W. T. Strong, druggist, 184 Dundas street, keeps a full line of toilet articles. A Dinner Fill.—Many persons suffer ex-eruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stemach, and instead of being a healthy nutriment it becomes a poisen to the sytem. Dr. Parmelee's vege-table Pills are wonderful correctives of such troubles. They correct acidity, epen the secretions and conver the food partaken of into healthy nutriment. They are just the medicine to take if troubled with Indiges-tion or Dyspepsia.

CARTWRIGHT COMING. Another great Liberal rally will be held

in the Grand Opera House Wednesday evening, when Sir Richard Cartwright, the able advocate of trade freedom, is expected to address a mass meeting of the electors of London. It may be that Hon. Oliver Mowat. Premier of Ontario, will be presen to speak in the interests of Mr. Hyman and the Liberal policy. Mr. Hyman himself will also be heard from.

THE SAME SAUCE ALL ROUND. In the recent East Middlesex election campaign many voters in this city canvassed and voted for Mr. Marshall on the Is giving wenderful Satisfaction. Have you tried it? ground that as he had been unseated through no fault of his own, he should be A. M. HAMILTON & SON, permitted to serve out his full term.

In East Elgin the same view was pro pounded in favor of Mr. Ingram, and the Toronto Empire (Conservative) says that the argument obtained many Liberal votes for the unseated candidate.

Canada would be better off if there were no graver impurities in its politics than those revealed at the London election trial .- [Toronto Telegram, Independent Conservative.

BRITISH FAIR PLAY.

By voting for Mr. Hyman you simply extend to a young townsman the British Fair Play of allowing him to fill out the Parliamentary term for which he was fairly elected. By voting for Mr. Hyman you do not thereby deprive Mr. Carling of a seat in Parliament, as Mr. Carling will be now: reappointed to the Senate immediately after Mr. Hyman's election on the 26th.

In the four bye-elections in Nova Scotis the Liberal popular vote has been increased 1.200 over that registered in the contests of March last. Where time and money have been spent on the voters' lists the Liberal

THE MOLDERS' STRIKE. The Tizer shifts its ground in regard to the Hamilton molders' trouble, and now says it is a struggle between the Gurneys and the union. The Free Press said this at the beginning. So

Free Press said this at the beginning. So are does the argument against the N. P. in I.—[London Free Press. CORN-Receipts 1,519,000 bu: exports, 120,279 where does the argument come in Lucator The bosses complain that they cannot pay the men the wages they have been paying them. That, in fact, they cannot afford to give them the wages they got during the Mackenzie regime. The men refuse to accept the reduction. They have longer idle apells than they had, and living is dearer than it was under Reform rule.—Hamilton Times.

Of course, the ADVERTISER did not shift

45c; cranulated, 4c to 45c.

EGGS-195c. its ground, nevertheless our city contemporary is well answered by the Times. The fact is that while the stove manufacturers enjoy a "protective" tariff of 35 per cent. on stoves-equal to \$7 on a stove worth \$20 -the Hamilton molders, in the place of all places that was expected to receive benefit to mechanics, assert that they earn only \$1.38 per day the year round! When the "N. P." has brought skilled labor down to this low level, surely it is time for molders and all other wage earners to consider whether or not they have been imposed upon by the combines. The molders could not be worse off under trade freedom than they are under the restricted system which cuts down their wages and leaves them so small a sum with which to maintain their wives and families.

Mr. Gibbons, Q.C., Answers the Free Press Queries.

Some Things for Thoughtful Men to Ponder Over.

The Free Press reiterates several questions which it asks me to answer at our

portunity before the election may I answer

without the American market; i without the American market; if our farmers with mixed farming require that market as an essential to their success; if our manufacturers cannot get in any market as an essential to their success; if our manufacturers cannot get in any other way a market large enough to enable them to produce cheaply or in fact to manufacture on the line of the present to manufacture on the line of the present age which requires specialization and large output; if these things cannot be had without discrimination against Great Britain, then I answer the question yes. It would be a good thing for Canada and a good thing for Great Britain also.

England sends about 2½ per cent. of her exports to Canada. It is neither here nor there to her. She finds in the growing and more prosperous country south of us a more prosperous country south of us a fellow of yer vunsavory reputation.

more prosperous country south of us better customer. Herincreased exports to that country every few years is greater than her total output to us. She not only

that country every few years is greater than her total output to us. She not only sends to the United States many more goods, but she discriminates against us in the investment of her means in that country. She builds no factories in this country nor buys any. She invests no money in our mines, while hundreds of millions of her funds are being sent to the States. She discriminates in her investments of this character because no Englishman will invest his money in manufacturing in a country which does not afford a market sufficiently large to enable him rito manufacture as he understands manufacturing. He will not invest his money in manufacturing in a country where it costs more than an ordinary profit to sell the goods. He won't build or buy cotton mills when the only chance for a dividend is to shut uppart of thems and force up prices 20 to 30 per cent, higher than the real value of the product. He does not understand that illegitimate way of doing business and will

have none of it. What Great Britain wants us to do is to

larger market.

The fact is that from every standpoint, that of the farmer, the miner, the ship owner, the lumberman, the manufacturer,

owner, the lumberman, the maintacture, our hope is in the removal of restriction to trade on this continent. This letter has grown so that I must ask space again to answer some of the other questions. Yours truly.

GEO, C. GIBBONS.
