of the schedule whether postponed or not. In Saturday's column we are going to have something to say to the Umpires,—just a few words of advice, nothing more.

We are prepared to answer all enquiries or give any information regarding the game or the League. All communications should be addressed "Our Baseball Column," care of this office.

We were never known as a hasty cuss. We are generally meek and mild; It is seldom or never we start a fuss, And it's rarely they get us riled.

The Growing Tendency  
of the Age—

A noted English scientist asserts the tendency is toward "neurasthenia, 'nerves,' etc." A remarkable statement!

No less remarkable is the cause which, he adds, "is not unlikely due to removing from our diet those elements of cereal food which Nature has hid in the husk of the grain, and which man in his ignorance discards."

The elements to which he refers are the well-known mineral salts of phosphorus, lime, iron, etc., removed in milling flour to make it white, but which physicians know are indispensable to normal, well-balanced nerves, bodies and brains.
