THE HAPPY TOLLER. James Jimpeon tolls to beat the band, throughout the livelong day; we find him busy pounding sand as we pursue our way; with blisters on his strong right hand he earns his meagre pay. I hear him whistle the cheerful airs while tolling like an ox, while on his stalwart back he bears a ton of bricks or rocks; too frequently the worker swears, or deals in vicious knocks. "I have a home," this James replies, to questions I propound, "where loving kindness never dies, and peace is always found; there, while we deftly swat the flies, our joyous words resound. When once the heavy day is o'er, and all my labors through, my wife is waiting at the door, the fourteen children, too, and they send up a gladsome roar when Father looms in view. All things are ready for Old Dad, his chair and slippers pink, and there's a feast of kippered shad, and wholesome suds to drink, and everyone is bright and glad, and nothing's on the blink. The folks at home are all intent on shielding Dad from we; they would not give a phony cent for joys he may not know; and how can any tolling get be said when this is o'er, if to his home a man repairs, at closing of the day, and finds his people sore as bears, instead of blithe

San Francisco Plans to Extend Harbor 20 Miles. SAN FRANCISCO, Aug. 6. (A.P.)—The water front of San Francisco will be extended 20 miles beyond its present limits for the development of a great industrial section if the United States government approves plans for dredging a deep-water ship canal south from Hunter's Point, in San Francisco, to Ravenswood in San Mateo county. The project is being pushed not only by San Francisco, but by every city and district for 50 miles down the peninsula to San Jose. Besides dredging a channel, it is planned to reclaim 20,000 acres of tidelands for industrial sites. The land would be reclaimed through use of the dredged earth. The government aid has been asked only for the channel. The reclamation and wharfage improvements are to be undertaken by private interests, together with the state and the countries involved. The entire project will involve many millions of dollars. San Francisco has a water front that is owned and operated by the public. Title to the property is in the state of California and harbor affairs are administered by a board of three harbor commissioners. The city at present has 15 miles of berthing space for vessels, with 5,000,000 square feet for cargo area. The new facilities are intended to increase the harbor space to more than double and to provide a vast number of potential factory sites.
